INAUGURAL ADDRESS BY MAYOR THOMAS S. BURGIN

January 6, 1941

Gentlemen of the Council:

We have assembled this morning in accordance with the provisions of the City Charter to inaugurate the fifty-third year of city government in Quincy under circumstances and general world conditions which are, to say the least, unusual. Let us be mindful of the confidence which has been placed in us by our fellow citizens through re-election. May we, therefore, accept this responsibility of holding public office with a seriousness of purpose and with a determination to administer our duties in a manner befitting the record of achievement which has been indelibly printed in the history of Quincy since 1889, when we became a city.

I trust that you will pardon me if I pause in my address at this time for the purpose of expressing a few personal thoughts before getting into the seriousness of the problems that will require our attention during the year that lies ahead. It is with particular pleasure that I express my sincere congratulations to the three Councillors-at-large who have been re-elected to serve in this body during the next two years. It has been a pleasure to have worked with them on the many problems affecting both the legislative and the executive branches of our city government, and their re-election recognizes more forcibly than might any words of mine their ability as Councillors representing the people in all sections of our city. I wish also to express my gratitude to each and every member of the 1940 Council for the co-operation which I have received during the past year. We have differed on many subjects, but honest differences of opinion create a healthy situation in any city government. My recommendations have been given serious consideration, and in almost every instance—after due deliberation—have received Council approval. A spirit of co-operation between the executive and legislative branches of any city government can only result in direct benefits to its citizens. I believe that such has been the case in Quincy during the past year, and at this time may I assure the entire membership of the City Council of a continuation of the pleasant relationship that has existed in the past.

Through his voluntary retirement as President of the City Council, Quincy will lose the services of an excellent presiding officer whose decisions as a parliamentarian have been fair and impartial. I should like to take this opportunity of thanking Councillor Lane for his assistance during the past year. On many occasions he has represented me at official functions, and several times he has, with dignity, assumed the position of Acting Mayor during my absence from the state. I know that I voice your sentiment when I wish him every success in the new duties which he has assumed as a member of the House of Representatives of the Commonwealth of Massachusetts, and I know that in this

ment he will reflect the same high type of public service that he has given as a member of the City Council. It is gratifying that he will be able to continue his service to the legislative branch of our city government at least during the current year.

There are two other persons whom I would like to mention specifically this morning. The first is our genial City Messenger, Harry W. Tirrell, who last year at the Inauguration Ceremonies missed his first year in fifty-two annual meetings of the City Council. May we thank God that he is with us again today and express the hope that he will be with us for many years to come. To the Reverend Arthur B. Whitney, Minister of the First Parish Unitarian Church, of which I have the honor to be a member, I would like to publicly record my deep appreciation for his many acts of kindness since I have been Mayor of Quincy. It is with regret that we have learned of his resignation as the Pastor of the Church of the Presidents, and we know that he will be missed in Quincy, not only as a Minister of the Gospel, but as a substantial citizen of the community. He has given unstintingly of his time as Chairman of the Board of Trustees of Woodward Institute. We wish Mr. Whitney every success in his new pastorate, and we trust that he will carry with him our best wishes for continued health and happiness and fond memories of the friendships he made while living in Quincy during the past ten years.

When a new Mayor is inaugurated for his first term as chief executive, it is customary for him to present his policies and the general program he proposes to follow during his term of office. Such is not my purpose today, because the year 1941 will take me into my seventh year as Mayor of our city and if my general policies of government are not known by this time what I might say concerning them this morning would be of little consequence. However, as both the executive and legislative branches of the city government in Quincy will retain the same membership this year as last, we may well consider ourselves a continuing body, and take up the new problems as they present themselves and carry on our deliberations of the pending matters which were before us at the close of last year.

Following the usual custom in such an address, I will briefly discuss the present financial condition of the city:

Present Financial Condition

As of December 31, 1940, the long term bonded debt stood at \$3,893,500, which is approximately 20% lower than what it was on June 30, 1935, shortly after I had taken office. An authorized loan of \$220,000 for payment of our public parking area in back of the business blocks on Hancock Street is not included in this total, because up to the present time the damages have not been established and consequently the money has not been borrowed. Even if it had, our long term bonded debt would show a reduction in the past five and a half years of over \$800,000. It seems, therefore, after such an accomplishment, that we can take a "breathing spell" in being obliged to cut out some of the necessities, and after serious deliberation consider incurring debt for capital investments for which the total cost should not be borne in any one year but should be distributed over a period of years with equal bond maturities

coming due (and being raised through taxation) each year. A city of this size cannot hope to be without public debt and still have the new buildings, streets, sewers, water systems and other long standing improvements that are required for the general welfare of the citizens as a whole.

In the long term bonded debt reduction previously referred to is included our water debt. On December 31, 1940, it stood at only \$200,000, which is 42% lower than it was in 1935. There is a substantial reserve account on hand in this department, and during the past year the minimum rate charges for water to all homes was reduced two dollars for a twelve-month period.

Our tax title loan account to the Commonwealth of Massachusetts now stands at \$121,000. On January 1, 1935, (only six years ago) we had outstanding tax title loans of \$572,000. Twice since then we have reduced to nothing our borrowings on this type of loan. Our tax collections are improving so much that it has been necessary to borrow a comparatively small amount on tax titles this year. Showing the trend in this type of borrowing, I call your attention to the tax title loans we have obtained each year from the Commonwealth of Massachusetts:

1935—	\$450,000
1936—	380,000
1937—	200,000
1938—	200,000
1939—	215,000
1940—	106,000

It might be interesting for you to know that as of January 1, 1941, we have \$247,634.73 due on uncollected back taxes upon which we have tax titles. Deducting our present outstanding loan of \$121,000 we will still have a leeway in this type of asset amounting to \$126,634.73.

Our long term bonded debt (even including our outstanding tax title loans to the state) as of December 31, 1940, is lower than it has been on any corresponding date since December 31, 1926—fourteen years ago. This is an accomplishment of which our citizens may speak with justifiable pride.

Before closing my remarks concerning the present financial condition, may I call your attention to our borrowing capacity, or "margin of credit" for borrowing purposes as allowed by state law, which stands at approximately \$900,000. By our consistent policy of debt reduction over the past five years, our borrowing capacity has more than doubled.

And now turning to the future, with the preceding financial background to which we must give due consideration in the disposition of the problems which will confront us, I shall call your attention to several city departments and the matters you, as the appropriating body, will have to consider during the next twelve months. Inasmuch as our City Report, which will be printed soon, will list the improvements and accomplishments during 1940 in all departments, I will not take the time to review them at this meeting.

Public Works Department

Under the able leadership of our Commissioner, Mr. Sargent, and his competent assistants in the various divisions of this large department, a tremendous amount of work in every section of the city is done annually. The water and sewer systems, supplying practically every house and building in the city, are maintained in almost perfect condition, yet are sometimes taken more or less for granted. The street lighting, the cleaning of streets, the construction of new streets and the rebuilding of old ones, the care of trees throughout the city under the Forestry Division, the collection of garbage and rubbish weekly from over seventeen thousand homes (this is charged extra for in many cities), the care of public buildings and the supervision of new public building construction, the maintenance of our cemeteries, and the problem of snow removal on over two hundred miles of streets and four hundred miles of sidewalks as well as in front of business areas, churches, and public places, are but some of the duties performed by the members of this department. In order for this department to function efficiently, as we many times rather easily demand that it should, it must have the proper equipment with which to work. I marvel how it has done as well as it has under the handicap of many old and "broken down but tied together" trucks. Over a year ago we bought six enclosed body garbage trucks. To the best of my knowledge, in almost six years we have bought no new rubbish collection trucks and most of our equipment is from five to four-teen years old, having been used almost daily—good weather and bad.

I recommend the immediate purchase of new equipment as suggested by the Commissioner, and that the cost (approximately \$75,000) be distributed over a five-year period through the issuance of municipal bonds.

I recommend for your consideration an appropriation to provide the plans for and the construction of a municipal incinerator to be located near the City Garage. Such a building would eliminate the unhealthy condition existing in our city from disease-breeding public dumps. If constructed the way I feel it can be, there is every reason to believe that heat can be provided for the City Garage, the Police Station, and the City Home, as well as the new Trade School should it be erected in that vicinity.

Speaking of equipment and its replacement, I shall recommend in the near future that a competent authority on such matters make a careful study of the automotive equipment in all city departments and recommend a balanced replacement program for the next ten years to eliminate the possibility of a re-occurrence of our present plight of having to purchase much new equipment in one department all in one year. Many times the policy of a city is to wait until rolling stock literally falls apart before replacing it. Much money, in my opinion, is wasted in costly repairs and maintenance charges on nothing more or less than "junk." We have six fire trucks now almost fifteen years old, and the cost of repairs is constantly increasing, while their efficiency is decreasing. A well balanced program of this kind of replacement will, in the long run, save money for the taxpayer.

PROTECTION OF PERSONS AND PROPERTY

Police Department

With the national defense program now well under way and with an estimated twenty-one thousand men to be employed in the Fore River Shipbuilding Plant, the problem of proper police protection in this city is imperative. Already we are short-handed in this department, with many foot patrol routes uncovered during the night (and even the day shifts). With the increasing number of automobiles using our streets, the demands for police protection at street crossings near our twenty-six schools has increased tremendously. The present force cannot supply the daily demand for school protection (four one-hour periods at the elementary schools and two one-hour periods at the junior and senior schools). General police protection throughout the city (even with the use of radio patrol cars covering several foot routes) is not what it should be, and the handling of regular automobile traffic plus the heavy traffic adjacent to the Fore River Plant at the "going and coming" period of the workers on three eight-hour shifts, has weakened our strength materially.

I recommend that ten additional police officers be appointed to the department forthwith, and I will provide the funds for such in the annual appropriation order.

I recommend your consideration of amending the City Ordinance establishing the Police Department (Chapter 32) as follows: in Section 1, change "two Captains" to read "three Captains," and "Radio Supervisor with the rank of Sergeant" to read "Radio Supervisor with the rank of Lieutenant."

At the request of the City Council and under the appropriation you made in 1940, a survey and report of general traffic conditions in our city was made by the Safety Division of the International Association of Chiefs of Police. Three copies of the report were prepared; you have one, the Chief of the Department has one, and I have one. It pertained specifically to the **methods** of handling traffic by our department and did not include studies of any outside traffic problems at intersections, etc. The report is comprehensive and has provided us with the **method** of handling traffic through a special division in our department. It embodies the best practices found to be in use in cities throughout the country and if carefully carried out in Quincy under competent and intelligent leadership would give us trained personnel in our traffic division that would greatly improve the present rather unsatisfactory and slipshod method of traffic control by untrained men. Under a reorganization chart of our Police Department personnel (page 14 of the report), one Captain would be in direct charge of the traffic division, one Captain in charge of the personnel of the department and the station, and one Captain in charge of criminal investigation, licenses, etc. After you have given the report and recommendations as much study as I have, I feel sure you will be convinced that the reorganization of our Police Department as suggested is not only needed, but would be a most progressive step forward.

The second change in ordinance that I recommended would bear an additional cost to the city of only \$200 in raising the rank

of our Radio Supervisor from Sergeant to Lieutenant. This step should have been taken several years ago and if adopted will give the necessary rank of authority to one who is in complete charge of this important branch of police protection, and even then only recompense him in part for the unbelievable piece of work he has done in the construction of all our radio equipment, saving the city several thousand dollars.

Fire Department

There is immediate need of replacing the wooden fire station in our largest industrial center. At the present time a committee is preparing a report for submission to your honorable body during the month of January. I recommend that funds be provided as soon as feasible for the construction of a suitable station for the Ward Two area.

With the growth of our city, particularly in the industrial districts, adequate fire protection is a necessity. I recommend the appointment of ten additional members for this department to be stationed at headquarters. This means five additional men on each of our two platoons—day and night. With this addition, five especially trained men will be available at all times to respond to emergency calls and every box alarm in the city in our two-way radio-equipped Special Service truck, augmenting the regular first alarm assignment of men and apparatus in every section of the city. With the defense work being carried on throughout Quincy, and especially at Fore River, we must **be ready** for the emergency when and if it happens.

The additional cost of ten men in each of our two departments protecting the lives and property of our citizens will be more than offset by the additional revenue to be received by the city in taxes as a result of the defense program and the new building valuations in industrial plants. As the Mayor of your city I am held responsible for the safety of our citizens, and you may rest assured that I propose to take the necessary steps to insure that safety without "waiting to lock the barn door after the horse has been stolen."

Fire & Police Signal Department

Funds should be provided to complete the fire alarm signal system as a matter of public safety alone if for no other reason. The remaining equipment to be replaced within the new fire alarm building is obsolete and has not the capacity to handle properly the already overloaded fire alarm circuits throughout the city. In times of emergency, our people have a right to expect that such systems will not fail. A visit to our fire alarm headquarters will convince you better than any words of mine as to the need of your immediate attention in this matter. I will recommend such an appropriation in the annual budget.

School Department

The members of our School Committee handle the entire management of the School Department and have full charge of the spending of over a million and a quarter of dollars in the field of

education in our city. The Council's only duty in this connection is to provide, through appropriation, the amount required to carry on the department and to appropriate, after recommendation by the School Committee, such moneys as are needed for the purchase of land and the construction of such additional buildings as are deemed necessary. It will be for you to decide this year how much money should be appropriated for the purpose of enlarging the facilities of our Trade School. There seems to be an honest difference of opinion between the members of the School Committee as to whether a new building should be built or the present school added to. Before I make any specific recommendation to you on this subject, I hope, through conference between the School Committee and the Trade School Advisory Committee, that the combined membership of both committees will be more in accord on the manner of providing room for this school than they are today.

Tax Collector's Department

It is gratifying to note the steady increase in the collection of our taxes—both real estate and personal. As of January 1, 1941, our 1940 tax levy was 76.9% collected. Five years ago as of the same date, the 1935 levy was only 60.9% collected, and while the general improvement of conditions is partly responsible for the increase in collections this year over six years ago, our success is in no small measure attributable to the complete reorganization of the tax collector's department and the efficient work done by the Collector and his office personnel.

Hospital Department

I would indeed be remiss in my duty if special mention were not made of the excellent manner in which our City Hospital is being managed under the capable direction of the Board of Managers, the Superintendent, and the Medical and Surgical Staffs. The favorable comments from patients in all walks of life who have found it necessary to avail themselves of the services in this city department are the greatest tribute of genuine appreciation that could come to any Board of Managers serving faithfully and without compensation in this great humanitarian work. Our City Hospital has just finished the largest year in its history, and through improvements made during the past year or now under way the bed capacity in an emergency can be increased from 300 to 350.

Welfare Department

I know you will be interested in some figures pertaining to our Welfare Department and federal relief through W.P.A. We have passed through the worst unemployment period in the history of our city, and I am relieved to report that the trend is now definitely downward in unemployment through the national defense program and the need for workers in private business and industry.

For a comparison, I give you herewith the number of people on W.P.A. rolls in Quincy for the month of November for the past four years. The men working at the Squantum Naval Aviation Base government project and in the Blue Hills Reservation state project are not included.

November, 1940— 796
 November, 1937— 955
 November, 1938—1364
 November, 1939—1150

The city's contribution costs for W.P.A. have not decreased this past year in proportion to the drop in numbers on W.P.A. because of the strict requirement by the government that the city's contribution for materials, equipment, truck hire, and other expenses must equal 25% of the total cost of each project, including the wages paid to W.P.A. workers by the United States Government.

In speaking of W.P.A., may I call your attention to the excellent work done in this city by the many projects already completed and now in operation. The expansion of our park and playground facilities perhaps is the most notable of these. Tennis courts, baseball and football fields, skating rinks, and children's playground facilities in many sections of the city have filled a much needed want and will provide the necessary growth in our recreational facilities to cope with the growth in population. Curbing, street and sidewalk construction, walling of brooks and many other improvements will be specifically referred to in the Annual City Report.

Now turning to our own welfare problem. We divide this into three classifications: (1) Outside Aid, commonly referred to as direct city welfare cases, (2) Aid to Dependent Children, commonly called Mothers' Aid, and (3) Old Age Assistance.

In November of the past four years the number of cases on Outside Aid has been as follows:

Year	No. of Cases	Cost Per Month
1937	721	\$24,936.00
1938	599	22,045.00
1939	473	16,209.00
1940	378	11,201.00

Taking "Mothers' Aid" cases for the same months, we find an increase:

Year	No. of Cases	Cost Per Month
1937	107	\$ 6,573.00
1938	114	6,523.00
1939	136	7,777.00
1940	156	8,775.00

Old Age Assistance cases also show an increase:

Year	No. of Cases	Cost Per Month
1937	841	\$24,284.00
1938	988	29,004.00
1939	1041	29,458.00
1940	1090	29,951.00

On both "Mothers' Aid" cases and Old Age Assistance cases we receive a substantial amount back in grants from the state and federal governments which takes care of about 70% of the cost.

While these types of assistance seem to be more or less of a permanent expenditure now, it is gratifying to see our direct city welfare costs decreasing rapidly.

New City Hall

Our present City Hall will be one hundred years old in three years. We have completely outgrown its usefulness, and over 60% of our offices for the various departments are housed in hired office space in outside buildings. This is a condition that cannot exist much longer if our citizens want any semblance of businesslike coordination of their city government. The city would actually save money by having a new and modern City Hall, and until Sunday night, December 29th, 1940, when the President of the United States spoke to us over the radio I proposed to recommend the immediate construction of such a building located on the Adams Academy site and costing not over \$500,000. In deference to his expressed wish that the national defense program be given a clear road and that we "hold off" on things not allied to national defense so that steel and other materials sorely needed at this time could go into war materials, I shall withhold my recommendations for the construction of a new City Hall in the immediate future.

After having given the matter much study and thought during the past three or four years, I am convinced that when and if we have a new City Hall it should be built on the lot where the Adams Academy now stands. It would not take valuable business property out of the taxable list and would, on the site of John Hancock's birthplace, be an ideal place for such a building. Ample parking space could be provided in the rear or if necessary a small parcel of land on the northerly side of the present lot could be taken for a comparatively small cost. There is no historical value to the present Adams Academy building and I suggest that the Historical Society and Boy Scout Headquarters could easily be accommodated in the present City Hall which could be converted into a Memorial Hall for civic uses.

I may, later in the year, recommend an appropriation to cover the cost of procuring plans for specifications so that with careful study we will be ready to build when the present crisis has passed.

Parking Area

Much credit is due our new Planning Board for its thorough and diligent work in preparing the development plan for our public parking area. With a W.P.A. project now nearly ready for submission to the government for approval, we hope that by next fall the whole area will be entirely completed and fill a much needed improvement in our city.

Cottage Avenue—Foster Street Widening

Our Planning Board is now working on plans for the future widening of these two streets, making a wide thoroughfare between Hancock and Washington Streets. This idea is not a new one, but looking to the future it is something that should be done to provide the necessary expansion program for our business area with

its resultant increase in taxable property through new valuations both on land and buildings being created. Within a short time, I am advised, these plans will be presented to you for your consideration.

East Howard Street Widening

One of the first steps to be taken this year in our street construction program should be the widening of East Howard Street from Quincy Avenue to South Street at Cleverly Court. This, too, has been approved and recommended by our Planning Board and is a direct responsibility and obligation on the part of the City in connection with public safety and in providing easy access to and from our great shipbuilding center.

Other Recommendations

There are some other specific recommendations I shall take up with you during the course of the year. They are:

(1) Establishment of a centralized bookkeeping department under the direct supervision of the City Auditor's Office to handle the bookkeeping of all city departments under a uniform system in one office.

(2) Changing, through an amendment to our city ordinances, the maintenance and operation of city buildings from the Commissioner of Public Works to the Building Inspector's Department.

(3) Consolidating under one department our parks, cemeteries, and Forestry Department, with one Civil Service general supervisor in charge qualified to assume duties through specialized education and training.

(4) Giving every co-operation to our State Senator and Representatives as well as to our Municipal Health Department authorities in their efforts to eliminate the sewage pollution of Boston Harbor and Quincy Bay.

In Conclusion

Our city stands in an enviable position among the larger cities of New England. We are growing in industry, in population, and in business. We must grow wisely—we must “keep our feet on the ground”—but above all, we must not “overgrow.” Our geographical location puts us in a vulnerable position and our industries have much to do with the production of war materials for the United States Government. We must face the possibilities of emergency with intelligence. We must realize the potentialities of attack from within as well as from nations now far removed from us. As our President has told us, we might just as well face the facts as they exist. I feel very sure that whatever additional costs are placed upon us through the defense program and its necessary requirements, these will be more than offset by the increased taxation we will receive.

The civil responsibility has again been placed in my hands. I shall recommend nothing that I do not honestly believe we need

to meet the existing situation, and I trust that you will have faith in my intimate knowledge of affairs in our city. In closing, may I pause to gratefully acknowledge the honor of my re-election without opposition to a fourth term as the chief executive of this city. It is not only a great compliment, but an expression of confidence on the part of our citizens in the work I have chosen to do. It inspires me to "carry on" and with God's help in the difficult two years that lie ahead I shall continue with the prayer that through divine guidance my decisions will be correct and for the best interest of our people.

May I express to each and every one of you my sincere good wishes for the New Year.

CITY GOVERNMENT—1941

Mayor, HON. THOMAS S. BURGIN

REPORT OF THE AUDITOR

April 15, 1941.

*To His Honor the Mayor
and The Honorable City Council:*

I submit herewith the financial report of the City of Quincy for the year ending December 31, 1940.

In compliance with Section 50, Chapter 41 of the General Laws, there is appended a certificate under oath with reference to the verification of cash balances in the hands of the City Treasurer and various trustees having custody of funds.

Respectfully submitted,

LEO E. MULLIN

Auditor of Accounts

I hereby certify that I have verified, by actual count of the cash and verification of the bank balances, the cash of the City Treasurer, the Board of Managers of the Adams Temple and School Fund, the Board of Managers of the Woodward Fund and Property, and the Trustees of the Thomas Crane Public Library.

LEO E. MULLIN

Auditor of Accounts

Sworn to before me this 15th day of April, 1941.

DONALD P. CRANE

Notary Public

IN COUNCIL

Order No. 65

February 19, 1940

ORDERED:—

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1940 and ending December 31, 1940, to be expended by and under the direction of the several officers or boards as herein designated.

REPORT OF THE QUINCY RETIREMENT BOARD

February 28, 1941.

To the HONORABLE THOMAS S. BURGIN, Mayor:

Quincy City Hall, Quincy, Massachusetts

The Quincy Retirement Board submits its sixth annual report, being for the year ended December 31, 1940, with appended tables setting forth the financial and statistical results.

In his report for the year, the Actuary of the Retirement System commented as follows: "The experience with respect to pensioners was unfavorable and resulted in a slight decrease in the surplus in the Annuity Reserve Fund. Also, the experience with respect to members with prior service credit was unfavorable, and this unfavorable experience produced an increase in the accrued liability. In a small retirement system, there are apt to be fluctuations in the experience from year to year and unless the results of future years confirm that of the past year, the Board need take no action in the matter."

In this connection, however, the Board would point out that toward the close of 1940, the first pension was granted to a beneficiary because of the death of a member due to an accident incurred in line of duty. As this occurred in an early year after the creation of the Retirement System, it also will tend to disturb the calculations upon which the basic tables and liability rate are determined. While no change in rate has been recommended for the year 1941, it may result in some slight modification in subsequent years.

A year ago in its annual report, the Board called attention to the necessity for providing prompt information regarding the addition of new employees to the City payrolls. This has not been entirely cleared up to date and we would again suggest that consideration be given to the creation of a central personnel office.

Respectfully submitted,

GEORGE H. BONSTALL
JOHN J. KEEFE
LEO E. MULLIN

Quincy Retirement Board

TABLE XI

Valuation Balance Sheet Showing the Assets and Liabilities
of the Funds of the Quincy Retirement System as
of June 30, 1940

ASSETS

Annuity Savings Fund	\$ 91,918
Annuity Reserve Fund	2,031
Pension Reserve Fund	00,000
Pension Accumulation Fund	101,114
Total Present Assets	<u>\$195,063</u>
Present value of the prospective contribution payable by the City into the Pension Accumulation Fund.....	<u>260,628</u>
Total Assets	<u><u>\$455,691</u></u>

LIABILITIES

Present value of benefits on account of which contribu- tions have been paid by members into the Annuity Savings Fund	\$ 91,918
Present value of benefits payable on account of benefi- ciaries or their dependents now drawing annuities from the Annuity Reserve Fund	1,764
Present value of benefits payable on account of benefi- ciaries or their dependents now drawing pensions from the Pension Reserve Fund	00,000
Present value of benefits payable on account of benefi- ciaries to their dependents now drawing pensions from the Pension Accumulation Fund	38,144
Present value of benefits to members with prior service credit to be paid by contributions of the City into the Pension Accumulation Fund	231,933
Present value of benefits to new entrants to be paid by contributions of the City into the Pension Accumulation Fund	91,932
Total Liabilities	<u><u>\$455,691</u></u>

No account is taken of the future contributions of members into the Annuity Savings Fund because the benefits provided by these contributions are exactly equal to the accumulated amount of the contributions and therefore they do not affect the balance in the fund.

REPORT OF THE BOARD OF ASSESSORS

January 1, 1941

HON. THOMAS S. BURGIN, *Mayor*
Quincy, Massachusetts

Dear Sir:

REPORT OF DEPARTMENT OF PURCHASE AND SUPPLY

*To the Honorable THOMAS S. BURGIN, Mayor
City of Quincy, Massachusetts*

Dear Sir:

The annual report of the Department of Purchase and Supply for the year ending December 31, 1940, is herewith respectfully submitted.

Purchases for every department were directly under the control of the Purchasing Agent. Permission was granted to the dietitian and apothecary at the hospital to purchase supplies in their respective departments. The Board of Trustees of the library as well as the School Committee had authorization to purchase books.

No change was made in the purchasing system throughout the year.

The Purchasing Agent appeared before the City Council on the evening of June 10, 1940, and discussed every angle of City Purchasing. At the conclusion of this meeting it was gratifying to the Purchasing Agent to receive a vote of confidence from the City Council on his administration by a vote of 8 to 1.

During the year 8,962 requisitions were received from the various departments and these were divided as follows:

Aid to Dependent Children.....	9
Assessors	52
Auditing	29
Building	31
Cemetery	153
City Clerk	162
Defense	30
Engineering	44
Executive	59
Fire	454
Fire and Police Signal	168
Gypsy Moth	129
Harbor Master	1
Health	192
Highway	2231
Historical Society	1
Hospital	524
Law	9
Library	125
Park	260
Police	544
Planning Board	1
Property Management	10
Purchasing	139
Sanitary	246
School	606

Sealer of Weights	28
Sewer	249
Tax	75
Treasurer	49
Water	647
Welfare	82
Wire	37
W.P.A.	1546
Old Age Assistance	40

The Purchasing Department wrote 11,805 purchase orders in 1940. The division of these orders may be compared in the table accompanying this report. The table shows that 62½ per cent of the orders were placed with Quincy Merchants or residents; 34% were placed with concerns in the Boston area where many firms employ Quincy residents; the balance of 3½% were placed outside the Boston area. (Chart A-1.)

1940	No. of Orders	Total Amount	Quincy Orders	Amount of Quincy Orders	Boston Orders	Amount of Boston Orders	Outside Area Orders	Amount of Outside Orders
January	1073	30,976.79	727	18,784.20	309	10,538.50	37	1,654.09
February	898	29,578.15	597	15,768.54	232	12,238.91	69	1,570.70
March	896	25,190.94	643	15,176.07	220	7,757.06	33	2,257.81
April	1300	51,964.24	720	21,996.32	524	27,489.00	56	2,478.92
May	1667	58,736.71	838	29,072.53	779	26,401.19	50	3,262.99
June	994	43,252.58	577	18,457.41	378	22,862.04	39	1,933.13
July	880	41,462.69	529	17,136.51	332	23,769.28	19	556.90
August	814	40,365.16	575	21,029.25	224	18,870.51	15	465.40
September	799	37,118.25	548	19,271.03	226	16,357.56	25	1,489.66
October	951	46,303.96	629	20,318.32	285	24,912.57	37	1,073.07
November	837	34,981.02	588	16,751.95	246	16,636.42	3	1,592.65
December	696	35,853.45	416	17,735.35	250	16,911.30	30	1,206.80
Total	11,805	\$475,783.94	7,387	\$231,497.48	4,005	\$224,744.34	413	\$ 19,542.12

Sixty-four contracts were awarded during 1940. Chart A-2-3-4 found in this report gives the detail of these awards.

The printing of the 1940 Voting List was awarded by the Purchasing Agent to the Underhill Press (low bidder) at \$735.00 against a 1939 price of \$1440.00. This showed a savings of \$705.00 over any previous contract price.

The gasoline contract for 1940 was awarded to the Cities Service Oil Company at the Consumer Tank Car Price less one-half cent with a top of .0725 per gallon for Koolmotor gasoline. In connection with this contract the various departments in the city had the use of the Contractor's Power Prover Service which we found of real assistance in the maintenance of our automotive equipment.

The granite edgestone contract for 1940 was awarded to the 1939 contractor at the same low price of .88c per foot.

The Hampshire Press, Incorporated, of Cambridge who did an excellent job on the 1938 City Report and whose figure for the 1939 report was at \$2.56 per page plus \$190.00 for the individual department reports, was again awarded this contract. On the basis of the same number of pages in the 1939 report as in the 1938 report this showed a savings of approximately \$50.00.

After a year's experimenting of having white Police cruising cars it was decided to return to black cars. The Purchasing Agent bought eight 1940—85 H.P. Ford Standard Two-Door Sedans (seven in trade) for the sum of \$3000.00 from the Quincy Motor Company, Inc.

Coal bids were opened in the spring and prices on awarded contracts were slightly less than the 1939 prices.

Welfare Range Oil contract was awarded to the Quincy Adams Coal and Fuel Oil Company at .015 above the Boston Tank Car Price which is slightly less than the 1939 price. Welfare coal contract was awarded to C.W. & G.W. Nightingale at \$5.95 in one-half tons and \$11.40 in ton lots which price is under the 1939 contract price.

Yeomans-O'Connell Company was awarded a contract for the erection of an all-steel baseball backstop at \$715.00 (low bid) at Fore River Field. Completed, this is the finest backstop in the City.

A contract for 12,000 copies of an illustrated booklet "The Quincy Schools at Work" was awarded to Nelco, Incorporated, for \$1,009.00. Compiled under the direction of Superintendent Muir of our School Department this booklet should be of interest to the citizens.

The Supply Department still handicapped by lack of both space and funds nevertheless filled 855 orders during the year. These items consisted mostly of office supplies.

Plans have been completed for moving the department in January 1941 from its present location to 51 Saville Row where space will be available for a sizable Supply Department. In his

1939 report the Purchasing Agent wrote in detail in reference to an increase in his Supply Account. Again he wishes to emphasize the necessity of this Supply Account especially in 1941 when delivery on various supplies will become a problem.

Price increases were noted in certain items in the last quarter of 1940 and it is anticipated that due to world conditions further increases will take place in 1941. The Purchasing Agent will endeavor to protect the City insofar as is possible on various items.

The Purchasing Agent acknowledges with thanks the co-operation of department heads and contractors and assures the citizens of Quincy a continuance of an administration of this department for the best interests of all.

Respectfully submitted,

JOHN T. LANE,
Purchasing Agent

REPORT OF DEPARTMENT OF HEALTH

HON. THOMAS S. BURGIN
Mayor of the City of Quincy

Dear Sir:—

I am pleased to render to you the annual report of the Quincy Health Department.

Our total weighted score for 1940, based on the Health Appraisal Form as published by the American Public Health Association, is 775. A perfect score would be 1000. This is a small gain over last year. While our previous high score was in 1936, the requirements since 1937 are much more severe and our activities based on the same scoring method used in 1936, would net us a score considerably over 800.

Following are the scores from 1926:

Year	Total Score
1926	771
1927	797
1928	712
1929	746
1930	No scoring done
1931	No scoring done
1932	612.40
1933	714.20
1934	778
1935	783.80
1936	795.5
1937	No scoring done
1938	No scoring done
1939	773.2
1940	775

APPRAISAL 1940

	Possible Weighted Score	Weighted Score Obtained
A. Vital Statistics	40.	40.
B. Communicable Disease	160.	141.9
C. Syphilis and Gonorrhea	90.	43.2
D. Tuberculosis	90.	79.1
E. Maternity Hygiene	90.	64.6
F. Infant and Preschool Hygiene	170.	117.3
G. School Hygiene	140.	109.2
H. General Sanitation	90.	85.1
I. Food and Milk Control	80.	64.6
Bonus for balanced program	50.	30.
Total Weighted Score	1000.	775.

It will be noted that all items, with the exception of Gonorrhea and Syphilis, have attained a high percentage of the possible score. The low score in this item is due to poor reporting of such cases by local physicians.

Again I urge that all physicians report every case of Venereal Disease to the Massachusetts Department of Public Health as required by law. It is very important that in each case being treated by private physicians that all contacts be examined. The Army and Navy authorities are rightfully insisting that this be done, so as to minimize as much as possible, the number of persons infected who may be in contact with members of these two branches of the service; and to cut down the loss of man hours of defense workers through these diseases.

While 1939 was notable in the low number of cases of reportable diseases, with the exception of Lobar Pneumonia, Tuberculosis and Measles, 1940 was still more remarkable with a total of 1513 cases reported as against 2477 in 1939. Last year there were 115 cases of Lobar Pneumonia as against 161 this year, Measles cases in 1939 were 1280 as against 256 in 1940. Tuberculosis, all forms, takes up the largest portion of our expenditures for hospitalization. In 1939 we paid for 24,316 hospital days at the county hospital; while in 1940 we paid for 26,446 or an increase of 2130 days. The hospital bill was \$34,379.80, of which nearly \$19,000 was recovered through the state and other cities and towns. Table 8 shows the rapid decline in cases of Tuberculosis reported in the last 10 years; and eventually through this early hospitalization the benefits will be reflected by smaller hospital bills.

We continued our diphtheria immunization program this year. The clinics were well attended and we continue to be within the safety requirements as recommended by the Massachusetts Health Department. No cases of diphtheria were reported in 1940. Quincy's record on diphtheria is a splendid one, and only because of the success of large scale immunization, through co-operation of parents, physicians and the School Department with the Health Department.

I wish to thank Ex-Mayor Bradford and his committee for their never-ceasing fight to eliminate pollution of our coastal waters. It is unfortunate that the passage of a bill towards this end in 1939 did not remedy this condition, through lack of Federal Funds to do a portion of the work. However, they have started again and hope to have a bill passed in this Legislature which will take care of North and South Metropolitan outlets. This is of utmost importance to all residents of Quincy and everyone should get behind the program.

I wish to call to your attention the splendid co-operation by the Quincy Patriot Ledger in the way of giving publicity to our various projects. Much of the success obtained was due to their co-operation.

In conclusion, I take this opportunity to thank all departments, and particularly the School Department, for the fine manner in which they have worked with us.

RECOMMENDATIONS

I. For the fifth successive year, I again urge the installation of an incinerator to burn the refuse collected in the city. Each year the public dump problem is becoming more acute. They are eyesores, a source of rats and vermin and become more and more obnoxious to a growing number of our residents. I firmly believe that an incinerator could be so located that it would become an indispensable adjunct that would in the final analysis cost the taxpayer very little. With little more room left for dumping purposes at the Penn Street Dump we will find ourselves very much up against it, in the matter of disposal, within a very short period.

II. Also that as long as dumps are maintained, that they be under regular supervision, and that dumping hours be restricted to those hours when this supervision is available. There continues to be dumped in these places much food material that attract rats and vermin. Grocery and fruit stores are particular offenders. Also that more men be placed at these dumps to keep them levelled and as sightly as possible.

III. I again suggest that the Health Department be represented on the License Board. Licenses have been issued for the sale of alcoholic beverages, in the past, to places that have not had proper equipment or facilities and it has been a long, expensive and arduous task to get corrected. If we were on the board licenses could be held up until proper facilities had been installed, thereby giving better protection with lesser court actions and a minimum of effort. In any case, I believe it would be wise for the license board to get the approval of this department as to facilities before granting such licenses.

IV. To continue every effort possible by all agencies and organizations in the city to co-operate with Ex-Mayor Bradford's Pollution Committee in the cleaning up of Quincy Bay. This is a vital issue for the future of Quincy. There is no question but that the constant agitation of the conditions now existing drive down our real-estate values and make Quincy a less inviting place to live; and real danger to our health lurks in these waters. A speedy clean-up will be to our advantage.

V. Again I urge the voluntary inoculation of dogs against rabies. This should be done annually. Rabies has been on the increase in 1940 and we are very fortunate to have been without it here. It has occurred as close as Hingham this year. One rabid dog will endanger the lives of many persons as well as animals.

Respectfully submitted,

RICHARD M. ASH, M.D.
Health Commissioner

DR. RICHARD M. ASH

Health Commissioner

Dear Doctor:—

Attached herewith are the reports and statistics as rendered by the several members of this department. For the information of those who read the annual report, is listed below the persons making up our department. The first paragraph includes those on a salary basis on our regular pay-roll. In the second paragraph are those paid on the basis of the number of clinics attended.

Commissioner	Richard M. Ash, M.D.
Agent	Howard E. Porter
Statistician	Ivan H. Poole
Clerk	Verna M. Almon
Dispensary Physician	Cornelius J. Lynch, M.D.
Child Welfare Physician.....	Edmund B. FitzGerald, M.D.
Venereologist	Edwin E. Smith, M.D.
Bacteriologist	Edwin E. Smith, M.D.
Animal Inspector	E. A. deVarennnes, D.V.M.
Slaughtering Inspector	E. A. deVarennnes, D.V.M.
Plumbing Inspector	Jere J. Curtis
Milk Inspector	John J. Curtin
Meat and Restaurant Inspector	Clarence L. Edwards
Nurse-Contagious Diseases	Catherine F. Coleman, R.N.
Nurse-Tuberculosis	Gertrude T. Russell, R.N.
Nurse-Child Welfare	Mary M. McLennan, R.N.
Nurse-Child Welfare	Hazel R. Kerr, R.N.
Dental Hygienist	Dorothy A. Della Lucca
Custodian Dispensary	Thomas A. Eames

PART-TIME

Asst. Child Welfare Physician	Frederick Costanza, M.D.
Orthopedic Physician	John Doherty, M.D.
Dentist-School Clinic	Louis E. Sullivan, D.M.D.
Dentist-Pre-School Clinic	Alfred E. O'Malley, D.M.D.
Dentist-Pre-school Clinic	Frederick S. Tobben, D.M.D.

In addition to my regularly assigned duties in the office as your assistant, I have made the following number of inspections and particular calls.

Investigation of unsanitary conditions.....	1328 calls
Persons lapsing treatment for Venereal Diseases.....	74 "
Patients taken to or from various hospitals	27 "
Other calls at hospitals and laboratories.....	29 "

Also there were many calls in reference to settlement histories and for other purposes that occur from time to time in the department.

I wish to thank each member of the department for their fine co-operation with me during the year; and to members of other departments for their assistance in helping to correct the many problems that confront us each year.

Respectfully submitted,

HOWARD E. PORTER

Agent

MORTALITY STATISTICS

Note: Population figures, on which mortality rates are based, are figured arithmetically in the proportion of annual increase as computed on the basis of growth between the last two Federal Censuses. Thus the estimated population for the year 1931 to 1939 inclusive, are based on the rate of population growth that obtained between the censuses of 1920 and 1930. Since we have now the 1940 census figure, which shows a much slower growth than in the previous decade, the populations for the years since 1930 can be more accurately ascertained. The following figures for the years 1935 to 1940, inclusive, are corrected on the basis of the 1940 census. This will give a truer comparison of the rates for those years. Population figures are estimated as of mid year, or July 1st.

ESTIMATED POPULATION

1935	74,409
1936	74,871
1937	75,333
1938	75,795
1939	76,257
1940	76,721

CRUDE DEATH RATES

Year	Deaths occurring in Quincy	Crude death rate per 1,000 pop.
1935	645	8.67
1936	650	8.68
1937	691	9.17
1938	652	8.60
1939	671	8.80
1940	668	8.71

RESIDENTIAL DEATH RATES

Year	Non-resident deaths in Quincy	Resident deaths in Quincy	Resident deaths out- side Quincy	Total residential deaths	Residential death rate per 1000
1935	54	591	140	731	9.82
1936	55	595	140	735	9.82
1937	66	625	152	777	10.31
1938	42	610	140	750	9.89
1939	76	595	154	749	9.82
1940	68	600	128	728	9.49

SEX. Of the 728 residential deaths in 1940, 381 or 52 percent were males, and 344, or 48 percent were females. The proportion of males in the living population shown by the 1930 Census was 49.3 (1940 Census figures as to this item not yet available). Based on this ratio, the male resident death rate for Quincy in 1940 was 10.7 as against a rate of 8.9 for females.

AGE. Of the 728 deaths, 35 or 48 percent, were of infants under one year of age. More detailed information pertaining to infant mortality is in a following paragraph and in Table V. Other age distributions will be found in Table 1.

NATIVITY. 55 percent of the decedents were of native birth and 45 percent were foreign born.

INFANT MORTALITY. The infant mortality rate for Quincy in 1940 was 29.81 as against 30.44 for 1939 and 37.33 per 1000 live births in 1938. The following figures show at what time of the first year of life these deaths occurred:

First day	17 deaths or 48.6%
Less than 1 week but more than one day...	4 deaths or 11.4%
Less than 1 month but more than one week	3 deaths or 8.6%
Less than 6 months but more than one month	9 deaths or 25.7%
Less than 1 year but more than six months	2 deaths or 5.7%
<hr/>	
	35 deaths or 100. %

Of these 35 infant deaths, 17 were caused by premature birth, injury at birth and other diseases peculiar to early infancy. There were 6 deaths from congenital malformations and 8 from Pneumonia of different types. Table II will show under what division these and the balance of infant deaths were classified.

Following are statistics on some of the principal causes of death since 1935:

**NUMBER AND PERCENTAGES OF TOTAL DEATHS
ANNUALLY FROM PRINCIPAL CAUSES OF DEATH
1935-1940**

Cause of Death	1935	1936	1937	1938	1939	1940

Other Accidents						
Number of deaths	35	19	32	37	29	29
Pctg. of total deaths	4.8	2.6	4.2	4.9	3.9	4.

BIRTH STATISTICS

There were 1174 residential births during 1940. Resident births occurring in Quincy were 889, and residential births occurring outside of Quincy were 285. This gives Quincy a birth-rate for 1940 of 15.3 per 1,000 population, the highest rate since 1934. In addition there were 196 non-resident births in Quincy.

The history of the facilities used by expectant mothers in cases of child birth has more than reversed itself the last 21 years. In 1919, 942, or 75 percent of the births of Quincy residents, were in the homes; and 316, or 25 percent in hospitals. In 1940, only 32, or 2.7 percent of the residential births, occurred at home; and the balance, or 1142 (97.3 percent) were born in hospitals. This record is indeed notable, in that the percentage of births in hospitals throughout Massachusetts in 78 percent, and births in homes 22 percent. Further, there were 11 non-resident births in Quincy in 1919, six of them being born in the Quincy Hospital; while in 1940 there were 196 non-residential births in Quincy, 195 of which were in the Quincy Hospital. In 1919, 129 births occurred at the Quincy Hospital as against 1052 in 1940.

In Table 9 are figures showing the continuous growth of hospitalized obstetric cases for the past 11 years, as well as the increase in such cases in the Quincy Hospital.

TABLE 1.

Resident deaths (exclusive of stillbirths) from each cause, according to Detailed Information List by age and sex. 1940

CAUSE OF DEATH	LIST NUMBER	Sex	Native Born	Foreign Born	Total	Age of decedents in years

January 1, 1941.

RICHARD M. ASH, M.D.
Health Commissioner

Dear Doctor:—

During last year, twenty-one Pulmonary deaths were reported for Quincy. This is probably the lowest consumptive death rate in Quincy's history. It may only be a coincident but it probably means a definite trend in the fight for Tuberculosis control.

The more recent methods of treatment, such as thorocoplasty, pneumo injections, cutting the phrenic nerve and other surgical procedures, are now showing health dividends. Certainly the taxpayer is benefitting, for hospital stay of patient is diminished by one-half, cough is quickly suppressed and sputum is free of Tuberculosis bacilli. Hence the spread of the disease is checked. Now we get more arrested cases and the life history of the individual Tuberculosis case is prolonged. The next step should be a diminished number of contacts.

But here the picture changes and at present, at least, the contacts, or if you will the public, is not sufficiently responsive to the family physician's advice for immediate examination and X-ray. The delay is mostly through fear, and they later needlessly become active cases and of course infect others.

I believe today the problem of successfully handling the Tuberculosis contact is both the most important and most unsatisfactory phase of Tuberculosis control. Naturally to do this successfully, implies legislation to compel isolation and hospitalization of the active cases and thorough investigation of the contacts. This is a health millennium and is unfortunately far afield.

It hardly makes sense to have general laws compelling protection and isolation in contagious diseases of children and stand idly by in the case of the adult. He has the option to stay at large and infect his family and his neighbors. This surely is a new order and places the caption "one for all and all for one" in the reverse. In the meantime the white plague of Tuberculosis, ravishes and kills more people between the ages of fifteen and twenty-five than all the other diseases. In fact it heads the list in mortality rates for these ages.

Labor and capital fight valiantly for their individual rights and have laws enacted to guarantee the same, yet they do nothing concerning their health rights. Someday, somewhere, the public will rise up and insist upon suitable legislation in this matter. Would that Massachusetts might be the first state to adopt such laws.

"Children's Clinic"

Tuberculosis control now centers around education and the Children's Clinic is still our standby through which we send our health measures into the homes. Through the children we can often get parental co-operation. For the parent will often sacrifice for the children's welfare even though they neglect their own; thus early infection and Hifum Tuberculosis is discovered and cured;

thus preventing Pulmonary Tuberculosis in later life. The taxpayer's money is also saved this way, for the cost of preventing Tuberculosis in the child is much less expensive than treating Tuberculosis in the adult.

The attendance of the children is automatically controlled and continued by their hope and expectation of being chosen for Camp Norfolk.

During the past year the Quincy Tuberculosis Association was formed primarily to organize for a more intensive sale of Christmas Seals. Their efforts were well rewarded and Quincy's Christmas Seal sale increase was by far in excess of any city in the state. We hope that continued success for the seal sale funds, for these, added to the city's yearly appropriation, enable Quincy to send more children to camp for intensive health treatment than any other city in the county. Since Camp Norfolk was established Quincy has furnished more than half of its yearly quota. This is an excellent procedure in Tuberculosis control and should continue.

Wherever possible I believe camp life enhances health education. For children, periodic fun and recreation is always expected by the child in summer. Camp Norfolk is founded around this idea. And after a summer of intense education they give the child a rollicking picnic at Duxbury Beach. As all educational projects are more convincing if you can visualize them, one look at these children on the return from Camp Norfolk late in August will be sufficient. Their sun-tan bodies and radiant smiles make one wish it were possible for all children of Quincy to have camp life in the summer. Then indeed the city of Presidents would also become a children's paradise.

May I close by expressing my gratitude for your cordial support and thanking Miss Russell for splendid co-operation and also expressing my thanks to Mrs. Hazel Kerr for assisting at the Saturday clinics, as well as to the other public health nurses who helped at clinics during the year.

Respectfully submitted,

C. J. LYNCH, M.D.

Dispensary Physician

REPORT OF THE TUBERCULOSIS DISPENSARY NURSE

January 1, 1941.

RICHARD M. ASH, M.D.

Health Commissioner

Dear Dr. Ash:—

I herewith submit to you my annual report for the year ending December 31, 1940.

Total number of all kinds of Tuberculosis on record in the city	644
Pulmonary Tuberculosis	380
Childhood Type	232
Other Forms	32

New cases of Tuberculosis reported during the year.....	63
Pulmonary Tuberculosis	56
Childhood Type	3
Other Forms	4

Disposition of New Pulmonary Tuberculosis Cases:

Admitted to sanatorium	38
At home under care of own physician	8
Working	6
New cases in city but previously diagnosed in another city	5
Diagnosis revoked	3
Reported by death certificate	3
Cases admitted to Norfolk County Hospital for observation period	2

Disposition of New Childhood Type Cases:

Admitted to North Reading State Sanatorium	1
Attending school and attending clinic	3

Disposition of T.B. Other Cases:

Admitted to Lakeville State Sanatorium	3
Admitted to Peabody Home in Newton	1

"Norfolk County Hospital"

Registration of patients at the end of the year	68
Cases admitted during the year	69
Cases discharged during the year	38

Arrested Pulmonary Tuberculosis	17
Indefinite leave of absence to return to the hospital weekly for pneumothorax treatments.....	5
Dead	6
Observation cases discharged "negative for Tuberculosis"	1
Revocation of diagnosis made	3
Bronchiectasis left—"Improved"	1
Left against advice "Unimproved"	2
Left against advice "Improved"	1
Discharged Pleurisy with Effusion "Well"	1
Pulmonary Fibrosis—Non Tubercular	1

"North Reading State Sanatorium"

Registration of patients at the end of the year	4
Cases admitted during the year	1
Cases discharged during the year	1
Arrested Childhood Type	1

"Lakeville State Sanatorium"

Registration of patients at the end of the year	4
Cases admitted during the year	4
Cases discharged during the year	4

Condition on discharge:

Own request—T.B. Axillary Gland—"Quiescent".....	1
T.B. Spine "Arrested"—T.B. Left Nephritis	
"Quiescent"	1
Own request—Condition not determined	1
Own request—to continue treatment at home—	
T.B. Peritonitis—Post operative—and	
T.B. Mesenteric adenitis "Quiescent"	1

"Peabody Home in Newton"

T.B. Left Hip—admitted from Children's Hospital	1
All ex-sanatorium cases are followed by the dispensary nurse and are referred to the sanatorium out-patient thru the dispensary for re-examinations and X-rays as indicated upon discharge—time ranging from one month to one year. The nurse transports all patients who have no means of transportation, every Tuesday A.M.	

"Deaths"

Total number of deaths reported during the year	21
Died at home	3
Died at Norfolk County Hospital	16
Died at Quincy City Hospital—T.B. Other case	1
Died at Rutland State Hospital	1

"Adult Clinic"

Attendance	271
New cases added to clinic register	81
Number of contacts examinations made	92
Number of sputum examinations made	338
Number of X-rays taken at Norfolk County Hospital..	249
Clinic registration	104
Number of clinics held for the year	53

"Undernourished and Contact Children's Clinic"

Attendance	1114
New cases added to register	160
Number of contact examinations made	92
Mantoux Tests done	120
Positive reactions	32
Negative reactions	88

Children admitted to the Norfolk Preventorium for eight weeks during the summer	41
Children admitted to Prendergast Preventorium not eligible for Norfolk Preventorium	18
Vaccinations done	12
Referred for dentistry	40
Referred to Quincy City Hospital for T & A operation	22
Special children examined for Farrington Memorial in Lexington—"Cases being referred from Family Welfare Society".....	22
Number of X-rays taken at Norfolk County Hospital	57
Referred to Eye and Ear Infirmary	2
Number of clinics held during the year	51
Total number of visits made to and in behalf of Tuberculosis patients	1885
Number of cases moved away and addresses forwarded to State Department	11

Cases have been referred to dispensary clinics thru private physicians, School Nurses, Public Welfare Department, Family Welfare Society, X-Sanatorium patients, Social Service Department of the Quincy City Hospital.

I assisted the other nurses in their work during vacations and in case of illness, contagion, baby welfare and parochial school work.

Respectfully submitted,

GERTRUDE T. RUSSELL, R.N.

Dispensary Nurse

REPORT OF THE CHILD WELFARE PHYSICIAN

January 1, 1941.

DR. RICHARD M. ASH
Commissioner of Health

Dear Dr. Ash:

The birth rate in Quincy was higher for 1940 than 1939—15.3 as compared with 13.7. In spite of this the attendance and registration at the Child Welfare Conferences was somewhat lower than in the previous year. The national birth rate—according to figures released recently by the census bureau—has gone from 17.3 (1939) to 18 (1940) for every thousand population.

The infant mortality (29.8) was the lowest yet recorded in Quincy. There were three deaths among the registered babies—two due to lobar pneumonia and one due to a streptococcus infection. As usual there were no deaths from nutritional disturbances among the registered babies. There were no deaths from diphtheria, poliomyelitis or scarlet fever. Roughly speaking the death rates of infants under one year all over the country has been cut more than 50 percent since 1916, while the death rate of those under seven days of age has been reduced only 10 percent. In Quincy for the year 1940 there were 35 infant deaths, of which 24 were in children

under the age of one month. In other words approximately two-thirds of the deaths were due to neo-natal causes. Accordingly more attention should be paid to prenatal care. The program for the care of the prematures and prenatal blood tests are steps in the right direction. In some communities—but not in Quincy—still too often neo-natal deaths occur from unnecessary birth injury and asphyxia.

For the first time the average American family numbers less than 4—3.8 to be exact. This is a steady decline since the first family count was made 50 years ago.

During the past year the Wollaston, Quincy and Atlantic conferences have had the services of Miss Marjorie Foster—nutrition worker for the Junior Welfare League. Her services have been a great assistance to the educational program. Also I must give due credit to the splendid assistance given by the Habit Clinic of the State Department of Mental Hygiene. I referred 67 children to them as compared with 47 during the previous year.

Very truly yours,

EDMUND B. FITZGERALD, M.D.

Child Welfare Physician

REPORT OF CHILD WELFARE NURSES

January 1, 1941.

DR. RICHARD M. ASH

Commissioner of Health

Dear Sir:—

Report of the Child Welfare Nurses for the year ending December 31, 1940.

Total clinic registration during year	1460
Total clinic registration active December 31st	1059
Total new registration during year	742
Total clinic attendance	4743
Removed from files for reasons given below:	
Deaths	3
Lobar Pneumonia	2
Streptococcus Infection	1
Inactive 12 months and over	
Entered school	
Moved from city	
Number of clinics held	288
Well baby clinics	267
Preschool clinics	10
Orthopedic clinics	11

Clinics Held

Day	Station	Attendance	Examined	New Cases
Monday	South Quincy	894	672	144
Monday	Woodward (preschool)	140	131	42
Tuesday	Wollaston	702	664	90
Wednesday	Quincy Point	813	640	80
Thursday	Woodward	820	759	117
Thursday	Houghs Neck	310	255	52
Thursday	Woodward (orthopedic)	234	214	101
Friday	Atlantic	830	760	116
		4743	4095	742

The Houghs Neck clinic is held twice a month; Preschool and Orthopedic clinics are held once a month and all others are held weekly.

Clinic Registration

Clinic	Active, Dec. 31st	Inactive, 1. year	Reg. in 1940
South Quincy	138	56	194
Wollaston	151	44	195
Houghs Neck	67	29	96
Woodward	179	50	229
Preschool	106	50	156
Orthopedic	142	66	208
Quincy Point	121	60	181
Atlantic	155	46	201
1059		401	1460

Boarding homes registered	14
Boarding homes not registered	3
Children now in boarding homes	30
Boarding home inspections	96
Total number of visits made	2505
Number of visits made to babies under 1 year	1428
Number of visits made to babies between 1 and 2 years	766
Number of visits made to preschool group	311
Referred to local doctor by clinic doctor or nurse	105
Referred to private or clinic dentist	50
Referred to Habit Clinic	67

Each Monday and Wednesday morning was spent in St. Mary's and St. Joseph's Parochial Schools.

Each Saturday morning Mrs. Kerr assisted at the Under-nourished Children's Clinic.

Respectfully submitted,

MARY M. McLENNAN, R.N.

HAZEL R. KERR, R.N.

Child Welfare Nurses

REPORT OF PRESCHOOL ORTHOPEDIC CLINIC

January 1, 1941.

Dear Doctor Ash:

The following is a report of ten clinics attended by Doctor John L. Doherty from January 1940 to December 1940:

211 children were examined—104 were new admissions and 107 were follow-up examinations:

Classification of Conditions Found in New Patients

Pronated feet	55
Knock knees	22
Bow legs	6
Flat feet	18
Poor posture	3
Total	104

Sincerely yours,

JOHN L. DOHERTY, M.D.

Annual Report of the Quincy Habit Clinic

February 27, 1941.

To the Health Commissioner, City of Quincy:

It is with pleasure that I present the fourteenth annual report of the Quincy Child Guidance Clinic for the fiscal year ending November 30, 1940.

It is encouraging to note that the citizens of Quincy have appreciated the importance of treating behavior and personality difficulties of children in their beginning, and have given continued support to the Child Guidance Clinic during the past year. They have been alert to recognize that the Child Guidance Clinic is their community clinic for the study and treatment of the individual child as to his physical, mental and emotional health.

The changes, which occurred in the clinic staff during the year, did not interfere with the continuous service of the clinic. On September 1, 1940, Doctor Ernst Schmidhofer was appointed to succeed Doctor Charles Brenner as Senior Psychiatrist.

The procedure of the Quincy Child Guidance Clinic coincides with the standard procedures set up for all Child Guidance Clinics in Massachusetts, and is herein briefly described.

The first important consideration is a careful physical examination, except where reports of recent examinations are available to the clinic. Physical defect or disease must be evaluated as it may be the primary causative factor in the particular problem for which the child was referred to the clinic.

The next step in the study is made by the psychiatric social worker, who seeks to gain insight into the child's background and environment in all of its phases—home, school and play. This information is obtained from the parents, physicians, teachers and other persons interested in the child. A complete report of the family situation, together with developmental, personal and scholastic histories of the child are included in the social service study.

The psychologist then proceeds to study the child by evaluating his intellectual capacity, his achievement scholastically, and his special aptitudes and disabilities. In recommended cases, special educational tests are given for the purpose of helping to plan the child's education program and school placement. Observation of the child's conduct and reactions during the psychological examination offers an excellent opportunity for a better understanding of the child's personality.

The final step in the procedure is made by the psychiatrist, who establishes a contact with the child and his parents. This study includes observations of the child's behavior and reactions, his personality and inner mental life, together with other factors having a bearing on the problem.

After all the facts have been co-ordinated and summarized, the case is reviewed at a conference, where recommendations for treatment to be followed are outlined by the psychiatrist. An interview with the parents or other persons interested in the child is held, and advice given as to the child's needs for healthy mental and physical development.

In addition to the clinic personnel already mentioned, a speech therapist and an occupational therapist have served at the clinic, and have assisted the psychiatrist in carrying out specific therapeutic services with the children. The important program of speech therapy has been adequately conducted under the auspices of our supervisor of education. For children presenting speech problems, which may or may not be complicated by emotional problems or difficulties in adjustment, an intensive program of speech training has been carried on at the clinic. Occupational therapy has played an important role in the clinic procedure during the past two years. This particular form of treatment, prescribed by the psychiatrist for certain types of cases, has tended to develop self-assurance, self-expression, social response, and to improve the mental resources of children, all of which help to facilitate a more satisfactory adjustment to life.

During the year, the service of only one psychiatrist has been available, but, even considering that fact, the number of new cases admitted to the clinic increased slightly. In reviewing the sources of referrals of new cases, there has been a decrease in the number referred by health agencies and schools. This can be accounted for in part by the fact that, with the establishment of the School Guidance Department, many cases previously treated by the Child Guidance Clinic have been referred to the School Guidance Department. More intensive therapeutic service has been carried on with the children during 1940 than was formerly possible, and the qualitative rather than quantitative aspects of treatment have been emphasized.

I feel certain that this community is appreciative of the service which the State has given, and recognizes the fact that additional service is necessary if the needs of the children in this community are to be more adequately met. With the present clinic facilities in Quincy, we are handicapped in accepting cases as rapidly as they are referred. It is my hope that this community, as a future program, will give serious thought to the matter of supplementing the present facilities by subsidizing the existing clinic. I would look to the public spirited citizens in this progressive city to stimulate interest in this work and provide means whereby Child Guidance Clinic treatment might be made available to more children than is possible at the present time.

While we look with satisfaction upon the accomplishments of the Quincy Child Guidance Clinic, it is with the knowledge that success has only been possible through the co-operation of parents, educators, health and social agencies, and other interested persons in the community.

I would like to express sincere gratitude to the personnel of the Quincy Child Guidance Clinic. It has been through their faithful service and untiring efforts that the clinic has been so successful. I am grateful for the co-operation and assistance extended to the clinic by the Health Commissioner, the School Department and the social agencies of Quincy and surrounding towns.

Sincerely yours,

EDGAR C. YERBURY, M.D., *Director,*
Division of Mental Hygiene.

REPORT OF NURSE WORK IN PAROCHIAL SCHOOLS

January 1, 1941.

DR. RICHARD M. ASH
Commissioner of Health

Dear Sir:—

We hereby jointly submit a report of our combined activities in the Parochial Schools for the year ending December 1940:

Number of visits to schools	192
Number of children given vision test	551
Number of children seen in office	630
Number of dental appointments made	583
Number of children referred to private physicians	39
Number of children given health inspection	2700
Number of children weighed and measured	1098
Number of home visits made	90

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.
MARY M. McLENNAN, R.N.
HAZEL R. KERR, R.N.

REPORT OF INFANTILE PARALYSIS COMMISSION

February 3, 1941.

DR. RICHARD M. ASH
Commissioner of Health
Quincy, Massachusetts

My dear Dr. Ash:

Following are the Quincy Treatment Clinic figures for 1940:

Forty-five clinics were held during the year with an average attendance at these clinics of twelve patients. In the four districts served by the Clinic there are fifty cases—twenty-seven in Quincy, seven in Milton, eleven in Braintree and five in Weymouth. Of these twenty-one of the Quincy cases attend the clinic; only two from Milton; eight from Braintree and four from Weymouth. Five hundred and thirty-one treatments were given these patients.

During the year, four new cases were added to the list of active cases and two of them were referred to the Clinic. Two cases were operated upon at the Children's Hospital. Two hundred and thirty-six visits were made to the Central Clinic at the Children's Hospital.

Sincerely,

(Mrs.) ELSIE M. JEFFREY

REPORT OF THE COMMUNICABLE DISEASE NURSE

January 1, 1941.

DR. RICHARD M. ASH
Commissioner of Health

Dear Doctor:—

I herewith submit my report as Communicable Disease Nurse for the year ending December 1940.

One thousand, four hundred and fifty-seven cases of notifiable diseases were reported as follows:

Chickenpox	358
Cerebrospinal Meningitis	2
Dog Bites	178
Bacillary Dysentery	1
Sonnes Dysentery	1
German Measles	12
Lobar Pneumonia	161
Measles	256
Mumps	214
Scarlet Fever	137
Septic Sore Throat	5
Typhoid Fever	8
Para Typhoid "B"	1
Trichinosis	3
Whooping Cough	120
Total number of visits	2258
Scarlet Fever	536
Measles	445
Diphtheria Immunization	865
Typhoid Fever (cultures 118)	198
Whooping Cough	113
Dysentery (cultures 20)	22
Mumps	1
Septic Sore Throat	1
Cerebrospinal Meningitis	1
Tuberculosis	6
V. Disease	25
Public schools	32
Q.C.H. Social Service	13

Diphtheria

No diphtheria reported during the year. As in the previous year, immunization clinics were held in the various wards of the city, with a total of 1037 children having been immunized. Number of clinics 31.

The various age groups are as follows:

Under 1 year	71
1 year	284
2 years	156
3 years	66

4 years	48
5 years	100
6 years	207
7 years	34
8 years	17
9 years	14
10-14 years	40

It is estimated that 33.7 percent of the children in the 6 months to 4 year (inclusive) age group and 76.7 percent of the 5-9 year group have been immunized.

Eight hundred and sixty-five visits were made to the homes of the pre-school group before the clinics were held.

Measles

Two hundred and fifty-six cases were reported, a decided decrease in number as compared with one thousand, two hundred and eighty cases in 1939. Two cases were sent to John Haynes Memorial Hospital.

Scarlet Fever

One hundred and thirty-seven cases reported, twenty of this number were hospitalized.

Typhoid Fever

Eight cases of Typhoid Fever and one case of Para Typhoid "B" were reported and hospitalized at the Quincy City Hospital. During the year the routine monthly visits were made and specimens sent to the State Laboratory. Forty-five Widal's were obtained during the year. One death occurred at Quincy City Hospital. At the Health Department office 26 contacts were given Typhoid inoculations by Dr. Richard Ash, Health Commissioner.

Whooping Cough

Four of the 120 cases were hospitalized at John Haynes Memorial Hospital.

Office hours were held daily 9-9:30—1-1:30 P.M.

Children seen in office 756
 Certificates were given children to return to school as follows:—

Chickenpox	334
Mumps	316
Whooping Cough	72
Measles	20
Scarlet Fever	7
German Measles	7
Number of clinics attended	138
Baby	56
T.A.T.	31
V. Disease	43
Dental	4
Preschool	1
Orthopedic	2
Undernourished	1

In the follow-up work, the 2258 visits made included placarding, settlement histories, revisits, school visits, investigation of complaints and examination of contacts for release from quarantine.

Monday and Wednesday mornings from 9:45 to 11:30 A.M. were spent at St. John's Parochial School as school nurse.

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.
Contagious Disease Nurse

DENTAL CLINIC REPORT

January 1, 1941.

DR. RICHARD M. ASH
Commissioner of Health

Dear Doctor:—

The School Dental Clinic has been functioning efficiently throughout the year. The attendance has been good and considerable work has been accomplished.

The aim of a Dental Clinic is not only to extract teeth, fillings, etc., it is also an educational factor. The child is told to brush his teeth regularly and it is explained to him in a way he can understand, how important a healthy mouth is. The existence of a School Dental Clinic will not raise the intelligence level, but it does raise the attendance records, and surely a well child free from pain is free to learn and progress in school work.

As you know, clinics are held every school day from 9:00 to 12:00 in the morning and from 1:00 to 2:00 o'clock in the afternoon. Three afternoons from 2:00 until 4:00 o'clock.

Miss Della Lucca does prophylactic work on children beyond the third grade.

I want to mention here the able and efficient assistance I have received from Miss Dorothy Della Lucca, Dental Hygienist. I take pleasure in extending my thanks to you as Commissioner, and also the members of the Health Department, and to the School Nurses for the co-operation I have received during the past year.

Respectfully submitted,

LOUIS E. SULLIVAN, D.M.D.
School Dental Clinician

REPORT OF SCHOOL DENTAL CLINIC

January 1, 1941.

DR. RICHARD M. ASH
Commissioner of Health

Dear Dr. Ash:—

I herewith submit to you the annual report of the School Dental Clinic for the year ending December 31, 1940.

Number of first, second and third grade children examined...	3520
Number of dental clinics	211
Number of children attending clinics	2977
Number of different children treated	724
Number of dental appointments given out	3337
Number of dental appointments not kept	473
Number of emergency cases	113
Number of completed cases	448
Number of children refusing treatment	49
Number of permanent teeth filled	1120
Number of temporary teeth filled	652
Total number of teeth filled	1772
Number of permanent teeth extracted	74
Number of temporary teeth extracted	1137
Total number of teeth extracted	1211
Number of prophylactic treatments—Grade I-III	580
Number of prophylactic treatments—Grades IV-VI	822
Number of prophylactic treatments (during summer)— Grades VI and upper grades	170
Total number of prophylactic treatments	1572

Respectfully submitted,

DOROTHY A. DELLA LUCCA
Dental Assistant

REPORT OF PRE-SCHOOL DENTAL CLINIC

January 1, 1941.

DR. RICHARD M. ASH
Commissioner of Health

Dear Dr. Ash:—

I herewith submit to you the report of the Pre-school Dental Clinic for the year ending December 31, 1940.

Number of clinics	96
Number of children attending clinics	931
Number of different children treated	201
Number of appointments not kept	210
Number of children refusing treatment	9
Number of children referred for gas anesthesia	13
Number of teeth filled	653
Number of teeth extracted	51
Number of prophylactic treatments	91
Number of treatments (drainage, grinding)	120

Respectfully submitted,

DOROTHY A. DELLA LUCCA
Dental Assistant

REPORT OF MILK INSPECTOR

January 1, 1941.

DR. RICHARD M. ASH
Health Commissioner

Dear Doctor:—

I herewith submit my report for the year ending December 31, 1940.

The following statistics refer to all milk, cream, ice cream, chocolate milk and oleomargarine, produced, distributed and sold in the City of Quincy.

Dairies in the City of Quincy

- 1 dairy having 63 cows
- 1 dairy having 32 cows
- 2 dairies having 2 cows
- 4 dairies having 1 cow

Total quarts of milk produced daily by dairies in the City of Quincy	1,500
Total number of cows in nearby dairies producing milk for distribution and consumption in Quincy (approx.)	1,200
Total quarts of milk produced in nearby dairies for sale in Quincy	15,000
Number of producers in New England Milk Shed contributing to Quincy supply	8,969
Milk contractors' processing plants, storage and creameries, distributing milk, cream and ice cream in the City of Quincy	60
Teams and automobile trucks used for distribution of all milk, cream, ice cream, chocolate milk and other dairy products in Quincy (approx.) All have been inspected and reinspected	200
Milk and ice cream plants in Quincy	13
Amount of milk pasteurized in Quincy daily (quarts).....	35,000
Milk consumed daily in Quincy (quarts)—All pasteurized, except certified raw	30,000
Ice cream manufactured in Quincy daily (gallons)	1,400
Ice cream sold and consumed in Quincy daily (gallons) ... (All ice cream is pasteurized)	2,500
Certified milk sold in Quincy daily—raw and pasteurized (quarts)	58
Grade A milk sold in Quincy daily (quarts)	2,200
Cream, all grades, sold in Quincy daily (quarts)	1,500
Buttermilk sold in Quincy daily (quarts)	500
Retail licenses issued for sale of milk, cream, ice cream and oleomargarine in the City of Quincy (1940).....	767
Milk samples collected for analysis (bacteria and chemical)	1,545
Milk samples collected for Phosphatase test	625
Milk samples collected from teams and trucks	1489
Milk samples collected from stores and schools	338
Milk samples collected from dairies	336
Milk samples collected before pasteurization (raw)	88

Milk samples below State Standard for fats and solids	11
Milk samples in excess of State and City Standards for bacteria	62
Ice cream samples collected for bacteria	32
Ice cream samples collected for fats and solids	32
Number of dairy inspections and reinspections	331
Number of processing plants inspected and reinspected...	356
Store milk and ice cream cabinets inspected and reinspected (approx)	700

In furthering the control and regulation of milk, ice cream and other dairy products, I recommend the following be adopted:

- (1) Registration of all vehicles used in the distribution and delivery of all milk products in Quincy.
- (2) Inclusion of Laboratory Phosphatase test on all samples.
- (3) Inspection of country collection plants at least twice a year.
- (4) Dated caps on all milk delivered in Quincy.

Respectfully submitted,

JOHN J. CURTIN

Sanitary Milk Inspector

REPORT OF BACTERIOLOGIST

January 1, 1941.

Plate counts (milk)	720
Plate counts (ice cream)	16
Babcock tests (ice cream)	16
Microscopic examinations (milk)	720
Chemical examinations (milk)	752
Total examinations	2224

EDWIN E. SMITH, M.D.

REPORT OF VENEREOLOGIST

January 1, 1941.

Female Clinic

Treated for gonorrhoea (patients)	5
Visits for gonorrhoea	19
Contacts examined	22
Treated for syphilis (patients)	25
Visits for syphilis	405
Discharged	2
Lapsed treatment	7
Remaining under treatment	16
Total visits by females	453

Male Clinic

Treated for gonorrhoea (patients)	7
Visits for gonorrhoea	45
Contacts examined	5
Treated for syphilis (patients)	24
Visits for syphilis	389
Lapsed treatment	10
Discharged	9
Remaining under treatment	12
Total visits by males	442

EDWIN E. SMITH, M.D.

REPORT OF INSPECTOR OF ANIMALS
AND SLAUGHTERING

January 1, 1941.

DR. RICHARD M. ASH
Commissioner of Health
Quincy, Massachusetts

Dear Sir:—

I hereby submit my report for the year 1940:
 Number of animals quarantined under suspicion of rabies

January 1, 1940 to December 31, 1940.....	190
Number of cattle inspected	104

To our knowledge there were no positive cases of rabies during this period.

There were two dogs quarantined because of sarcoptic mange. They were ultimately disposed of.

Respectfully yours,

EDWARD A. deVARRENNES, V.S.

Inspector of Animals

REPORT OF INSPECTOR OF PLUMBING

January 1, 1941.

DR. RICHARD M. ASH
Health Commissioner

Dear Sir:—

I hereby submit my annual report as Inspector of Plumbing for the year 1940.

Applications filed1882
 Received for permits\$2082.75

The following is a list of applications filed and the amount received by months:

	Applications	Received for Permits
January	151	\$122.50
February	113	95.00
March	138	124.75
April	172	186.75
May	170	168.25
June	167	245.25
July	154	203.00
August	152	218.50
September	152	158.75
October	216	250.50
November	137	149.25
December	165	160.25
New building for which permits were issued		221
Dwellings		204
Other Buildings		17
Manufacturing Building	2	
Broadcasting Station	1	
Garage	1	
Filling Station	3	
Church	1	
Stores	1	
Apartment House	1	
Funeral Home	1	
Power House—Fore River Yard.....	1	
Telephone Building	1	
Mercantile	1	
Dog Hospital	1	
Office Building (temporary)	1	
Office Building	1	
Other buildings for which permits were issued		1661
Buildings connected with the sewer		255
New		203
Old		52
Buildings connected with cesspools		21
New		15
Old		6

Buildings connected with septic tanks	5
New	5
Old	0
Master Plumbers Registered	221
Residents of Quincy	41
Non-residents	180

On many occasions during a period of several years my attention has been directed to the difference in the cost of permits.

Fees for permits at present are as follows:—

All new buildings which require plumbing, \$3.00 per permit, up to six fixtures, or 50 cents per fixture.

All old buildings which require a permit, \$1.00 for permit, to include not over six fixtures, or sixteen and two-thirds cents per fixture.

The fee for the replacement of a water closet or any other fixture, other than a sink, sink and tray combination or domestic hot water boiler or appliance, is one dollar or one dollar per fixture. The one dollar fee is charged, perhaps not more than four or five times a year, but I do not believe it was the intention of the council that this variance in the cost of permits should exist. Therefore, I respectfully recommend that Section 2, Paragraph 6, be changed to read:

Fees for permits shall be as follows:—

All new buildings which require plumbing, \$3.00 per permit, up to six fixtures, and 50 cents for each additional fixture.

All old buildings which require a permit, 50 cents for the installation or replacement of each plumbing fixture.

The cost of permit for installation of plumbing would then be 50 cents per fixture regardless of the number of fixtures.

Respectfully submitted,

JERE J. CURTIS
Inspector of Plumbing

REPORT OF INSPECTOR OF MEATS, PROVISIONS AND EATING ESTABLISHMENTS

January 1, 1941.

DR. RICHARD M. ASH
Commissioner of Health
Quincy, Massachusetts

Dear Doctor:—

I herewith submit my report for the year ending December 31, 1940.

Regular inspections	2795
Bakery truck inspections	152

It is urgently recommended that facilities be provided for the taking of bacteria counts on eating and drinking utensils. This method of determining the cleanliness of glasses and other eating and drinking equipment is being used in the more progressive communities and is the only sure way of protecting the public against the numerous diseases which are capable of being contracted by using utensils which have been improperly washed.

It is also recommended that the licensing board consult the Health Department relative to sanitary conditions in liquor establishments before granting licenses.

Respectfully submitted,

CLARENCE L. EDWARDS

Inspector of Meats and Provisions

ANNUAL REPORT OF THE QUINCY CITY HOSPITAL**For the Year Ending December 31, 1940**

To His Honor the Mayor, the President and Members of the City Council:—

GENTLEMEN:—

Increase in Patients Admitted

The Board of Managers of the Quincy City Hospital herewith submits its report of the hospital activities for the year 1940 with comparative figures for the year 1939. There were 7,444 patients admitted in 1940 and 6,665 admissions in 1939—an increase of 12%.

Deficit Reduced

A reduction has been made in the operating of the hospital for the second consecutive year. The net deficits were: 1938—\$180,306.64; 1939—\$170,229.49; 1940—\$151,332.69. This has been accomplished without reducing the quality of service to our patients.

The larger daily census of pay patients, additional use of the Laboratory and X-Ray facilities have contributed considerably in accomplishing these results.

This could not be possible without constant supervision by the Board of Managers and the co-operation of the staff and employees.

The birth rate was 2.9 babies per day, an increase of 164 over 1939. The medical, nursing, and hospital staffs are to be commended for the splendid clinical results obtained, not only in the Obstetrical Department but all other departments as well. There were 7,444 admissions, 7,406 discharges and 289 deaths in 1940.

Heavy Financial Burden

Our experience has been in keeping with other leading hospitals throughout the country in that cures performed by new therapeutic drugs have cut down the patients' bills, but have added heavy financial burden to the hospital's. To perform and carry through these complicated treatments, additional nurses, technicians and other employees have been necessary.

Personnel

An average of 294 employees were necessary to operate the hospital for the year. This was an increase of 24 over the previous year. Our present personnel-patient ratio corresponds to other recognized general hospitals in Massachusetts.

Hospital Costs Higher

A decided increase is to be expected in the hospital budget for 1941. This is due to increased cost of foods, medical and surgical supplies and higher wages. We should not lose sight of the fact that we can expect an income from patients to equal the receipts for 1940, which were \$302,581.02. All money received from patients, like all other departments, is turned into the City Treasury.

Defense Program

It is a recognized fact that salaries of hospital employees generally average lower than salaries received by employees in private industries and even lower than salaries received in other City Departments.

In order to retain the proper organization at the hospital, the Board of Managers finds it necessary to increase the wages of a great number of employees. This increase will be noticed in the salary budget for 1941. We must be ready to meet any emergency.

The Defense Program already has begun to make demands on hospital facilities.

Free Care

The Quincy City Hospital continues to pride itself on not turning away a patient who needs medical attention regardless of their ability to pay. It's true, however, that many of these cases have been ambulatory—were treated, if necessary, and then sent home.

The free work at the hospital included services to the following agencies: Cases treated for Welfare Department—\$13,016.41; For Old Age—\$9,713.09; Cases referred to the Welfare Department—\$16,064.98; Mothers' Aid Cases—\$2,173.00; School Accidents—\$657.00.

A Private Hospital

Our hospital has a dual responsibility of caring for the indigent and those able to pay. This set-up, for a municipal hospital, is unique, in that all citizens of Quincy are afforded the opportunities and services of a modern, well-equipped, up-to-date, general hospital.

Buildings

The sum of \$16,663.72 was expended during the year for repairs and upkeep of our buildings and grounds.

With the aid of W.P.A., the following major improvements were made:—

1. Repairs and alterations to Rice-1 and Rice-2.
2. Exterior painting and water-proofing of all buildings.
3. Construction of quarters for Pre-Natal Clinic in Administration Building.
4. Excavation of Hunting Basement.
5. Construction of splint and plaster room in newly excavated basement in Hunting Building.
6. Widening of "Fire Lane" from Whitwell Street to rear entrance of M&S Building.
7. Construction of asphalt walks on hospital grounds.
8. Landscaping and clearing of ground, and planting of shrubbery with the aid and donation of shrubs by the Park Department.

9. Water-proofing of Surgical Building Basement.
10. Installation of fire-alarm system in Rice Building.

Improvements Recommended

Each day a greater responsibility is being placed on the hospital and its entire staff. To meet these demands of our community, it will be necessary to make several improvements in the hospital buildings during the coming year. They are as follows, in the order of importance:—

1. An additional floor to the Service Building for a larger nurses' and employees' dining room.
2. Alterations to Hunting Building—3rd floor, to repair leaks, and to increase the bed capacity of the Children's Ward.
3. Construction of an underground tunnel from the Nurses' Home to the hospital and Service Building.
4. Construction of a five-story building on the site of the present surgical unit. This unit would contain an accident and emergency ward; a Nursery to accommodate eighty infants; enlarged Operating Room and sterilizing facilities; and two additional wards for patients to care for an additional seventy-two patients.
5. Erection of portable houses for fifty nurses.
6. Building of portable units for 40-50 hospital beds, between the M&S Building and the Sears' Estate.

Mrs. T. Newell Lane's Term Expires

The Board of Managers takes this occasion to express its sincere appreciation of the unusually fine service which has been rendered to the City of Quincy by Minnie A. Lane, a most faithful and helpful member of the Board since July 16th, 1935.

Mrs. Lane's term of office expired on January 7th, 1941, due to an arbitrary termination of her tenure of office under the law.

At the final meeting of the year, the officers of the hospital expressed their affectionate gratitude for Mrs. Lane's invaluable service to our beloved City Hospital, and its warmest wishes for her continued happiness.

Welcome Mrs. Edwina M. Robb

It is the good fortune of the Board of Managers that the Mayor appointed to this body another leading citizen of our community—Mrs. Edwina M. Robb, who took office on January 7th. Mrs. Robb is not new to the hospital, since she has been an active and valuable member of the Advisory Committee of our School of Nursing.

Adequate Service For All

As in the past, the Board of Managers, with the aid of the administrative staff, has endeavored to render adequate service to all patients admitted to our hospital at a minimum cost to the City.

Our buildings and equipment have been maintained in such a manner that the staff has been able to carry out the best-accepted procedures in the care of the sick.

Appreciation

The Board of Managers wishes to express its appreciation to the Active Staff for the many hours of service given to the charity patients admitted on service during the year; also, to the many friends and organizations for their generous support of the hospital administration and for their many gifts given to the patients at the hospital. To His Honor Mayor Thomas S. Burgin and the City Council for their continued interest and support of our hospital; also, to all other City Departments for their splendid co-operation and aid given to our Superintendent throughout the year. Again, we express our thanks to the Quincy Patriot Ledger for interpreting the work at the hospital to our community. We also wish to record our appreciation to our Superintendent, his assistants, and all our faithful, co-operative staff of employees and departmental heads.

Board of Managers

REPORT OF THE SUPERINTENDENT

To the Board of Managers of the Quincy City Hospital:—

MRS. ROBB AND GENTLEMEN:—

It is an honor and a pleasure for me to submit to you this, my sixth, hospital report for the year ending December 31, 1940.

Because of continued loyal support and co-operation on the part of my associates, department heads and all other employees, this is possible.

12% Increase in Patients Admitted

The daily bed occupancy of the hospital was 221.4 patients, an increase of 12% over the preceding year. From all indications we have reason to believe that a greater occupancy is to be expected for 1941.

Increased Personnel

It was necessary to have additional personnel for the year. The number of employees in 1939 was 266; and in 1940, 294.

Health Lectures

For the second year, community health lectures were held at the hospital. The lectures were given by members of the hospital staff and other medical authorities from Boston and were sponsored by the Social Service Committee.

Iron Lung Fund

Through popular subscription and the efforts of the Quincy Patriot Ledger, over \$2,000.00 was raised to purchase an Iron Lung, a Resuscitator, a Laryngoscope, Bandage Cutting Machine and a Dental Drilling Machine.

Employees' Physical Examinations

Following the example of other progressive institutions, routine yearly physical examinations for all nurses and hospital employees were instituted. Student nurses and employees of the Dietary Department are examined twice yearly. These examinations are all done by the Resident Physician, and a complete health record is kept on all employees.

Administration's Personnel

Miss Minnie Harron, Admitting Officer since March, 1933, resigned to be married on August 31st, 1940. Miss Alice Gray was promoted to fill this vacancy. Miss Evelyn Mahoney and Mrs. Ada Wharton were added to the Administrative Staff as Admitting Officers.

Miss Bernadette Boutin, Assistant Superintendent, attended the New England Hospital Institute for Hospital Administrators in September.

Audit

The State Auditors completed a two-months' audit of the hospital Bookkeeping Department, covering the period from 1925 to 1940. All accounts were found in order.

Repairs to Buildings

Together with increased activity resulting from the additional patients admitted to the hospital, there has been considerable activity in repairs and alterations to buildings and equipment.

Physical Examinations of Draftees

The hospital staff is co-operating with our local draft boards in the physical examination of draftees. Over 150 boys and girls from the National Youth Administration were given physical examinations at the hospital this year. The clinic facilities in the Administration Building are used for these examinations.

Equipment

Several pieces of equipment have been added to the various departments, and in some instances old equipment had to be replaced. These changes and additions of equipment occur in the subsequent departmental reports.

Low Maintenance Costs

It has been said by authorities that the maintenance costs of our hospital are considerably lower than in similar institutions elsewhere. We believe the reason for this is due to our constant watch and supervision of our buildings, materials and equipment, plus a co-operative and willing group of hospital workers. We have endeavored, with the help of the Board of Managers, to provide proper tools and machinery for our employees; this too has contributed to low maintenance costs.

N.Y.A. and W.P.A. Workers

We are indebted to N.Y.A. and W.P.A. for supplying the hospital with workers to help in the various departments and helping with the extra load put on the hospital this past year.

Recommendations

The pressing needs for the present have already been presented by the Board of Managers.

For the coming year, 1941, may I ask for continued co-operation from all departments in order that we can meet successfully the greater demands that will be made upon us.

All City Departments Co-operate.

May I express my appreciation to his Honor, Mayor Thomas S. Burgin, his offices at City Hall and all other City Departments

for their splendid help given to the hospital during the past year. In every instance, when called upon by the hospital, each department head and his staff have responded generously with assistance.

Board of Managers

The continued interest and co-operation of the Board of Managers in all hospital problems has made the work of your Superintendent easier and more pleasant. I thank the Board of Managers for their loyal support and kindness.

Appreciation

We wish to express our thanks to the Quincy Patriot Ledger, all our Quincy Social Agencies and Service Clubs for their co-operation and kindness, and our many friends for their many gifts and donations.

In closing, it has been a pleasure and a joy to me to be associated with such a fine group of medical men, nurses and hospital workers, to whom I wish to express my gratitude for their splendid co-operation.

Respectfully submitted,

JOSEPH P. LEONE, M.D.,
Superintendent

REPORT OF THE SCHOOL OF NURSING AND THE HOSPITAL NURSING SERVICE

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The census of the school and the Nursing Department is as follows:

Census December 31, 1940

OFFICERS AND INSTRUCTORS

Supt. of Nurses and Principal of the School.....	1
Asst. Supt. of Nurses and Principal of the School.....	1
Ward Instructor and Day Supervisors	3
Anesthetist	1
Night Supervisor and Assistant	2
Head Nurses and Assistants (Day)	14
Head Nurse (Night)	1
Graduate Staff—Duty Nurses	88

STUDENT NURSES

Senior Students	19
Intermediate Students	19
Junior Students	16
	<hr/>
	54
Preliminary Students	22
	<hr/>
Total	76

STUDENTS AT AFFILIATION

Bellevue Hospital	11
Butler Hospital	2
Charles V. Chapin Hospital	5
Mass. Eye and Ear Infirmary	1
	<hr/>
Total	19

Students completing the course and graduated	19
Preliminary Students Admitted	40
Preliminary Students Completing the Course	37
Enrolled students resigned or withdrawn	3

The hospital reports that during the past year it has cared for the highest daily average number of patients in its history.

In terms of nursing service it has meant not only more patients but more highly technical treatments and consequently more nursing hours to be provided. The newly renovated ward in the Rice Building, with accommodations for ten additional private patients, has been staffed with graduate nurses. The supervisory group from Hunting 2 has charge of this new unit, and since it has been ably managed, it has not seemed necessary to appoint an additional head nurse.

The pleasant, sunny rooms and quiet atmosphere in this ward appear to be most appreciated by the patients. Since Rice 2 was opened, it is no longer necessary to care for maternity patients in Hunting 1. As a result, we believe we are giving better care to both mothers and infants.

There have been two changes among the instructors' group, and resignations and appointments among the head nurse staff.

Miss Priscilla Alger, instructor in nursing arts for five years, resigned to be married, and she has been succeeded by Miss Mary Ormond, a graduate from the Simmons College School of Nursing.

Mrs. Ada Wharton, the school's first ward instructor, was promoted to the Admitting Office in September, and this vacancy was filled October 14 by Miss Janet Wilson, who has had post-graduate study at Simmons College and Teachers' College at Columbia University.

Mrs. Isabel Budding, for eight years a head nurse in the Obstetric Department, has been succeeded by Miss Ella Anderson, a graduate from this school. Miss Mae Bamberg resigned as Head Nurse of M&S 2 to take up private duty, and that appointment has been filled by Miss Esther Youngren, who previously served as assistant head nurse in the same ward.

Each one of these young women has made an individual contribution to the hospital and school, and we acknowledge their professional service with gratitude.

Refresher Course

For the past year we have been mindful of the possible need for additional qualified graduate nurses to care for any untoward emergencies in the hospital and community. To help meet such needs, it was decided to arrange a refresher course for graduate nurses, to include lectures and demonstrations of the more recent technical nursing procedures. Our regular teaching staff conducted the course. Applications from the Alumna of the school were given first consideration, but since all appointments were not taken, it was possible to include a limited number of graduate nurses from the community. The course, covering 24 class periods, started October 1st, and was completed December 17. Only a limited number attended the lectures regularly, so at this time it seems doubtful if we are justified to expect our busy staff members to repeat the course early in 1941. It is likely that a greater degree of interest may be evident at a later period which would warrant repetition of the project.

Graduation Exercises

Graduation exercises were held on Wednesday, June the twelfth, and for the first time in many years it was not possible to have the exercises out-of-doors.

We are grateful to Mr. Muir, Superintendent of Schools, for the use of the High School Auditorium. The address was given by Dr. Charles F. Wilinsky, Executive Director of the Beth Israel Hospital, Boston.

Alumnae Scholarship

The Nurses' Alumnae Association awarded its first \$300 scholarship to the member of the graduating class who, in the opinion of the Committee, had maintained a consistently high average in the theory and practice of nursing throughout the three years. Miss Barbara E. Hobbs, Chairman of the Scholarship Committee, presented the scholarship to Miss Ruth J. Kjellander, and named as her alternate, Miss Eda Nereo. The scholarship is to be used for post-graduate study in nursing within five years of the time of award. It is indeed gratifying to have such a splendid incentive for the student group. We believe it will be conducive for the development of latent potential abilities for leadership. We can think of no finer contribution for the Alumnae Association to make to its school, and we sincerely trust they will have enduring satisfactions from their efforts.

Library Fund

A generous gift of \$1500 from the estate of the late Richard F. Raycroft has been allocated to the School of Nursing for the purpose of providing reference books for the school library. This amount should enable us to add new and carefully selected volumes in sufficient numbers as they are needed.

Laboratory Equipment

We are pleased to report that we now have eight microscopes for use in the Science laboratory. One is now shared between two students, which enables them to do more careful and meaningful laboratory work.

Student's Death

We regretfully report the untimely death of Miss Jean Beal of the class of 1941. She was one of our most promising senior students. Possessed of a vibrant personality and a high degree of ability, she early made a place for herself in the school. Miss Beal was universally popular with her patients and co-workers, and it may well be said of her that she epitomized joy in the service to suffering humanity.

New Members Appointed To Advisory Committee

We are confident that the new members appointed to the Advisory Committee will be able to make a definite contribution to the school for each represents a professional field closely allied to nursing. We were pleased to welcome Miss Katherine Bacon, Principal of Woodward School, and Mrs. Wilfred Funnell, of Wollaston, as new members of the Advisory Committee.

Answer To A Need

We have long felt the need of some one person on the staff who had time to assist the student nurses with their extra-curricular activities. Through the interest of the Women's Auxiliary, we now have Mrs. William Lund coming to the residence for a limited time each week. Even though the project has been under way only for

a few months, the results we believe have been helpful. Play-time for young students is essential and it has become more meaningful for there is now someone to help organize and initiate various affairs. Group activities are more enjoyable, and we anticipate as other out-of-door activities are added, that the health angle will improve.

Late this year the School of Nursing filed application with the Committee on Accreditation for a survey to be made of the school in 1941. This is done under the auspices of the National League of Nursing Education.

Each year brings its problems and challenges. This past year has been a very active one for all members of the nursing department. The head nurses in the larger and busiest wards are finding it increasingly difficult to give the necessary time from their pressing administrative duties to their important student teaching duties. We believe trained clinical secretaries would relieve much of the pressure in these divisions, and it is a step which should be taken as soon as possible.

We are most appreciative of the co-operative spirit of the personnel who have carried on day by day endeavoring to give quality nursing care to the sick of this community.

Respectfully submitted,

HELEN O. POTTER, R.N.,
Superintendent of Nurses

REPORT OF THE SOCIAL SERVICE DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The increase in the average daily census of the hospital has created a corresponding increase in the work of the social service department, both in regards to financial investigations and the number of social problems encountered. Our most common problem is that of procuring adequate convalescent, and more particularly chronic, care for our patients. It has been our experience to make rounds with the doctors of the medical service, and find that at least half the patients comprising the service are suffering from a chronic illness. These people could, and should, be treated elsewhere if there were somewhere else they might go; but the lack of adequate facilities not only in Quincy but throughout the State, and the expense involved in going to one of the many private homes force a majority of these patients to come to the hospital and remain here for a long time.

Because of the increase in the amount of work, it was deemed advisable to assign it in two parts, with the director dealing with all problems, economic and social, arising from the medical and surgical cases and the assistant handling accident investigations and obstetric, pediatric, aural and dental cases, including the pre-natal clinic. We have found that this enables a worker to become more efficient by concentrating her work over a more restricted area.

I. Personnel

In March, 1940, we received the resignation of Miss Muriel Brady, who had been a member of the department since June, 1938. Miss Brady made many friends for the hospital during her stay with us and it was with deep regret that her resignation was accepted.

In her place, we now have Miss Pearl Feldman, a recent graduate of the Simmons College School of Social Work, who came to us highly recommended by the School and by the Quincy social agencies where she had done her field work.

II. Cases Studied

The department interviewed the families of, and obtained financial and settlement histories on 2352 service cases. We examined the police records and contacted insurance companies and lawyers in regards to 196 cases of persons admitted to the hospital suffering from injuries received in automobile and other accidents.

Arrangements were made for convalescent care in their own homes or in a private nursing home for 58 adult patients and 6 children were sent to the Convalescent Home of the Children's Hospital at Wellesley. Forty patients were referred to other hospitals and clinics for special care and five patients were sent to the City Home. Home nursing service was obtained for eight patients who were discharged from the hospital and surgical appliances obtained for 17 patients. Foster home placements were made for 8 babies,

through the co-operation of authorized child-placing agencies. There have been 290 outside settled cases referred to the department of Public Welfare for reimbursement or protection, and 420 welfare cases, including those receiving Old Age Assistance and Aid to Dependent Children.

With the aid of volunteers, 1439 home visits were made and an average of three patients were brought to the hospital regularly for physio-therapy.

III. New Location of Office

On August 13, the department was installed in new, spacious quarters in the basement of the Administration Building. The additional room allowing for private offices for the two social workers was especially welcome after the crowded conditions of the past two years.

The adjoining room, hitherto used for storage and as a nurses' rest room, was converted into a clinic with four examining booths and dressing rooms, with a connecting door from the social service department, making for convenience in the administration of the clinic. It is here that pre-natal and tumor clinics are held.

IV. Tumor Clinic

The Quincy Tumor Diagnostic Clinic has been making slow, but steady progress in the fifteen months since its inception. There have been 37 patients seen in the clinic, of whom 7 have had cancer of the skin, 4 cancer of the breast, one each cancer of the uterus, tongue, lip, mouth, esophagus, lymph glands and sub-maxillary glands. Eleven patients were found to have no cancer and eight are still undiagnosed, but under observation.

A teaching clinic was held on May 7, 1940. Dr. Francis P. McCarthy spoke on the Preventive Treatment and Pre-malignant lesions of the oral cavity and Dr. John Spellman discussed Surgical treatments of the Lip and Oral Cavity. At the second teaching clinic, Dr. Roger Graves lectured on Cancer of the Genito-urinary Tract. This clinic was held on October 29.

V. Pre-natal Clinic

There were 178 new patients admitted by the social service department to the pre-natal clinic and a total of 816 visits were made. Miss Marjorie Foster, nutrition consultant of the Junior Welfare League, visits clinic every week and talks with the patients concerning their diets and food problems.

The Visiting Nurse Association continues to visit our clinic patients, and report both medical and social data, thus enabling us to have a more complete history and picture of the patient.

VI. Social Service Committee

The members of the Social Service Committee for 1940 were Mrs. Malcolm Sargent, Mrs. Fred Bergfors, Mrs. Alfred Brown,

Mrs. F. Ramon Burke, Mrs. T. Vincent Corsini, Mrs. Edward Dobbyn, Mrs. Harry E. Dupee, Jr., Miss Helen Gavin, Mrs. Robert O. Gilmore, Mr. Guy W. Hart, Mrs. Paul Karcher, Mrs. Edward M. Nathan, Mrs. Harold P. Newell, Miss Sadie Papile, Mrs. Merton Rix, Mrs. Joseph Serafini, Mrs. Frederick Tobben, Miss Carlana Walker, Miss Marjorie Welch, Dr. Joseph P. Leone, and Miss Ruth Darr.

The Fourth Annual Charity Ball sponsored by the Committee was held at the Neighborhood Club on April 5, 1940. Mr. Ervin Hinds was Chairman. As has been the custom, this Ball was more successful than any of its predecessors, with a net income of \$667.01. We have found that these annual affairs have become tradition, in the City and each year finds a larger group attending.

The second annual Bridge Party was held on December 11, 1940 in the Gordon House. Again we find it true that a larger group attends each year so that our net income was \$77.75.

As I have remarked in previous reports, it is particularly gratifying in these days when there are so many demands upon the time and pocket of the individual, in behalf of worthy causes, to find a group which is so energetic and enthusiastic in its support of our institution.

VII. Acknowledgements and Thanks

In the tide of every day living and working, it is very easy to take for granted the assistance rendered by outside agencies and individuals. We welcome, therefore, this opportunity to thank those persons for whose co-operation in the past year we are most grateful.

1. Commissioner of Public Welfare, Anthony J. Venna, and the entire Welfare department without whose generous aid and assistance, the work of our department would be seriously curtailed.
2. Family Welfare Society of Quincy.
3. Quincy Visiting Nurse Association.
4. The Kiwanis Club which paid for tonsillectomies for 33 children.
5. Those who have given their time, and in many cases the use of their automobiles to enable us to carry on our work of helping those who are unable to help themselves. For the second summer, Miss Bette Cutler has worked for two months in this department as a full-time volunteer secretary, Miss Madeline Shipsey, a student in the Simmons College School of Pre-professional Studies, came to us once a week for several weeks to assist in the work of the department and to acquaint herself with the workings of a medical social agency. Among those who have volunteered as drivers are Mrs. Raymond Warren and a group from the Wollaston Mothers' Club, Mrs. Edward M. Nathan, Mrs. Gustavius Robinson, Mrs. Frank E. Wheeler, Mrs. Raymond Allen, not to mention the Red Cross Motor Corps under the supervision of Mrs. Claire Nelson.

The Administration and Staff of the hospital have also been most co-operative and helpful in the past year and I wish to express to them my sincere appreciation at this time.

Respectfully submitted,

RUTH DARR, *Director*

Department of Social Service.

REPORT OF THE X-RAY DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The following is a report of the work done in the X-Ray Department during the year 1940.

Personnel

The personnel of the Department remained as in 1939 with Rebecca Philbrick, Constance Larkin and Elliot G. Vining doing the technical work. Phyllis Acebo had charge of the clerical work. During the year two young men and three young women were delegated to the X-ray Department by the NYA for temporary employment and did excellent work in the filing of records and films, and answering telephone calls.

New Equipment Desired

In order to duplicate the radiographic results, it is essential that we have some new screens and cassettes made by one firm. We need two 14x17 cassettes, two 10x12 cassettes and two 8x10 cassettes, all equipped with new screens. The outstanding need of the Department at this time is a new high voltage deep therapy outfit. This equipment could be installed at a relatively low price as the transformers which generate the power for the present machine could still be utilized.

The proposed high voltage X-ray therapy machine is one having the flexibility to enable us to approach a deep seated tumor from any angle, and its installation will be a distinct step in advance in the treatment of malignant disease.

A Room for Low Voltage Therapy

At present we have great difficulty in bringing bedridden patients to the low voltage therapy room on account of the necessity of mounting four steps to reach the floor level. The suggestion is made to convert the storeroom across the hallway from the radiographic department into a room for low voltage therapy. This room is easier of access and the low voltage equipment could be transferred to this room with moderate expense.

New Equipment

During the year a new steel developing tank was installed in the darkroom and a lead covered loading bin for the protection of films. A more modern system of viewbox lighting was also installed in the viewbox room.

Approximately a twenty per cent increase for the year

A comparison of the number of patients radiographed during the year 1940 with the number radiographed in 1939 shows an increase of approximately twenty per cent. The greater number of these examinations were done for members of the hospital staff on patients confined to the hospital. A relatively small number were referred to the Department by outside physicians. A marked increase was also noted in the number of patients suffering from fractures which were reduced under the fluoroscope by various members of the staff.

The following is a statistical report of the work done during the period from January 1, 1940 to December 31, 1940 inclusive:

Gastro-intestinal tract	266
Gall Bladder	240
Barium Enema	89
Kidneys, ureters and bladder	310
Pyelogram	159
Chest	1520
Spine	323
Teeth	101
Ankle	231
Knee	128
Leg	401
Ribs	70
Shoulder	223
Pregnancy	25
Wrist	198
Elbow	108
Arm	219
Feet	143
Hand	185
Skull	212
Nose	47
Sinus	68
Jaw	44
Mastoids	77
Pelvis	187
Post-operative hips	17
Fluoroscopic reductions	76
Localization of Foreign Bodies	11
Twenty-four hour films	182
Total Examinations	5830
Treatments	
Low voltage	111
Deep Therapy	105
Total Treatments	216

We desire to express to the Administration and the Staff our appreciation of their continued co-operation.

Respectfully submitted,

CHARLES WHELAN, M.D.,
Roentgenologist.

REPORT OF THE LABORATORY DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

To the Superintendent and Board of Managers of the Quincy City Hospital the report of the Clinical and Pathological laboratory is hereby submitted:—

The laboratory records have shown a continual increase in work with the past year showing an increase of about 5000 tests over the preceeding year. An ever increasing number of examinations is being made upon non-hospitalized patients from Quincy and the surrounding towns. The revenue from these cases adds considerably to the laboratory income.

The autopsy rate continues at a fairly high level with a percentage of 35 for 1940. This again reflects the high scientific standard of the institution and indicates the close co-operation of the public in granting permission to perform these examinations.

The laboratory formerly used by the School of Nursing has been suitably equipped with new benches, drawers and cabinets and up-to-date equipment including the auto-technicon and photo-electric colorimeter. This newly equipped laboratory gives us more adequate space for the increasing work and personnel. We greatly appreciate the full co-operation of the superintendent and the board of managers in furthering the development of the department.

In June Miss Ruth H. Kuhns resigned her post as assistant laboratory technician. Miss Mary A. Maloney and Miss Margaret Hunt have been appointed as assistant laboratory technicians.

The following is a detailed report of the examinations performed:—

REPORT OF PHYSICAL THERAPY DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The following report of the work of the Physical Therapy Department is respectfully submitted.

During the past year no new equipment has been added, although the need of an additional short wave diathermy machine is still felt in the department.

One change in personnel has been made during the past year. Miss Mildred Anderson has taken over the secretarial duties of Miss Mary Popowitz.

Examinations and Treatments in 1940

Examinations	96
Auto-condensation	50
Diathermy	1696
Electric Saturation	69
Fulguration	14

Respectfully submitted,

CLAUDE L. PAYZANT, M.D.,

Director, Physical Therapy Department.

REPORT OF THE DIETARY DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The cost of all uncooked food used in the hospital for the year of 1940 was approximately \$62,900.00. This covers the feeding of approximately 141,450 persons, which number includes all patients, doctors, nurses and employees. This means the cost of uncooked food per person per day was \$0.44.

The uncooked food costs were broken into five large divisions.

The following is the approximate percentage of our total cost spent in each division:

Meats, Fish, Poultry	28%
Milk, Cream, Ice Cream	20%
Butter and Eggs	10%
Fresh Fruits and Vegetables	14%
Groceries (all other foods)	27%

During 1940, the diet kitchen dispensed all between-meal nourishments. This meant the hiring of another person to be responsible for the making and distributing of these fluids to the respective wards.

Three new decks of steam cookers have been added to our kitchen equipment. These greatly facilitate the cooking of large quantities of fresh vegetables daily.

Respectfully submitted,

LAURA D. WENDT, *Dietitian*

REPORT OF THE HOUSEKEEPING DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

During 1940, an additional tumbler for drying clothes was installed in the Laundry. This now makes two rotary driers in use in the Laundry, which have both increased the efficiency of this department and saved considerable time.

Other new equipment added in 1940 were two Puff Sleeve Pressers and also two Pressers for the Press Room, which are working very satisfactorily.

Again this year the majority of the employees of the Housekeeping Department attended and enjoyed the Christmas Party held in the Conference Room for them.

Respectfully submitted,

CATHERINE LAUDER,
Housekeeper.

REPORT OF THE MAINTENANCE DEPARTMENT

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The following is an itemized report of major work which has been done by the Maintenance Department during 1940:—

1. Installed new Heating Unit in hot water heating tank in the Boiler Room.
2. Installed two Prosperity Pony Pressers in the Laundry Press Room.
3. Installed one American Rotary Drier in the Laundry.
4. Installed one Kinney Vacuum Pump for suction in Surgery Building and the wards.
5. Built an Ice-Storage Room in the Refrigerating Room.
6. Installed drains and pumps for Surgical Building and Boiler Room.
7. Alterations and additions in the Diet Kitchen and the Pathological Laboratory.
8. Drinking fountain installed in the Service Building.
9. Rebuilt one Boiler Feedwater Pump.

An Electric Eye was installed in uptake from boilers. This item has proved to be a valuable asset to the oil burner installation, as it has enabled us to operate closer to ideal conditions than before, without danger of smoking from chimney.

The oil burners installed late in 1939 have operated satisfactorily during the past year. The boilers have produced 41,482,170 lbs. of steam during the past year, from burning 383,396.02 gallons of fuel oil, the performance of oil burners and boilers giving an actual evaporation of 13.45 lbs. of steam per gallon of oil.

In April, 1940, Mr. Oscar Lund was retired on pension. Mr. Lund was employed at the hospital for 15 years as a gardener. He was most co-operative and faithful in carrying out his responsibilities.

Respectfully submitted,

CARL ERIKSSON,
Chief Engineer.

REPORT OF THE PRESIDENT OF THE STAFF

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

During the year 1940, the Staff operated with the same efficiency as in other years. The close co-operation between the Board of Managers and the Staff has made the work pleasant.

Staff meetings have been held at noon instead of in the evening, but the attendance was not as good as in the preceding year. This was probably because of the time the meetings were held.

Dr. Max Stein and Dr. David Karp were appointed to the Courtesy Staff, and Dr. Leo F. Amrhein was granted Courtesy privileges.

The supervision of the Operating Room was turned over to Dr. Walter Sargent to undertake the standardization of operating technique and to standardize general surgical procedures in the hospital as far as efficiency will permit. The Staff has given him excellent co-operation, and we expect as time goes on this difficult task will show far-reaching results.

At the December meeting the following officers were elected:—

DR. WILLIAM R. HURLEY.....	<i>President</i>
DR. FRED COSTANZA.....	<i>Vice-President</i>
DR. WILLIAM L. KRIEGER.....	<i>Secretary</i>

Respectfully submitted,

F. RAMON BURKE, M.D.,
Staff President.

REPORT OF THE INTERNES' COMMITTEE

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The Internes' Committee, for 1940, has had several formal and informal meetings during the year. Several names of applicants were sent to you with the Committee's approval.

It has been the policy of your Committee to continue the custom of getting internes from as diversified a list of Class-A medical schools as possible, in order that new ideas and methods may work for the benefit of the hospital in general.

The following nominations were made for periods beginning July 1st, 1941: Peter Angelo—Tufts Medical School; Daniel F. Shea—Georgetown University Medical School; Gerald M. Collins—Boston University Medical School. For periods beginning January 1st, 1942: Isadore Schwartz—Tufts Medical School; Carl J. Antonellis—Tufts Medical School; Albert A. DesChenes—Boston University Medical School.

These candidates are accepted for their scholastic standing and the recommendations of the Deans of the schools. Your Committee takes into consideration the fact that the candidates are fourth-year students, and a great responsibility rests on the various medical schools to see to it that the fourth year completed work is satisfactory before the elected interne assumes his position.

On June 30th, 1940, the following received their diplomas from the hospital: Dr. Leo Milner, Dr. Lester Fox and Dr. Robert Sherman. On December 31st, 1940, Dr. Edward F. Fitzgerald, Dr. Antonio J. Giascomini and Dr. Frank J. Chiminello received diplomas. Each of these graduates was presented with a very useful gift by the members of the Staff of the hospital. Each graduate was encouraged to continue his studies and so be better practitioners, reflecting great credit to the Quincy City Hospital.

Respectfully submitted,

CHARLES S. ADAMS, M.D. *Chairman*.
FRED COSTANZA, M.D.
ROBERT L. COOK, M.D.
RICHARD M. ASH, M.D.
WILLIAM J. HARKINS, M.D.
JOSEPH P. LEONE, *Secretary*

REPORT OF THE STAFF PROGRAM COMMITTEE

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

Staff meetings were held regularly at noon time during the year 1940. General attendance was only fair. An instructive program has been carried out with many speakers of note in the profession from Boston institutions.

The meetings carried on by members of the Staff have received enthusiastic support. It is probable that the number of meetings of this latter type can be advantageously increased in the future.

Respectfully submitted,

J. EDWARD KNOWLTON, M.D., *Chairman*
ROBERT O. GILMORE, M.D.
WILLIAM L. KRIEGER, M.D.
FRANCIS G. KING, M.D.

REPORT OF THE AURAL SERVICE*To the Board of Managers of the Quincy City Hospital:*

GENTLEMEN:

Dr. Robert O. Gilmore, Dr. James Ward, and Dr. Walter McClintock have continued to serve as the Aural Service in 1940 in the same efficient manner as in previous years, with their splendid co-operative spirit.

Admissions to the Aural Service, excluding tonsil cases, were 85. There were 321 patients admitted to that service for tonsil operations, totalling 406 patients admitted on the Aural Service. All the Aural cases admitted during 1940, both private and service, were 1172 admissions, 815 of which were tonsil cases of which 594 were private patients and 321 on service. Of this total of 1172 patients, 678 were children of 12 years or under.

During 1940 there were 1169 Aural patients, both private and service, treated and discharged. Of these there was one death, and one autopsy, and 48 of them were seen in consultations.

Speaking for the Aural Service, I would like to express our thanks and appreciation to the Nursing and Hospital Staffs for their service and co-operation. Personally I would like to congratulate and thank the members of the Aural Service who have so faithfully served their Hospital and Community.

Respectfully submitted,

WILLIAM J. HARKINS, M.D.,

*Chief of Aural Service.***REPORT OF THE OBSTETRIC SERVICE***To the Board of Managers of the Quincy City Hospital:*

GENTLEMEN:

The following is a report of the Obstetrical Service for the year 1940:

Number of service cases	207
Number of babies born	209
Normal deliveries	172
Low forceps deliveries	19
Breech deliveries	8
Caesarian deliveries	5
Internal Podalic Version deliveries..	5
Number of twins	2
Number of prematures	1
Number of stillbirths	1

Respectfully submitted,

RICHARD M. ASH, M.D.,

Chief of Service.

REPORT OF THE PEDIATRIC SERVICE

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

The statistics of the Pediatric Service for 1940 are as follows:—

Service Admissions	146
Discharges	205
Deaths	11
Autopsies	8
Consultations	33

As you see, there was an extremely high percentage of autopsies. As one of the important functions of a hospital is education of the internes, autopsies are especially desirable in all fatal cases.

There are times when the Children's Ward is extremely crowded. It is hoped that in the near future steps will be taken to improve this situation. The dangers of cross-infection are much increased by crowding.

Respectfully submitted,

EDMUND B. FITZGERALD, M.D.,
Chief of Service.

REPORT OF HOSPITAL LIBRARY

To the Board of Managers of the Quincy City Hospital:

GENTLEMEN:

With the close of the year 1940, the hospital service of the Thomas Crane Public Library completed its fifteenth year of free book distribution to patients. The hospital personnel too, has made extensive use of this library, often asking us to supplement our book deposit by borrowing from the main library. That this department is filling a definite need, may best be illustrated by the mounting circulation figures.

From October, 1925, when the hospital service was started, to January 1, 1926, the book circulation was 724. In 1930, the circulation was 8,488; in 1935—9,975, and in 1940—17,000.

Even today, most people are filled with dismay when they find themselves being sent to a hospital. Imagine then the dismay, if not actual terror, felt by one who speaks nothing but a foreign language, when he is transferred to such a strange and alien environment. We feel that the loneliness of these non-English speaking people is assauged when they find that books in their own tongue are available to them at no cost whatsoever. During this past year books in nine languages have been circulated, namely, Greek, Italian, Finnish, Polish, Swedish, French, Spanish, Jewish and Russian.

Some hospitals have two distinct collections, one a lending library for their private patients and the other a free collection for the wards. We find that our regular free service is patronized fully as much by the former group as it is by the latter.

The children, from five years of age and up, are eager, enthusiastic readers. Their response to the story hour, which is conducted by the librarian when time permits, is heartening in its spontaneity.

The Hospital and Library co-operated with one another when arrangements were made whereby the hospital librarian divided her time equally between the Nurses' and the Patients' Libraries. It was this inter-relationship that made possible the cataloguing and classification of the former.

To the Hospital authorities and personnel for their unfailing co-operation, and to the patients for their gifts of magazines and books to augment our stock, we extend our sincere thanks.

Respectfully submitted,

GERTRUDE HENRIKSON,

Hospital Librarian

Thomas Crane Public Library

QUINCY CITY HOSPITAL GENERAL INFORMATION

We endeavor to make the hospital as homelike and informal as possible; however, in the interest of all patients, certain rules and regulations are obviously necessary.

ADMISSIONS

Patients to be admitted are requested to report at the Admitting Office, on Whitwell Street, before 4:00 P.M. on the day scheduled.

If unable to keep the appointment, the Admitting Office should be notified by noon of that day. All out-of-city patients will submit a local doctor's diagnosis with their application for admission.

The Hospital maintains a Children's Ward for children up to fourteen years of age. Children are admitted as private room patients only when a special nurse is in attendance.

Do not be annoyed when you are asked to make a deposit and to sign a "Guarantee of Payment" at the time of admission. The Quincy City Hospital in line with other hospitals, has had to adopt this principle to protect itself against the burden of bad debts and to insure that the patients who pay for their services will not be taxed for those who evade such responsibility. The admitting officer is unable to recognize all the many friends of this hospital and all the responsible citizens of this community. It is no reflection on your credit or standing, therefore, if you are asked to comply with this rule, we ask you to co-operate with us.

The physician's fee is not included in the hospital charges. With private patients this is a separate matter and should be arranged with the physician. Patients on service are not expected to pay for physician's services.

DISCHARGES

Patients are to be discharged between the hours of 10:00 A.M. and 12:00 A.M.; 2:30 P.M. and 5:00 P.M., daily, Sundays and holidays.

The hospital day begins and ends at 12 o'clock midnight.

VISITING HOURS

All visitors must enter and leave the hospital through the front entrance.

Visiting hours are:

1. For private room patients, from 11:00 A.M. to 8:00 P.M. (two visitors at a time).
2. For semi-private and ward-private patients, from 2:00 P.M. to 3:30 P.M., (two visitors) and from 7:00 P.M. to 8:00 P.M. (one visitor).
3. For service patients, 2:00 P.M. to 3:00 P.M. (two visitors) and from 7:00 P.M. to 7:30 P.M. (one visitor).

4. Visiting hours in the Children's Ward are from 2:00 to 3:00 P.M. on Wednesdays and Sundays only.

Patients on the "Danger List" are allowed two visitors at any time at the discretion of the physician.

Relatives may see the house physician daily at 3:00 P.M. by inquiring at the Information Desk.

Children are allowed to visit medical and surgical private room patients only.

Newborn babies may be seen by fathers and grandparents only, at 3:00 P.M. and 7:30 P.M., through nursery windows only.

All visitors, including husbands, are excluded from patients' rooms while babies are present. Visitors are never allowed to touch the bassinet or to hold the baby.

Children under sixteen should not visit patients on the maternity floor, and at those periods when contagious diseases are prevalent in the community, children's visits are restricted on account of the marked susceptibility of newborn infants.

CARE OF VALUABLES

The hospital maintains a safe for valuables. Patients are requested to turn over to the Admitting Office all monies and valuable articles. These will be receipted for and returned to the patient when discharged. The hospital cannot be responsible unless this is done.

CHARGES

Medical and Surgical Beds

Private rooms: \$5.00, \$6.00 and \$7.00 per day. (\$1.00 extra for out-of-town patients.)

Semi-Private: \$4.00 per day; \$.50 per day extra for out-of-city patients (2, 3, 4-bed accommodations).

Ward-Private: \$3.50 per day; \$.50 per day extra for out-of-city patients (6,7,8-bed accommodations).

Service rates: \$3.00 per day.

Operating Room Charges

Minor—\$5.00; Major—\$10.00.

T. & A.—\$10.00 for ward private (includes one day in private ward and operating room fee).

T. & A.—\$12.00 for private room patient (includes one day in private room and operating room fee).

There will be an extra charge of \$5.00 in each of the above, for anesthetist, if furnished by the hospital.

T. & A.—\$5.00 complete for service cases.

All T. & A. cases are admitted the afternoon before the morning of the operation.

Obstetrical Beds

Private Rooms: \$6.00, \$7.00 per day. (\$1.00 per day extra for out-of-city patients.)

Semi-Private: \$5.00 per day; \$.50 per day extra for out-of-city patients.

Ward-private: \$4.00 per day; \$1.00 per day extra for out-of-city patients.

Service rates: \$24.50 per week, and \$5.00 delivery room charge.

The delivery room charge is \$10.00 for all private patients. An extra charge will be made for prolonged use of anesthesia.

Caesarean operation charge is \$10.00 plus \$5.00 for anesthesia when furnished by the hospital anesthetist.

Obstetrical patients are booked ahead at definite room rates.

All the above rates include board, general nursing care and ordinary medicines. Extra charges are made for special medicines, oxygen, serum, blood transfusions, splints and crutches.

In transfusions, the patient or the relatives pay the professional donor directly.

The hospital reserves the right to move to the open ward a patient occupying a private or semi-private room who fails to pay his bill for hospital services within seventy-two hours of presentation of the bill.

X-RAY CHARGES

An extra charge will be made for X-rays as follows:—

\$10.00—Upper leg, head, chest, pelvis, spine, abdomen, all teeth.

\$ 5.00—Lower arm, lower leg, knee, either jaw, upper arm, shoulder.

\$20.00—Gastro-intestinal series.

\$10.00—Gall bladder series.

\$21.00—Gastro-intestinal and gall bladder taken at the same time.

\$ 5.00—Abdomen for pregnancy.

\$25.00—Genito-urinary examinations.

\$10.00—High voltage treatment.

\$ 5.00—Low voltage treatment.

\$ 9.00—Whooping cough treatment, series of three.

One-half charge will be made on all the above for repeat examinations.

PHYSIO-THERAPY TREATMENTS

\$1.00 for each form, not exceeding \$2.00 for more than two forms, for private patients.

The service rates are \$.50 for each form, not exceeding \$1.00 for more than two forms.

Fever therapy cabinet: \$20.00 (includes one day's hospitalization in private room and special nurse).

LABORATORY CHARGES

Routine urinalysis and blood count or differential—\$2.00.

Complete blood examination for in-and-out patients—\$4.00 (when ordered by the physician).

Examination of pathological specimen—\$5.00.

Special rates are made for separate tests or continued examinations. One-half charge is made on all the above for repeat examinations.

A flat rate of \$3.00 is made on all service patients for all necessary laboratory work.

There will be a charge of \$.50 for certificates of dates of illness and diagnosis; and a charge of \$1.00 per typewritten page of a hospital report.

SPECIAL SERVICES

1. Silent radios and radios with earphones only are allowed to be used in the hospital. They can be rented through the hospital at \$.30 per day. These are issued only with the permission of the attending physician. In the M&S Building, and on Rice-2, earphones may be obtained at the cost of \$1.00 per week.

2. Library service is rendered to all patients through the courtesy of the City Library.

3. Telephones are available in private rooms only. Telephone units may be rented at \$1.00 during the first week or portion of the week and \$.50 per week thereafter. Local calls are \$.10 for three minutes or portion thereof; toll calls are \$.10 service charge in addition to the toll rates. No telephone connection is made without the physician's consent.

4. Guests occupying a hospital room will be charged at the regular rates, including tray service. Guest trays delivered in private rooms must be ordered at least one-half hour before meal time. The charge is \$1.50.

NURSES' ALUMNAE SHOPPE

Is located in the basement of the Administration Building where magazines, cards, patients' articles may be obtained and where light lunches are served daily from 9:00 A.M. to 8 P.M.

SPECIAL NURSES

The hospital charges \$.50 per shift for the board of special nurses which goes on the hospital bill. Special nurses are paid directly by the patients or relatives, and not by the hospital.

PARKING

All visitors are requested to observe the parking rules on the hospital grounds.

GRATUITIES

Employees of the hospital are forbidden to accept gratuities.

CRITICISMS

It is earnestly requested that any complaint or suggestion for improvement of service be made immediately or in writing to the office of the Superintendent.

REPORT OF THE PUBLIC WELFARE DEPARTMENT

February 13, 1941.

HON. THOMAS S. BURGIN, *Mayor of the City of Quincy*:

The Department of Public Welfare respectfully submits the following report for the year ending December 31, 1940:

General Relief

Industrial conditions continued to improve materially in 1940, thereby establishing good economic conditions in this city. This, in addition to rigid investigation of each case, resulted in decreased general welfare expenditures of \$40,000 less than in 1939, and about 47% less than in 1938. At the end of 1940 there were 388 cases on general welfare, including 33 at our City Infirmary. Practically all these cases are ineligible for employment on W.P.A.; unemployables because of sickness, or women of, or past, middle age, for whom it seems difficult to find employment.

This department has continued to be the Referral Agent for W.P.A. applications, referring those found to be eligible to the District Office of W.P.A. for certification. Approximately fifteen hundred persons were interviewed and one thousand applications taken, of which eight hundred and seventy-six were referred for certification. Two thousand citizenship affidavits, which are required for W.P.A., were sworn to and notarized at this office. Effective June 17, 1940 the administration of W.P.A. was set up into districts. The District Office covering Quincy was established in Brockton, which made it rather difficult for Quincy persons to contact the Labor Adjustors. Consequently, this department has acted as liaison agent between Quincy W.P.A. workers and the Brockton District Office. About four hundred persons who had left W.P.A. throughout the year for private employment, or due to illness, were re-employed in W.P.A. by this office, working with the W.P.A. Labor Adjusting Office. Through a ruling of W.P.A., all certifications remain active for a period of ninety days, and if the person is unassigned at the end of that period and is still unemployed, we make a request in writing to have it continued for another ninety days.

The eighteen-months ruling is still in effect, resulting in many W.P.A. workers being transferred to the Welfare rolls for several weeks pending re-assignment on W.P.A. About 950 persons are now employed on W.P.A. in Quincy, including Quincy, Federal and Statewide projects, as compared with approximately 1500 persons a year ago. This department still continued to act as Selecting Agent for C.C.C. There were 166 boys sent to camps from Quincy during the past year. Certification for Surplus Commodities, Clothing and Milk is still done by this department. There are about 2500 cases receiving Surplus Commodities in Quincy at the present time. This department is also assisting in every way possible, in the National Defense Program and Selective Service Act.

Through an arrangement which is in effect in general, this department makes investigations of potential draftees at the request of the local Draft Board.

During the early part of the year, the Civil Service ruled that Work Relief employees in the Welfare Department must terminate their employment, resulting in this department's having to release about seventeen persons; four replacements have been made.

Several surveys have been made by officials of the United States Housing Authority to determine the feasibility of erecting a housing project in this city. We understand that the Federal officials are now contemplating, however, utilizing exclusively, one of the near-by projects, in the event of a shortage of homes in Quincy.

Under the direction of our Chief Executive, this department compiled reports and assisted, in general, to formulate plans whereby the Food Stamp Plan may become effective in Quincy in 1941. The Stamp Plan was recommended by the Quincy City Council and the Quincy Chamber of Commerce, and was studied and approved by the Mayor. Those families eligible to participate in the Plan shall receive about fifty percent more food for the same amount of money than could be purchased previously, and shall result in increasing considerably the business of the food stores in this city.

City Infirmary

During the year, Mr. William Taylor resigned as Superintendent of the Infirmary, and was succeeded by Mr. William Walsh, who assumed his duties on July 1st. The infirmary is equipped at the present time to accommodate about forty persons. However, in the case of any emergency, there is ample room to provide facilities for a great many more. With the completion of many repairs and alterations, we now believe that the Infirmary is in good shape.

Clinic and Dispensary

The clinic and dispensary are operated from offices on the first floor of the Welfare Department building. The clinic is open twice weekly with our city physicians in attendance, and upon prescription, our dispensary furnishes medicine and medical supplies. During 1940, 153 clinics were held, and 1368 patients treated.

Old Age Assistance

Various changes have occurred during the past year in the administration of the Old Age Assistance. The Social Security Board is co-operating with the local Bureau of Old Age Assistance in furnishing necessary data on grants of Social Security and Survivors' Insurance allowed to cases wherein an adjusted amount of aid under Old Age Assistance is to be granted; this new clearance procedure is an additional check on the expenditures of Old Age Assistance. Another change is a budgetary guide from the State Department which is of much value to our Visitors in determining the amount of aid necessary for the individual case. In October, 1940, Rule 11 was amended making revisits to be semi-annual, (or more frequently when circumstances warrant it), instead of the former quarterly visits. The question of eligibility was clarified in the case of discharge from both penal and mental institutions. One year must have elapsed before an applicant can be eligible to receive an Old Age Assistance grant.

The method of accounting has been greatly simplified during the past year also. Billing annually has been eliminated. Copies of all payrolls must be forwarded to the State Department of Accounts after each payroll is released by the City Treasurer, and from this payroll all grants are figured. The Old Age Assistance has a case load of 1104 and we feel that a gradual increase will be in order during the present year.

Aid to Dependent Children

In 1940 there was a net increase of eighteen Aid to Dependent Children cases, but we were able to close a larger number of cases because of the rise in general employment, particularly at Fore River. The cumulative effects of the changes in the Social Security Act in 1939 are becoming more evident in the steadily increasing number of applications for this type of aid, reaching a total of fifty-nine in the past year. Survivor's Benefits, which became effective in January, 1940, under the Social Security Act, have made no appreciable difference as yet.

The receipt of one-half instead of one-third of the Federal allowance of \$18.00 per month for the first child, and \$12.00 per month for each of the other children eligible in each case, has considerably reduced the cost of Aid to Dependent Children in Quincy in 1940, but the greater number of applications received towards the close of the year seems to indicate a proportionately larger case load for 1941. On December 31, 1940 there were one hundred and fifty-eight cases on Aid to Dependent Children.

We again wish to express our appreciation of the continued co-operation manifested during the past year by the various departments and organizations throughout the community.

For the details of expenditures, reference is made to report of the Auditor of accounts.

Respectfully submitted,

ANTHONY J. VENNA

Commissioner of Public Welfare.

Autos recovered, value	\$4575.00
Stolen property recovered, value	\$6127.62

CONCLUSION

To persons not familiar with the growing increase of automobile traffic into and through our city, particularly in Ward 2, I recommend that a Captain be added to the ranks and he to be responsible for the traffic enforcement, auto bureau and traffic squad of not less than 12 officers to work under his direction, both in the Auto Bureau and on the street.

To persons not familiar with Police Department duties, there is little chance for them to pass fair judgment as to the justification of our claim for additional officers. I can only urge the necessity of the men, believing that the last half detail should be of the same numerical strength as the first half.

I believe that the life of any automobile in the Police Department used continually as Radio cars is one year and recommend the replacement of five autos used in that line of work.

I recommend that the Police Department be provided with a power boat, equipped with a pump suitable for fire purposes in the event of boat and waterfront fires, which is badly needed and which would be used as a preventative measure against the theft of small boats and the protection of thousands of dollars worth of taxable property afloat in the tidal waters of our city.

In conclusion, I wish to thank Mayor Burgin, the City Council, the heads of the various City Departments for their assistance given me. I am also grateful to the District Attorney and the members of his staff, to the Justices of the Court, the Probation Officer and members of his staff, to the Clerk of the Court and his office staff for their consideration and advice.

To all members of the Department who have worked to reach and maintain a high standard of efficiency, I am sincerely thankful and to assure my appreciation that our best efforts to merit their confidence in the future will be given.

Respectfully submitted,

JOHN J. AVERY
Chief of Police

REPORT OF FIRE DEPARTMENT

February 21, 1941.

HONORABLE THOMAS S. BURGIN, *Mayor*
City of Quincy

Quincy, Massachusetts

Dear Sir:

Following is the annual report of the operations of the Fire Department for the year ending December 31, 1940.

Miscellaneous	143
False Alarms	41
Total	1256

Cash received from sale of old tires, fireworks permits, recharging extinguishers, alcohol permits and sale of old junk.

Paid to City Treasurer \$132.30
February 21, 1941

The fire loss for the year showed an increase of \$160,241 over 1939. Two fires, one in January and the other in December, totalled more than \$95,000 and were directly responsible for the unusual loss which is a record high for the city.

The number of alarms for the year showed a decrease of 342 under 1939. The number of grass and brush fires were materially reduced during 1940 because of the late spring and this was the direct cause of the lower amount of alarms for the year. False alarms were reduced from 82 to 41 in 1940, a decrease of 50%; much credit for this reduction is due to the excellent co-operation received from the Veterans Organizations throughout the city who voluntarily guarded the boxes on Halloween.

On January 23rd, the new 100 foot Seagrave Hydro-Aerial ladder was placed in service as Ladder 1 which in turn was placed in service in West Quincy as Ladder 3.

Departmental drills were intensified during the spring and fall months and the entire personell were given at least weekly drills on the drill tower at Headquarters.

Every member of the department was examined physically by Dr. George M. Sheahan, the department doctor. Dr. Sheahan also visits the different members who report out for sick or injured leave. I believe this checkup has materially cut the number of one-day sick leaves.

A new Buick Chief's car was purchased and placed in service to replace a 1938 car which had covered more than 84,000 miles.

The following members of the department were retired during the year for disability: Privates Bersani, Lahey and Decelle; Private McDonald was retired on November 20th upon attaining the age of 70 years. Each man had rendered excellent years of service to the department and have our best wishes for health and happiness.

At his own request Captain Paul Avery was reduced to the rank of Lieutenant and assigned to Fire Headquarters as the personal secretary to the Chief of Department. Lieutenant Thomas F. Maloney was promoted to the rank of Captain and assigned to Wollaston to replace Captain Avery. This change of rank was entirely voluntary on the part of Captain Avery because of physical disability incurred after 25 years of meritorious fire fighting service.

Recommendations

I wish to make the following recommendations and urge that they be adopted as soon as possible.

1. That a new station be erected to replace Houghs Neck Station. The present structure is more than 40 years old, is a wooden structure built for horse drawn apparatus and is totally inadequate for modern equipment.

2. That a replacement program be instituted for apparatus ten years or more in age. One engine or ladder could be replaced annually until the program was completed. The present equipment is becoming antiquated and too costly to maintain.

3. That a rescue company with ten new men be placed in service to respond to all bell alarms in the city. I have placed money in the budget for the chassis to be used and for the salaries of the men. With the increased housing and industrial expansion particularly of Fore River, the need of a specially trained crew is imperative.

4. That a mechanic be appointed to maintain the apparatus in perfect condition. Under the present system a mechanic is called only when repairs are necessary; with a mechanic on hand at all times his duties would be to keep the apparatus in perfect running condition at all times.

5. That the hours of duty for the members of the department be reduced. The Fire Department has had no improvement in working conditions since the two platoons was adopted in 1920.

In conclusion, I wish to express my sincere thanks to His Honor the Mayor, the City Council, the various city departments, and to the officers and members of the department.

I will also take this opportunity to thank the members of the department who remained on 24-hour duty during the blizzard and heavy snow storm of February 14th.

Respectfully submitted,

WILLIAM J. SANDS

Chief of Department

FIRE AND POLICE SIGNAL DEPARTMENT REPORT

January 1, 1941.

HONORABLE THOMAS S. BURGIN, *Mayor*
City of Quincy
Quincy, Massachusetts

My dear Mayor:—

I respectfully submit the annual report of the Fire and Police Signal Department for the year ending December 31, 1940.

Personnel of Department

Thomas J. Smith, Superintendent

Maintenance

George N. Leonard
Richard Williams

George B. Howie
Patrick H. Reddington

I regret to report the death of Patrick H. Reddington on December 8, 1940.

Fire Alarm

Nineteen miles of new construction and numerous poles in throughout the city were transferred during the past year with nine new boxes added to the system which is already overloaded. All parts of the system were tested at frequent intervals to insure reception of alarms of fire with a maximum of accuracy.

Police Signals

The signal system was maintained in first class condition throughout the year at a minimum of expense, numerous box locations were changed to add to the ease in route changes for officers and two new boxes were added to the system.

Traffic Signals

All intersections were carefully checked and all controllers were periodically overhauled to insure the proper timing. Many pieces of this delicate equipment must be renewed this year coming as constant usage continually wears out vital parts.

Very truly yours,

Thomas J. Smith
Superintendent

REPORT OF INSPECTOR OF BUILDINGS

January 2, 1941

HON. THOMAS S. BURGIN, *Mayor of the City of Quincy*

Dear Sir:

Statement

Cash received each month for permits issued from January 1, 1940 to December 31, 1940 and paid to the City Treasurer is as follows:

January	\$ 45.50
February	80.50
March	139.50
April	217.00
May	409.50
June	197.00
July	236.50
August	173.00
September	328.05
October	220.00
November	339.50
December	127.00
	\$ 2,513.05

There were 435 family units provided for the year nineteen hundred and forty, an increase of 204 over the previous year.

The largest individual projects were Northern Corporation, Station WMEX \$30,600.; Noyes Buick, Garage \$50,000.00; White Brothers, Garage \$35,000.00; Our Lady of Good Council Church \$42,000.00; Saint Ann's Church, Superstructure \$60,000.00; President Arms Apartment \$110,000.00; New England Telephone and Telegraph Company, Exchange \$150,000.00; Boston Sand and Gravel Company, Temporary Building \$25,000.00 and Bethlehem Steel Company, No. 6 Warehouse \$75,000.00, Mold Loft \$70,000.00, Q Department Building \$50,000.00, Mold Loft and Office \$45,000.00 and Mold Storage \$38,000.00.

There were four new elevator licenses granted and three renewals.

During the month of April all fire appliances were tested as required in Section 48, Chapter 143 of the General Laws.

Respectfully submitted,

ALRICK A. WEIDMAN
Inspector of Buildings

REPORT OF INSPECTOR OF WIRES

January 2, 1941

HONORABLE THOMAS S. BURGIN

Mayor of Quincy

Quincy, Massachusetts

Dear Sir:

I respectfully submit my annual report as Inspector of Wires for the year ending December 31, 1940.

Inspection in Buildings

The following specified schedule of electrical inspections made of lights and other appliances installed.

Number of permits issued in 1940	1,785
Fees received for the above	\$1,734.56
Number of electricians doing work in 1940	995
Defects noted on installations	413
Number of unfinished installations	30
Number old old installations reinspected	169
Reinspections made after fires	92
Total inspections made during the year	3,189
Permits issued to the Quincy Electric Light and Power Company to install service and electrical appliances	653
Refrigerators wired for permanent wiring	11
Electric ranges wired for permanent wiring	136
Number of light wired for permanent wiring	9,589
Oil burners wired for permanent wiring	376
Signs wired for permanent wiring	197
Motors wired for permanent wiring	250
Total horse power of the above motors	746½

Sealer of Weights and Measures

REPORT OF ENGINEERING DEPARTMENT

January 2, 1941

Dear Sir:

I herewith respectfully submit the forty-second annual report of the Engineering Department for the year ending December 31, 1940.

Never before in the history of our Nation has there been such a world-wide crisis that affects so vitally the communities of which we are a part. The urgent need for National defense work has increased the work of this department tenfold. For every proposed defense measure in the City of Quincy, numerous plans must be made. It would be impossible to itemize each project or request as the work done in this department during the year was so varied. I am therefore giving a brief review of the more important requests.

City Council

As in the past, the City Council has called upon the Engineer to furnish all plans for acceptance of streets and widenings, land takings, sewers and drains, and hearings of various kinds.

The City Engineer attended the meetings of the City Council and the Finance Committee and he furnished, when requested, information and advice on projects submitted by them.

City Clerk

The City Clerk was furnished with all plans for the acceptance of streets and land takings, which were recorded by him with the Council Orders in the Norfolk Registry of Deeds. All reports of accidents received by the City Clerk were investigated and surveys made when necessary.

City Solicitor

Deeds and releases of land taken by the City and easements for sewers and storm drains were furnished to the City Solicitor.

The City Engineer was frequently called upon to appear in Court to testify in his capacity when action was brought against the City.

Assessors

During 1940 there were 2,084 transfers of property as against 2,120 transfers for 1939.

As the Assessors plans must be kept up to date, it requires the services of one man for the entire year, with additional help when this work is at its peak. The plans show the various parcels of land in the City, the owners' names, buildings, areas and plot numbers, and every year changes must be made to show transfers and new buildings.

Tax Collector

Descriptions of 5,475 parcels of land to be sold for unpaid taxes were furnished to the Tax Collector.

Of the requests received by the Tax Collector from attorneys and individuals regarding information on betterments and liens, 732 were referred to and filled by this department.

Building Department

During the year, 332 applications for permits to build or move buildings were referred to this department. The City Engineer visited each site and established a grade which would conform with the available utilities and surrounding properties.

Park Department

The usual requests were received from this department. The engineering department staked out baseball diamonds, football fields, etc. A detailed account of the improvements to the park system are fully outlined in the W.P.A. report.

Sewers

The engineering department supplied plans, lines and grades and progress estimates for the sewers constructed. During 1940, 1.78+ miles of sewers were laid.

For itemized list of sewers constructed in 1940, see attached schedule.

Surface Drains

The continuation of a W.P.A. project to straighten and widen the Furnace Brook was carried on and will continue through 1941. The widening and walling of the Town Brook was completed during the year. The W.P.A. report outlines this work in more detail.

During the year, the usual work was done in bringing the old drain plans up to date and making new tracings.

Accepted Streets

The City Council accepted a number of streets during the year. However, the acceptance of these streets does not necessarily mean that they were constructed the same year.

See attached schedule for streets accepted and accepted streets constructed.

Streets Rebuilt

The street rebuilding program was well apportioned over the various sections of the City. The amount available for this work was \$265,308.67 which was divided as follows: Street Loans, \$225,000.-00; Budget, \$32,000.00; Chapter 90, \$1,489.16; Balance—1939, \$6,819.-51. Of this amount \$262,770.78 was expended.

When requests were received from the Commissioner of Public Works, lines and grades were given and other engineering work was done to carry this work out in an efficient manner.

See schedule for streets rebuilt.

Curbing

The W.P.A. curbing project continued to operate from the Quincy Quarry at a very good advantage to the City. The W.P.A. placed granite curbing on many of the main thoroughfares and improved many of the residential streets with concrete curbing. The City of Quincy, under the street rebuilding program, placed considerable granite curbing which was bought under contract.

For location of granite and concrete curbing placed, see attached schedule.

Granolithic Sidewalks

For the ninth consecutive year, there was no appropriation for this type of work. However, under a W.P.A. sidewalk project, considerable granolithic sidewalks were built on streets where the abutters paid for the cement necessary to do this work.

For itemized locations, see attached schedule.

Amiesite Sidewalks

The majority of this type of sidewalk were built by the W.P.A., and many were built in conjunction with the street rebuilding program.

See attached schedule for itemized list of locations.

Conclusion

In closing, may I take this opportunity to express my appreciation for the co-operation I have received from His Honor the Mayor, members of the City Council, department heads and those connected with the Works Projects Administration. Also for the co-operation and loyalty shown and extended to me by the personnel of the engineering department.

Respectfully submitted,

GERHARD F. SCHAFER,
City Engineer.

REPORT OF WORKS PROJECTS ADMINISTRATION

January 2, 1941.

MR. GERHARD F. SCHAFER, *City Engineer*

Sponsor's Agent

Works Projects Administration

Quincy, Massachusetts

Dear Mr. Schafer:

I am submitting a report of the W.P.A. activities for the year 1940.

I wish to express my appreciation for the co-operation shown by His Honor, Mayor Thomas S. Burgin, yourself and all the Department Heads and their personnel, in carrying out the aims and objectives of the projects sponsored by the City with W.P.A. assistance.

Federal assistance on W.P.A. projects located in Quincy in 1940 amounted to \$848,702.09. These projects have left many tangible assets in our community.

I will not attempt to give a detailed description of the various projects but will briefly touch upon the highlights of each.

Parks and Playgrounds

Bishop Park—This park, formerly known as the Montclair Playground, was dedicated by His Honor the Mayor on May 26, 1940 to the memory of our last living Civil War Veteran, Frederick Bishop of Quincy. The project included filling, draining, grading and loaming a sub-marginal location. The development of the playground comprised of the building of a baseball field, backstop, bleachers, tennis court, and a skating rink 90' x 120', with a chain link fence surrounding the entire playground.

LaBrecque Playground—This Houghs Neck playground is practically completed. It includes two tennis courts, relocated baseball field, two sets of bleachers and a new backstop. The entire right field was filled, regraded and loamed.

Kincaide Park—Kincaide Park in South Quincy has been completely transformed and rehabilitated with the elimination of the Quincy Granite Polishing Works and foundations adjacent to Water Street. Named for the Honorable Henry L. Kincaide, the Ward Three playground has been converted into one of our most commendable park additions.

The field has been raised an average of 10 inches, loamed and seeded and 1,863 feet of drain laid including a network of blind drains under the entire playing field which should keep the field in A-1 condition at all times. The baseball field has been relocated and now has a playing area of 300' to right field, 450'

to center field and 350' to left field from home plate. A new first base bleacher was constructed and the third base bleacher completely rehabilitated. The juvenile play area behind the backstop has been graded, loamed and seeded, and two parking areas were constructed, one facing Roberts Street and the other at the Gilbert Street entrance.

A beautiful, ornamental seam-face granite wall has been constructed along the playground on the Water Street side. Local granite was used entirely on the Kincaide Park wall and it should be interesting to Quincy citizens to notice the variety of stone that is available from Quincy quarries. The wall is 350 linear feet long, 36 inches high and 20 inches wide, constructed of ashlar blocks of seam-face granite cut to dimension 6" 8" 12" and capped with granite coping, the six ashlar block piers are topped with pyramid granite capstones.

Perkins Playground—The rehabilitation of this playground has been a long felt necessity in this section. The entire field was raised approximately two feet. Adequate drainage was laid to take care of surface water. The field has a network of blind drains which should take care of underground water and keep the field in good condition. The area of this field was not large enough for a regulation baseball diamond; therefore a softball field, one of the first projects involving softball field dimensions, has been constructed. A combination skating rink and three tennis courts 185' by 120' were constructed with concrete side walls, amiesite surface and enclosed with a 10' chain link fence. The children's play area was relocated on the high ground on the Agawam side of the playground. The part of the playground along Agawam Road has a two-faced wall of random ashlar granite with concrete cap. A thumb curb was constructed on both sides of the main driveway in front of the school. The project is about 85% completed.

Nursery—This project is located in West Quincy along the Furnace Brook Parkway. It includes the reclaiming of about seven acres of sub-marginal land, cleaning and walling Furnace Brook, removing trees and stumps, preparing soil for the planting of trees, shrubs, seedlings and sod beds for the Park Department.

Furnace Brook Skating Area—The hockey and skating rinks have been completed as to grading and loaming and will be seeded in the spring. They have already proved to be a valuable addition to our park facilities for winter sports.

Faxon Park—A water line was installed from Phipps Street to various sections of the park.

Streets and Sidewalks

This W.P.A. project is considered by the Federal Government and the Quincy sponsors as one of our most important objectives and was carried on very successfully through 1940. The following schedule shows the various items constructed under this project:

Amiesite Sidewalk Constructed	30,065 L.F.
Concrete Curb Installed	15,323 L.F. 374 Block Corners
Granite Curb Installed	32,625 L.F. 755 Block Corners
Granolithic Sidewalks Constructed	5,006 L.F.
Streets Constructed	10,852 L.F.

The City Engineer's report carries a schedule showing where the above curbing, streets and sidewalks were constructed.

Brooks

Town Brook—The section of Town Brook from Hancock Street to a point about 421 feet east of Washington Street was widened, straightened and walled and a re-enforced concrete culvert was constructed under Bigelow Street. This project has been one of the most important in Quincy and the sections of the brook not already taken care of should be given immediate attention.

Furnace Brook—Tremendous progress has been shown in the cleaning, excavating, widening and construction of granite walls and concrete cover on the Furnace Brook. The brook between Crescent and Cross Streets has been confined with a granite wall and concrete cover, eliminating the dangerous hazards of and open brook. 2,231 tons of processed granite has already been used to construct 1,958 cubic yards of retaining walls on the brook.

Schools

Adams School—The size of the play area at the Adams School was greatly increased with the removal of over 460 cubic yards of ledge. The general appearance of the school grounds was greatly improved by the construction of 900' of random ashlar wall with concrete capping and the construction of steps and ramps from Madison Avenue to the play area in the rear of the school.

Atherton Hough School—In this school, new ceilings were built in eight classrooms and two corridors, new electrical fixtures were installed, the exterior of the building waterproofed, roof repaired and new copper flashing installed where necessary. The main entrance platform and steps were repaired.

John Hancock School—The grounds were landscaped and the play yard graded and surfaced with bituminous concrete.

Quincy School—This project included the painting and plastering of various classrooms and corridors, roof repairs and electrical work.

Squantum School—The entire building was painted and plastered, the necessary electrical work done and the roof was re-shingled.

Daniel Webster School—This project was started in November, 1940, and will include the complete renovation of the school.

Cranch School—11,000 feet of new flooring was laid in the various classrooms.

Portable School—This building was formerly located at the Central Junior High School. It was taken down in sections and re-constructed on concrete foundations at the Water Works yard on Penn Street to make it a permanent building.

Miscellaneous

Quincy City Hospital—The general improvements to the hospital included the excavation of the Hunting Building basement area which provides six additional rooms. The second floor of the Rice building was reconstructed so as to provide ten additional rooms with necessary equipment for private patients. A new fire alarm system was installed, all buildings were waterproofed and the exterior painted. Walks and roadways were constructed and the hospital grounds were landscaped. Work was started late in the fall to enclose the two porches on the M & S Building and one on the Hunting Building.

Tree Rehabilitation—This project aided in the restoration of arboreal beauty by repairing 2,278 trees with bracing and necessary surgery work, also the removal of 61 trees and 62 stumps and the disposal of 1,479 truckloads of brush from public property.

Granite Quarry—This project has produced material for many W.P.A. projects that have been of tremendous and lasting value to the City. It is doubtful if the craft of stone-cutter could continue in this city if we did not have this type of Federal assistance and local sponsorship.

Production of Quarry Project in 1940

Item	Quantity	Unit
Regular Curbing	29134'4"	Foot
Thorat Stones	55	Each
Square Wall Stones	2753	Ton
Rough Stone	971	Ton
Curb Corners	880	Each
Radius Curbing	1813'1"	Foot
Wall Coping	406'4"	Foot
Pier Caps	6	Each
Ashlar Blocks	2659'0"	Foot
Bases	56	Each
Stone Bounds	50	Each

Blue Hill Bridle Paths— Co-operating with the Metropolitan District Commission, this Quincy project is improving roads, walks and bridle paths in that part of the Blue Hill Reservation which is located within the Quincy boundary lines.

White Collar Projects

Bookmending Project—This project operates at the Thomas Crane Public Library to clean, mend, rebind and recase books of value that might have been discarded.

Building Department Records Plan—Through this project, the City is provided with plans of city-owned buildings for which there were no records available.

District Court Records—A uniform card system of old civil and criminal cases is being established by this project.

Engineering Control Survey—The work done by this project includes the establishing of triangulation stations, running traverse lines and levels and is considered of important value to the Federal Government, particularly in regard to the states along the sea coast.

Police Fingerprint Project—This project has been installed to give the Police Department a card system of case histories, criminal records and photographic fingerprints.

Sewing Project—The sewing project has more than proved its worth to the community in producing household and clothing articles which are distributed among needy families recommended by welfare and social agencies throughout the city. 33,125 units of clothing were made on this project in 1940.

Toy and Furniture Repair—This project provides for the repairing of discarded furniture and toys which, when they have been completely re-conditioned, are distributed to needy families.

Library Card File—Project to prepare a new card catalogue of all non-fiction and reference books for use in the new library building.

Library Picture Collection—Selected educational pictures are being mounted and will be of great value for circulation and reference purposes.

Cleaning Public Buildings—This project provides for the thorough cleaning of walls, woodwork and furniture in all schools and other public buildings.

Household Aid—Needy families throughout the city have been greatly aided through this project. There were 3,942 visits in 1940 to provide household assistance to families where sickness and other physical handicaps prevailed.

Veterans Graves Record—The objective of this project is to prepare maps of all the burial grounds in the city showing the locations of all Veterans' graves, and also a card record of all deceased Veterans.

Recreation Project—A personnel of 40 has conducted this project in 28 locations in all sections of the city. Instruction is given in baseball, basketball, softball, boxing, gym classes, boys' clubs, play periods, ballroom dancing, tapdancing, drama, pottery, knitting, dressmaking, woodworking, navigation, hobby clubs, bridge and metal craft. Total participants and spectators in all activities for 1940 was 222,070. The W.P.A. Recreation Project is conducted in co-operation with the Quincy Park Board.

Survey of Street and Sidewalk Surfaces—The location and physical characteristics of the streets and sidewalk surfaces, curbs and catch basins existing on the streets in the City of Quincy are being made into a permanent record.

National Defense Project—This project has been in operation since July 16, 1940 under the sponsorship of the Quincy Defense Council. The men selected from the certified W.P.A. workers are paid their regular W.P.A. wages for 480 hours while attending this refresher course in the various skills involved in production for National Defense. The course is conducted at the Quincy Trade School under supervision of the Massachusetts State Board of Education and the W.P.A. Defense Division. The total number of men enrolled to date is 243. The average number of men receiving private employment after taking the course has been approximately 40%.

Federal Surplus Commodities—The City of Quincy has received from this department in 1940—

Surplus Food	\$171,521.09
Clothing	31,405.70
Total	<u>\$202,926.79</u>

Distribution of Federal Food will be discontinued in 1941 as the City of Quincy has accepted the Federal Food Stamp system. However, the distribution of clothing will continue as usual.

National Youth Administration—The number of young men and women between 18-25 years of age employed on the N.Y.A. for the year was 203. The young women are employed in municipal offices, hospital service and on sewing projects while the young men are employed at the city garage and on outside park beautification projects. The total amount of the N.Y.A. payroll for 1940 was \$43,656.00.

Summary of W.P.A. Earnings of Quincy Residents and Number Employed on Local Projects for the Year 1940.

PATRICK J. DUGGAN

Quincy W.P.A. Co-ordinator

REPORT OF THE CITY PLANNING BOARD

January 2, 1941

HONORABLE THOMAS S. BURGIN

Mayor of the City of Quincy

Dear Sir:

We herewith submit the twenty-sixth annual report of the City Planning Board.

The members of this re-organized Board held their first meeting on May 3, 1940, in your office, at which time many things of vital importance to our City were discussed.

One of the first problems studied by the Board was the development of the Municipal Parking Area. After receiving a number of sketches and studies prepared by the City Engineer's office, one of the studies was selected and unanimously approved by the Board. Certain recommendations in connection with the proposed Parking Area have already been carried out and it is expected that construction on the main area will take place early in 1941.

The Board cannot recommend too strongly that Cliveden Street be accepted so that when the Parking Area is completed, it can be properly policed.

During the course of the Board's deliberation, the area in the vicinity of Fore River was discussed and recommendations made for its improvement. It is gratifying to know that one of the recommendations—mainly, the acceptance, widening and construction of Cleverly Court to a width of 55 feet, was carried out during the year.

The Board also recommends that East Howard Street be laid out to a minimum width of 55 feet and a maximum width of 60 feet. Plans are now under way and it is hoped that the City Council in the near future will adopt an order for the widening and constructing of East Howard Street.

The Board held a meeting with the Commissioner of Public Works, Commonwealth of Massachusetts, and the Chief Engineer of the State Planning Board to discuss with them the general traffic conditions in our City. The Board feels that something drastic must take place to handle the volume of traffic coming across the Neponset Bridge to relieve the present conditions on Hancock Street and Quincy Shore Boulevard.

It would be possible to construct a double-barrel highway along the present route of the Broad Meadows to the Southern Artery and thence to a point near Edison Park, then swing left along the Town River waterfront to Avalon Avenue and Dee Road to the Fore River traffic circle. This seems to be a drastic course to recommend but if it can be carried out at not too great an expense and without too much damage to property values along the route, it would do much to relieve the traffic conditions on Hancock Street and other main arteries.

We will continue to work in co-operation with the Commonwealth to devise some means to remedy this condition.

We have made some preliminary studies for the development of Foster Street and Cottage Street and the general conditions in that part of Quincy Square between Maple Street and Revere Road. We expect in the near future, to present to you certain recommendations for their improvement.

The Board feels that for public convenience a comfort station should be built somewhere in Quincy Square. At some future date, recommendations will be made to fulfill this urgent need.

Many other projects and problems in City Planning have been discussed and are too numerous to mention; therefore we have only touched on the highlights, and as other problems present themselves that need your action, they will be recommended to you.

May we take this opportunity to express our appreciation for the co-operation we have received from His Honor the Mayor, the City Engineer, City Solicitor, and others who have contributed their time and efforts so that the functioning of this Board can be of real benefit to the City.

Respectfully submitted,

WALTER A. SCHMITZ, *Chairman*

REPORT OF THE BOARD OF SURVEY

January 2, 1941

HONORABLE THOMAS S. BURGIN

Mayor of the City of Quincy

Dear Sir:

We herewith submit the twenty-fifth annual report of the Board of Survey.

During the year, hearings were held on the following petitions: Walter H. Sealund—development and laying out of a portion of the National Sailors Home property; William R. McNulty—approval and laying out of Theresa Road extension. The petitions were given tentative approval subject to proper execution of the necessary work as required by the Board.

The Board has under consideration, the holding of public hearings to eliminate duplication and similarity of names on the unaccepted streets in our city. They also recommend that the City Council take similar action on accepted streets.

Respectfully submitted,

LOUIS F. R. LANGELIER, *Chairman*

JOHN J. MANNING

SAM WOOD

GERHARD F. SCHAFER, *Clerk.*

REPORT OF THE HIGHWAY DIVISION

HONORABLE THOMAS S. BURGIN
Mayor of Quincy
 Quincy, Massachusetts

Dear Sir:

I respectfully submit the annual report of the Public Works Department for the year 1940.

Respectfully submitted,

EZEKIEL C. SARGENT
Commissioner of Public Works

HIGHWAY DIVISION

The appropriations for Highway Maintenance, with the expenditures, have been as follows:

	Appropriated	Expended	Balance
General Maintenance	\$256,268.27	\$250,221.87	\$ 6,046.40
Pensions	10,630.00	10,629.88	.12
Garage and Stables	7,900.00	7,867.17	32.83
Street Lighting	110,000.00	109,941.48	58.52
Miscellaneous Activities	27,500.00	27,499.09	.91
New Equipment	4,800.00	4,749.50	50.50

The General Maintenance appropriation has been expended as follows:

Street Cleaning	\$ 55,566.38
Tar Patching	25,559.89
Street Oiling	1,515.64
Snow Removal	106,250.25
Drains	13,679.46
Equipment Repairs	5,097.10
Tools	4,056.56
Street Repairs	2,890.20
Vacations	12,508.89
Sidewalks	1,857.43
Miscellaneous	19,529.51
Weymouth Back River Bridge	1,710.56
	<hr/>
	\$250,221.87

The greatest single expenditure was for snow removal, in large part due to the Snow Storm of February 14th, 1940, when a fall of about fourteen inches of snow accompanied by strong northeast winds made plowing during the night, all but impossible. The department was able to open all main highways in the early morning, but many of the side streets were closed for one or two days. This storm cost the city approximately \$70,000.00. The City Council authorized the purchase of a new Snow Ladder which was a great help in removing snow in Wollaston and Norfolk Downs. We are requesting the purchase of one more loader for this year.

Street cleaning has been done as usual with a crew in each district, while the business section has been cleaned with the Elgin Sweeper. The Council has been requested to provide for an additional sweeper this year.

The surface treatment of bituminous macadam streets is, in my opinion, very necessary, but the amount of money appropriated is not sufficient to do much of this work. We expect, this year, to allocate the sum of \$10,000.00 for this work.

Sidewalks have been repaired where necessary, but no new sidewalks have been built except on streets where the entire surface has been rebuilt. All other sidewalks have been constructed by the W.P.A. who have furnished and laid edgestone as shown in the report of the City Engineer.

STREET CONSTRUCTION AND REBUILDING

The sum of \$262,765.29 has been expended during the year for the construction of newly accepted streets; the rebuilding of thirty or more streets or portions of streets, together with the widening of Adams Street from Hancock Street to the Old Colony Railroad Bridge. On all streets rebuilt or widened, the entire street has been rebuilt between street lines, including the sidewalks where necessary. Edgestone has been laid either by the City or the W.P.A. where possible. The paving on that portion of Hancock Street between Dimmock Street and Saville Street has been covered with bituminous mixed material and this work, together with the widening of Adams Street, makes a marked improvement to the approach of Quincy Square from the north. A detail table of these improvements will be found in the report of the City Engineer.

STREET LIGHTING

On December 31st, there was a total of three thousand, six hundred and seventy-three street lights in service as follows:

100	Underground	1000	C.P. Lights on Twin Standards
18	Underground	600	C.P. Lights on Twin Standards
89	Underground	600	C.P. Lights on Special Standards
21	Underground	400	C.P. Lights on Single Standards
22	Underground	250	C.P. Lights on Poles
16	Overhead	1000	C.P. Lights
289	Overhead	600	C.P. Lights
147	Overhead	400	C.P. Lights
2318	Overhead	60	C.P. Lights

The expenditures for street lighting was \$106,045.52. The total expenditures including traffic lights and temporary lighting was \$109,991.48.

SANITARY DIVISION

The appropriations and expenditures were as follows:

	Appropriated	Expended	Balance
Salaries and Wages	\$117,500.00	\$114,878.54	\$ 2,621.46
Pensions	5,392.00	5,392.00	
Equipment Rental	13,000.00	12,116.91	883.09
Equipment Maintenance	9,500.00	9,166.96	333.04
New Equipment	725.00	724.46	.54
Care of Dumps	6,500.00	6,468.05	31.95

The department has been greatly handicapped this year through lack of proper equipment. Two of the Ash Trucks are beyond repair, and most of the others should be replaced with new trucks. An appropriation order is now before the City Council for the purchase of new equipment. There has been the sum of \$65,387.43, expended for the collection of Rubbish and \$52,720.99 for the collection of Garbage. The receipts from the sale of Garbage were \$6,615.00.

The disposal of Rubbish is a difficult problem. At present, there are three dumps in use, but as they are located in the southerly section of the City, long hauls are necessary and therefore expensive. His honor, Mayor Thomas S. Burgin, in his Inaugural Address, recommended the construction of an incinerator and I believe that this is needed and should be constructed this year.

The receipts for cleaning Cesspools this year were \$1,183.00, while the expenditures were \$1,992.78.

GARAGE AND STABLES

All city owned Cars are repaired, supplied with gasoline and oil, at the Municipal Garage. Bills are rendered monthly for such service.

The City Stable is used in the winter months to stable horses loaned to the City from November 15th to March 15th. The horses so loaned are used by the department for sidewalk plowing and any other work where they can be of service.

MISCELLANEOUS ACTIVITIES

The sum of \$27,500.00 was appropriated this year for Miscellaneous Activities, to which amount is charged the cost of activities not necessary to Highway General Maintenance. The sum of \$27,499.09 has been expended as follows:

Brooks	\$ 1,513.49
Bridges	370.03
Fences	1,385.72
Street and Traffic Signs	9,963.51
Highway Street Parks	7,249.56
Public Landing and Floats	723.66
Parking Area	116.13
Storm Damage	2,680.53
Miscellaneous	3,496.46

In addition to the above the City Council passed a special appropriation of \$10,000.00 for repairs along the water front caused by the extreme high tides and winds in the early Springtime.

The money was expended mostly in Houghs Neck, at Post Island, Sea Street and Edgewater Drive.

WARREN AVENUE FOOT BRIDGE

In the Spring of this year, the Warren Avenue Foot Bridge was condemnend and closed to travel. In September an appropriation of \$6,000 was passed for repairs on this bridge. The work was let by contract to R. R. Jacobucci, Inc., and completed.

The bridge is now in a satisfactory condition and should last with proper care, many years.

GYPSY MOTH AND FORESTRY

	Appropriated	Expended	Balance
Salaries and Wages	\$ 15,350.00	\$ 15,350.00	
Pensions	785.00	785.00	
Supplies and Expense	2,000.00	1,916.77	83.23
Equipment Maintenance	1,350.00	1,334.65	15.35

This department is required by Law to spray trees and destroy nests of Gypsy and Brown Tail Moths in the City.

This work has been done as usual. The department has maintained about seventy-eight Highway flower beds together with the traffic circle at the Fore River Bridge. All plants have been raised at the City Greenhouse. The sum of \$7,249.56 was expended for this work from the Miscellaneous Activities account.

Trees about the City have been trimmed or removed when necessary. Many trees have been planted this year, particularly on newly constructed streets.

All tree trimming for the Quincy Electric Light and Power Co., and New England Telephone and Telegraph Co. have been done at the company's expense.

MUNICIPAL BUILDINGS

	Appropriated	Expended	Balance
Salaries and Wages	\$ 7,758.32	\$ 7,687.82	\$ 70.50
Maintenance	22,003.33	21,136.92	866.41

Wages and salaries have been expended for Janitor service at City Hall, City Hall Annex and the Atlantic Community Building, also for the telephone operator at the City Hall switchboard.

The maintenance appropriation has been expended as follows:

City Hall and Annex	\$ 15,091.54
Six Fire Stations	3,790.97
Police Station	477.70
Infirmary	244.29
Welfare Building	748.78
Dispensary	62.40
Atlantic Community Building	721.24

ANNUAL REPORT OF THE SEWER DIVISION OF THE DEPARTMENT OF PUBLIC WORKS

January 2, 1941

MR. EZEKIEL C. SARGENT

*Commissioner of Public Works
Quincy, Massachusetts*

Dear Sir:

I respectfully submit the report of the Public Works Department, Sewer Division, for the year ending December 31, 1940:

For financial statement, see Auditor's report.

Construction

One and three-quarter miles of sanitary sewers and one and one-half miles of storm sewers were built during the year by this department. A tabulation descriptive of the sanitary sewers is included with this report; a tabulation descriptive of the storm sewers may be found in the report of the City Engineer.

There are several petitions for sanitary sewer extensions on file and will be taken care of during the year 1941.

The increase in the number of persons employed at the Fore River Plant of the Bethlehem Shipbuilding Corporation will seriously tax the capacity of the Quincy Point main line, and a relief sewer will have to be built very shortly to remedy this condition.

The problem of keeping the sanitary sewer lines in good condition and repair increases with the growth and age of the system. This year, aside from the scraping and cleaning of pipe lines, extensive repairs were made to the sewer in Sherman Street.

Particular Sewers

Three hundred twenty-eight connections were made to the common sewer to take care of three hundred thirty-two buildings located by wards as follows:

Ward 1.....	106	Ward 4.....	46
Ward 2.....	27	Ward 5.....	49
Ward 3.....	13	Ward 6.....	87

Total number of feet laid	15,904.00
Total cost	\$ 17,919.28
Average cost per connection	\$ 54.63
Average cost per foot	1.127
Average length per connection	48.49 ft.
Classification:	

Single Houses	268	Churches	1
Two-family Houses	10	Clubhouse	1
Three-family Houses	4	Garages and Filling Stations..	7
Four-family Houses	24	Post Office	1
Forty-eight Apartment	1	Radio Station	1
Business Buildings	13	Telephone Building	1

Respectfully submitted,

WALTER S. McKENZIE

General Foreman, Sewer Division

REPORT OF CEMETERY DIVISION

January 2, 1941

HONORABLE THOMAS S. BURGIN

*Mayor of Quincy
Quincy, Massachusetts*

Dear Sir:

The Commissioner of Public Works respectfully submits the following financial report of the Cemetery Department for the year ending December 31, 1940.

Receipts

Care of lots	\$ 1,543.00
Sale of lots	5,985.00
Interments	8,560.00
Foundations and Gradings	2,860.24
Perpetual Care	9,875.00
Perpetual Care Fund—Interest	9,008.93
Other Trust Funds—Interest	79.23
	<hr/>
	\$ 37,911.40

Expenditures

Clerk—Salary	\$ 800.00
Supplies and Expense	2,660.89
Equipment—Maintenance and Operation	861.77
Labor—Including Foreman	40,240.19
New Equipment	998.38
Sub-soil and Loam for New Land	1,497.92
	<hr/>
	\$ 47,059.15

In 1940 there were four hundred seventy-four interments and five removals.

A statement of the Perpetual Care and other Trust Funds investments will be found in the City Treasurer's report.

Very truly yours,

EZEKIEL C. SARGENT

Commissioner of Public Works

ECS-D

HARBOR MASTER'S REPORT

HON. THOMAS S. BURGIN
City Hall
Quincy, Mass.

Dear Sir:

The report of the Harbormaster of the City of Quincy for the year ending December 31, 1940, is herewith submitted:

Receipts by water for the year were as follows:

City Fuel Co.	21 Barges, 16,903 tons coal
Standard Oil Co.	28 Steamers 69,359,207 gals. oil
Quincy Lumber Co.	2 Schooners, 936,048 ft. lumber

The waters off the Fore River Plant were patrolled during the following launchings at the request of company officials:

March 9	S.S. Express
March 26	Destroyer Mayo
June 22	S.S. Exemplar
August 3	S.S. Exhibitor
September 21	S.S. Executor
November 16	S.S. Examiner

There were 225 yachts stored in the boat yards on Town River besides many others stored on Neponset River and elsewhere in the city.

Made 16 trips with power boat going to aid of yachts in distress, aground and capsized; picked up 2 row boats, both claimed.

Reported various beacons extinguished and buoys out of position.

Called Coast Guard several times through the winter while boat was hauled up.

Respectfully yours,

JAMES A. M. NASH
Harbor Master

REPORT OF CITY SOLICITOR

December 31, 1940.

HONORABLE THOMAS S. BURGIN, *Mayor*
City of Quincy
Quincy, Massachusetts

Dear Sir:

During the past year the City Solicitor has carried on the work of the Law Department of the city in accordance with the requirements of the statutes in relation thereto.

Respectfully submitted,

JOHN D. SMITH
City Solicitor

REPORT OF THE BOARD OF MANAGERS OF THE DEPARTMENT OF HISTORICAL PLACES

January 24, 1941.

HONORABLE THOMAS S. BURGIN

*Mayor, City of Quincy,
Massachusetts*

Dear Sir:

The Board of Managers of the Department of Historical Places herewith submits its first report:

As the Board has only been in existence about two months it has very little to report excepting progress. Some immediate and necessary repairs have been made at a cost relatively small.

We have, however, under consideration, plans and ideas for improvements in the land; renewals, replacements and restorations in the buildings, it being the intent and purpose of the Board to conserve two of the most historic houses in the nation, the birth-places of John Adams and John Quincy Adams as places of interest and inspiration; houses that should survive, for within their walls were born two Presidents of the United States.

For many years the Quincy Historical Society has been the custodian of the John Quincy Adams House and the Daughters of the Revolution custodian of the John Adams House. It is the intention of the Board to permit these two Societies to use and occupy the houses as in the past.

Respectfully submitted,

MAURICE SPILLANE, *Chairman*
HENRY ADAMS
LAWRENCE W. LYONS
HARRIET B. PIERCE
GRACE P. BONSALL, *Secretary*
Board of Managers

REPORT OF CITY CLERK

To HIS HONOR, *the Mayor of the City of Quincy*:

I have the honor to submit the fifty-second annual report of the department, being for the year ending December 31, 1940.

Receipts

Licenses:

Pool and billiards	\$ 645.00
Victuallers	862.00
Junk	260.00
Auctioneer	22.00
Hackney	29.00
Public Halls	115.00
Theatre—Annual	255.00
Theatre—Sunday	2,830.00
Motor Sales	1,180.00
Lord's Day	895.00
Gas and Renewals	3,485.00
Liquor	63,500.00
Cabaret	345.00
Clams	316.50
All Others	603.70

Permits:

Marriages	2,066.00
-----------------	----------

Miscellaneous:

Recording	2,453.41
All others	417.75

\$ 80,280.36

The above sum has been paid to the City Treasurer.

Number of marriage intentions issued in 1940	1018
Number of marriages recorded in 1940	1056
Number of births recorded in 1940	1401
Number of deaths recorded in 1940	815

The number of dogs licensed in 1940 was 2,254 males; 861 spayed; 297 females and 2 kennels, for which the sum of \$7,765.00 was collected. The sum of \$7,082.20 was paid to the City Treasurer for the use of the County and the sum of \$682.80 was paid to the City Treasurer for the use of the city. The sum of \$4,227.25 was collected for hunters' licenses. The fees amounting to \$484.50 were paid to the City Treasurer and the balance to the Commonwealth.

Annexed are the births, marriages and deaths recorded in Quincy in 1940 and the election returns.

HATTIEMAY THOMAS
Temporary City Clerk

REPORT OF THE PARK DEPARTMENT**Quincy, Massachusetts**

March 1, 1941

To the Honorable Mayor, THOMAS S. BURGIN

Dear Sir:

An account of the activities and accomplishments of the Quincy Park Department is herewith presented, constituting the fifty-second annual report since its inception.

It is nearly impossible to conceive what might have been the situation at present, with regard to Park services, improvements and finances, without the fine co-operation we received from your Honor and the City Council.

It is apparent to those familiar with the circumstances, that the varied improvements and the great extension of recreational services throughout the City, have been achieved during these troubled economic times, by that urge of all, to do his part to make our Park System the best.

There are transmitted herewith, reports of the Manager and Director of Parks and Playgrounds, Supervisor of W.P.A. Recreation Project and Playground Supervisor. Also reports of each Park or Playground area by Wards, and a summary of the activities carried on during the past year.

With respect to finances, it is gratifying to report that the budget was strictly adhered to and all plans of expenditures carried out with satisfying results and excellent progress was made.

In closing, the Board Members wish to take this opportunity to thank you for the privilege and honor of serving the City of Quincy. As members of the Park Board, may your faith in us react in accomplishments that will be a credit to your administration.

WILLIAM M. TRUSSELLE,

*Chairman.***WARD I****Alfred N. LaBrecque Park**

After a year of sports inactivity, owing to a reconstruction W.P.A. Project, this field was completed, bleachers and backstop erected, baseball field regraded and a double tennis court completed. All are now ready to serve this district during the busy summer months. All playground activities were carried on as usual this past year, with an interesting program conducted by two instructors. There was a fine attendance each day. A field house and comfort station is badly needed on this playground.

Manet Lake

The grass and rubbish have been cleaned out here and the area flooded for skating. A hockey rink was erected and lighted for night skating and hockey. Twenty skating days were recorded.

William Cushing Baker Park

This Park was graded and seeded down. It contains a popular bathing beach and has one instructor during the playground season.

Sea Street Skating Pond

This area was flooded for skating and was well attended by the small children of the district.

Perkins Playground

With the exception of a playground program, all activity was curtailed during the past year. Under a W.P.A. Project, the entire field was regraded and a regulation softball diamond put in. Two sets of bleachers, a backstop and three tennis courts were erected. Playground apparatus was moved to a more suitable place apart from the playing field. The tennis courts were enclosed with a chain link fence and lights were installed for hockey, serving as a rink in the winter season. A seamface granite wall was built along Agawam Road with a chain link fence along the north property line. Trees and shrubs were planted for general beautification. Early spring will see the completion of the project, and will give this community one of the finest recreation centers in the city. Two playgrounds instructors conducted the regular program the past summer and attendance was good.

Adams Shore Playground

This is a popular play area, fully equipped. Two instructors are in attendance during the season.

Faxon Field

This field is in constant use for football, soccer, softball, High School football practice, and out-door gym activities for the High School. We recommend that a skating rink be provided on the Coddington Street side next winter.

Faxon Tennis Courts

These tennis courts are in use during the season and are very popular among the better tennis players. The City Tennis Tournament was conducted here for cups offered by Mr. Henry M. Faxon. William Bowyer was Supervisor.

Cranch School

A well-equipped playground is provided here, with a full program during the season under the supervision of two instructors. It is a safe and popular place for small children to play.

WARD 2

Fore River Club House

This club house is one of the community buildings of the city and is under the supervision of the Park Board. It was used a great deal during the past year for a W.P.A. Center and local activities, as well as for dances, whist parties, banquets, weddings, and socials. Dressing rooms are provided for baseball and soccer players who use Fore River Field. A full time janitor is in charge. The interior has been painted, the floors refinished and the plumbing and heating systems overhauled, including the installation of a new hot water heater. The building serves as a comfort station during activities on the Field.

Fore River Field

This field was one of the most used in the city, by baseball teams in the Park, South Shore and Industrial Leagues, plus many independent teams. The field has reached the stage where grading is necessary. It is planned to resod the infield and grade the outfield. New first base bleachers were built this year and the grandstand was torn down and replaced with a 40 x 80 foot chain link backstop. This will add to the appearance of the field, and give better protection to homes in the rear of home plate.

Avalon Beach

At this location is the only city supervised beach. Two rafts are furnished, the seats and shelter are kept in repair, and the beach is cleaned daily during the season; a fully equipped playground is provided with two instructors. We recommend that a lifeguard be furnished during the bathing season as a safety measure.

In order to make this beach more attractive, it should be cleaned out and new sand spread. A deposit of oil has practically ruined it as a bathing center. A W.P.A. Project is recommended to make this only city owned beach, what it should be, a healthy place to bathe.

Munroe Playground

This area is under construction, but is used for softball, football, and as a practice field for Junior High School football. The lowlands adjoining this field are now completed, and offers another project for development by W.P.A. engineers. A full-size football field, baseball field, cinder track, softball diamond and playground for small children, can be included. The Board recommends this as a project for completion, to serve a rapidly growing district, in real need of these facilities.

Faxon Park

This beautiful Park, covering 57 acres, has proved to be a valuable addition to the growing Park System. It makes an ideal place for large groups to enjoy picnics and outings. During the past season, several large gatherings availed themselves of this opportunity, and were loud in their praise of the facilities.

Running water with bubblers in convenient places has been provided. A large shelter was built, which will serve in many ways to make the Park more attractive. Several picnic tables were erected and benches placed in many shaded spots around the Park. There is a Custodian in charge all summer and a comfort station is always available. Improvements planned, call for the construction of bleaches, a chain link backstop, and a log fence across the softball outfield. Two fire places and twelve picnic tables: Grade the area at the lookout circle, run water pipe to the children's playground and grade and seed the softball field. With these improvements, a Park second to none, will be available to the citizens of Quincy.

A regular playground was carried out and proved to be a popular gathering place for the children in this vicinity.

Daniel Webster School Playground

The playground is well equipped and ideal for small children; two instructors are provided during the season.

Whiton Park

This is a popular breathing spot for the people of this section. The shrubs and grass plot are cared for by Park workers.

Pollard School Playground

It is a naturally shaded spot, ideal for small children, and has two instructors during the playground season.

Elm Street Playground

This is one of the most popular playgrounds in the City, with three instructors in charge. It is well shaded, fully equipped and well attended. A comfort station is needed.

Faxon Meadow

The Park Department was indeed fortunate to have this area for skating. By damming the brook, a natural pond was made, with the ideal skating weather, this winter, thousands enjoyed this popular winter sport. A hockey rink was erected at one end and was used by hockey enthusiasts.

WARD 3

Bradford Street Playground

A fine program is carried out, with three instructors in charge of the large number in attendance. Tennis courts are a great asset to the field. A comfort station is also needed here.

Henry L. Kincaide Park

This playground will again be under the supervision of the Park Board, after a year's construction under a W.P.A. Project. During this time, bleachers and a backstop were rebuilt and the

field regraded, and reseeded, with a loam and sand base. Paths were set into the newly laid out baseball diamond and the playground area was resurfaced. A seamfaced wall runs along Water Street and a retaining wall on the playground side. A parking place was provided and graded, and posts were placed in front of the bleachers and across the parking space.

Playground activities were carried on during construction of the field, with three instructors in charge. Attendance was good and a fine program put on by those in charge.

The improvements carried out, will give this the largest attended recreation center in the city. This is an ideal place to gather during the summer months and will be much appreciated by the citizens of this district.

WARD 4

William T. Shea Park

This beautiful spot received the regular care of Park workers. A popular breathing spot on hot evenings for the people of this district.

Joseph O'Rourke Playground

Due to the closing of Kincaide Park during the past summer, this field served a double purpose. Many of the games listed for Kincaide Park, were played here. A full program was carried out including a baseball school, playground league, softball and many other activities. Two tennis courts were in constant use. Two instructors conducted a fine program. Field House facilities, with a Custodian in charge, were a welcome addition to those using the field. Showers are available to boys during the afternoon and adults in the evening.

WARD 5

Merrymount Park

This is the recreation center of the City, where during the past year, considerable work has been done.

Stadium: As time goes on, the foresight of those who planned the building of the beautiful Stadium, has been praised more than ever. As a gathering place for all types of activities on a large scale, it has proved its worth many times during the past year. Sunrise Service on Easter Sunday Morning, Flag Day exercises by the Quincy Lodge of Elks, Drum Corps Competition during the National Convention of the American Legion, Semi-Professional Football by the Quincy City League, Professional Football by the Quincy Manets and Junior and Senior High School and Fore River Apprentices Football. There are also Track and Field Meets by North and Quincy High Schools.

During the past year, the field was seeded, regraded and fertilized. Running track was reconditioned, a shower room installed for officials, and wooden bleaches to seat 1,500 erected on the opposite side of the gridiron, making a total seating capacity of 7,000.

The possibilities of a Stadium are great in a growing City like Quincy, and we hope, at some future time, the opposite side will be completed, to balance the concrete bleachers already installed. A loud speaker system is a real necessity and should be installed as a permanent feature. We recommend a press box to be built above the present sturcture, to be for the exclusive use of the Press, by ticket only.

Charles Francis Adams Baseball Park. Quincy's enclosed baseball field was a boom to the game in this City. It was in constant use by teams from the South Shore League, Quincy High School, C.Y.O. League, Park League and American Legion Junior Baseball. Several floodlight games were played and were enjoyed by large gatherings of fans. Out of town teams were very much pleased with the playing conditions.

The field was reseeded in the fall and fertilized. A drain was put in along the third base line and the infield was resodded. Bleachers and backstop were painted and an extra bubbler was installed. There is a Custodian in charge during the baseball season.

Pageant Field. This large area is used for picnics, band concerts, Fourth of July celebrations, and a playground. It is connected to Wollaston by a 750-foot bridge with entrance on Florence Street. Due to the growing demand for softball fields, it is planned to build three first class diamonds with proper seating facilities on this field.

Pine Island. This part of the Merrymount Park System has been connected by a 70 foot span bridge. During the summer, this island was a popular gathering place for the Camp Fire Girls, Boy Scout Troops, Girl Scouts, picnics and wamily gatherings. A shelter was built by Park workers. This year, fireplaces will be built by the N.Y.A. under Park Supervision.

Bowling Green. This is located on the Pageant Field and is used by the older men of the city for the game known as "Bowling on the Green." It is used daily and lighted for use at night. One Greenskeeper is in charge.

Quincy Players finished high in the Bowling on the Green League. The Chairman of the Board was guest at the annual dinner. Commissioner from Rhode Island stated that the Green at Merrymount Park is the best on the League circuit.

Playground. One instructor is in charge of this playground, conducting a regular program. The apparatus is left up over weekends for the use of people who bring children on picnics.

Safford Park

This park has received regular maintenance during the season.

Wollaston School

A fully equipped playground is maintained here, and is well attended. Two instructors conduct a fine program.

Massachusetts Field Playground

This is a regularly equipped playground, under the supervision of two instructors, conducting a fine program. There are additional facilities for softball playing. A Pet Stock Show is one of the features here each year.

Stoney Brae

The excellent possibilities of this area were realized this year. A dam was built diverting the brook water to two skating rinks, one for skating and one for hockey. Thousands enjoyed good skating. Bridges were built across the runway. A Hockey rink was installed and lights provided. Signs were posted on the skating area.

Sailor's Home Pond

At this pond, a hockey rink was erected, floodlights furnished, and a skating area maintained, giving twenty skating days during the past winter. A first aid ladder and life preserver were placed near the pond. Police protection provided on Sundays.

Fenno Street Tennis Courts

During the past year, the fence was rebuilt and minor repairs made to the surface of the tennis courts at this location. It is a popular place for Wollaston tennis enthusiasts. Four more courts are needed. There is absolute need for at least two more tennis courts here and there is ample room to build, with little or no grading. A program of two courts a year, until six are built, will take care of the demand on these courts.

WARD 6

John Wendall Moses Playground

This section of the city is showing a rapid growth, while the facilities at the present are adequate, work will have to be done in the future. A field house is badly needed, and the necessary land for its erection has been acquired.

A special appropriation was received through the recommendation of his Honor the Mayor, and granted by the City Council, to grade, build bleachers and sod the infield. A fence in right field and a wooden fence across the outfield, to prevent teams and automobiles, making a thoroughfare through the field. These improvements will be completed in the early spring, making the field available during the coming season.

Welcome G. Young Playground

A fully equipped play area is provided for this thickly populated section, with two instructors in charge. It also contains two tennis courts and a softball field with bleachers to seat 500. There is room here for various activities. A request for two horseshoe pitching courts will be considered, and a three wall handball court. The Softball field will be regraded this year, without suspension of activities. Softball playoffs were played here with the North Quincy Associates the winners.

Dennis O'Neil Playground

The results on this field have not been satisfactory. A skinned diamond has proved to be an expensive proposition. The field should be closed one year and the grass given a chance to grow. A skating rink is a real want here and will be given consideration. A chain link fence was built, abutting the Cusick Estate and around the Tennis Court wall. While this field is not to be compared with other fields, it was in constant use by teams in the Park, C.Y.O. and Industrial Leagues. A baseball school was conducted mornings during the summer and a field recreation program with two playground instructors was provided. Sessions were well attended.

North Quincy Stadium

During the past year, this Stadium was turned over to the Park Department for supervision and maintenance. It was previously conducted by the School Department. It will be used by North Quincy High School for Track and Field, and out-door exercises during the school year. It will also be used as a practice field for the football squad. The field will also be available to teams for games by permit from the Park Department. The field will be re-graded, bleachers painted, cinder track re-surfaced and a general repair job done to put the facilities in first class shape.

Frederick H. Bishop Playground

Sunday, June 3, 1940, the Quincy Park Board accepted this well equipped playground, with appropriate ceremonies, to the Park System. Named in honor of the last G.A.R. Veteran in Quincy, "Frederick H. Bishop Playground" will serve as a fitting memorial to an outstanding citizen and soldier of the Civil War.

A full program was carried out during the playground season, with two instructors in charge. North Quincy High School used the field as their home grounds. Teams from the Park, South Shore B. Industrial and C.Y.O. Leagues and the Wollaston Post 295 American Legion Baseball Team, played their regular scheduled games, keeping the field in constant use.

It is planned to change the diamond and base paths, and do some resodding in the infield, to put the field in first class playing condition this spring. A Custodian is recommended for this busy playground.

Kendall Park

During the past year, considerable work was accomplished on this beauty spot, a rendezvous for horticulturists throughout the New England States. Many visitors were logged and instructions given on the pruning and growing of grapes and various species of fruit. Park workers, skilled in the art of gardening, were assigned to tend the many fine specimens, under Dr. Walter G. Kendall's care. Grapes and fruit grown at the Park, were awarded prizes at the Annual Show and Exhibition, held at Horticultural Hall, Boston.

There is considerable work to be done to enhance the beauty of this addition to the Quincy Park System. The building is in need of repair and painting, and will receive attention this year.

SPORTS

Baseball

No city in the Commonwealth of Massachusetts, outside of the City of Boston, has better facilities for playing baseball than the City of Quincy, with eight first class regulation baseball fields, plus a new enclosed field. All are under the constant care of Department workers, lined off before games, and furnished with bases and pitcher's rubbers. Every Ward in the City has its own field and representative teams.

The Park Board co-operated in organizing the Park League. During the season, the competition was keen and a fine set of play-off games for the championship were played. The Sagamore Plebes were the winners in a set of play-off games, which drew large crowds and were well played. The League was guided through a successful season by Hobart Robinson, who served as President. A banquet to the winners was attended by the Board.

Baseball Leagues using the fields were the Industrial, Church, South Shore A and B Leagues, Quincy Post 95, Wollaston Post 295, American Legion Baseball Teams, South Shore Junior Twilight League and C.Y.O. League.

Baseball fields are located at Kincaide, O'Rourke, O'Neill, Adams, LaBrecque, Fore River, John Wendall Moses and Frederick E. Bishop Playgrounds. It is planned to have ground keepers at the busy fields, during the regular season.

Softball

Everything possible was done to encourage this popular game, largely participated in by the older men of the City, drawn from all walks of life, including Professional and Business men, Clerks, Laborers, etc. Three Leagues were conducted in co-operation with the W.P.A. Recreation. Industrial and Church Leagues were also organized, making it a problem to satisfy the demand for fields.

With the completion of Perkins Field, another field will be added this year, with hopes of adding more, when Munroe Playground is ready.

Football

This great American game for rugged youth was encouraged in every way possible by the Board. Floodlights for night practice were erected on several playing fields and goal posts were furnished. Quincy and North Quincy High Schools played their home games at the Stadium as did the Junior High Schools.

The Quincy City Football League was composed of the following teams: North Quincy Alumni, Crescents, Quincy Alumni, Fratus Motors, President City and Quincy Warriors, with Frank G. Pray as President. North Quincy Alumni were the winners in the regular league schedule. The Quincy Manets were the only Professional Team in Quincy. This team played one game at the Municipal Stadium and gave a fine exhibition of football, under professional rules.

Fore River Apprentices are made up of a group of young men attending the Apprenticeship School at the Fore River Ship Building Corporation and coached by Mr. Anthony Colucci. The home games of this team were played at the Municipal Stadium, before large gatherings. The grand total of attendance at the Municipal Stadium for the football season was 200,600.

Tennis

With the completion of two courts at LaBrecque Field and three courts at Perkins Palyground, the Park System will have twenty-four courts available for Tennis. During the past season, the courts were taxed to the limit. Supervisors were provided on some of the busy courts.

Tennis courts are located in Atlantic, Montclair, Squantum, Merrymount, Wollaston, West Quincy, Houghs Neck, Faxon Field and Quincy Point, giving every Ward in the City at least two tennis courts.

Horseshoe Pitching

Interest in this popular barnyard sport was keen this year--so much so, that the Board encouraged it as one of the regular playground features. Competition was conducted on an inter-playground scale, with finals played at the end of the season. Clay courts will be built on several playgrounds this year.

Bowling on the Green

The Bowling Green has proved to be a popular City investment. It gives the men of mature age a chance to exercise in keeping with their age. The green was in use during pleasant weather and also during the evenings under floodlights.

Basketball

Six leagues were conducted in co-operation with the Recreation Project in the following gymnasiums at North Quincy High, Atherton Hough and South Junior and Central Junior High Schools. There are three senior leagues made up of boys of out-of-school ages, known as the City Park and District Division in these circuits. These include eight teams each, while ten teams comprise the City Circuit. There are two Junior Leagues, one for boys 14 to 16 years of age, and one made up of boys 12 to 14 years of age. There is one girl's league with six clubs enrolled.

Hockey and Skating

Five hockey rinks were provided during the past winter, with four lighted for night playing. With proper weather next year, efforts will be made to organize a hockey league.

Skating areas were provided on several ponds and rinks. The skating days did not compare with the unusual ones of the year previous, having forty days listed. However, some good skating was enjoyed by thousands on the Quincy skating areas.

Recreation

During the period covered by this report, it has become increasingly evident that there is a wide-spread demand for year-round indoor and out-door recreation. This is true not only in Quincy, but from what the Board can gather, it is general throughout the United States. In view of this situation, the larger Cities must prepare to meet the demand, when W.P.A. Recreation Projects are eventually dropped by the Government, as an emergency measure.

A well planned system of recreation is essential to the well-being of every community. It may be purely passive, such as natural scenery, or it may include various degrees of activity, to the most intensive physical exercise, such as tennis. All forms are necessary to serve varying public demands.

Liveableness An Asset

"Make Quincy a good place to live," should be the aim of our City government, our business men, citizens and our boys and girls. In the days that lie ahead, may we meet the pledge that is ours, to the strangers within our gates. The qualities of good living must prevail on them to stay with us, and benefit by our many assets.

Recommendations

Complete Munroe Field. A survey be made of the body of water known as "Sandbergs Bath Tub" with the idea in mind to develop it as a place to bathe, by cleaning out the present mud conditions by suction and the construction of a dam that will let out all the water on night tides, cleansing the whole basin thereby eliminating chances of stagnation. This would make an excellent W.P.A. Project. Construct three softball diamonds on Pageant Field, purchase a new two-ton Power Roller, six sets of equipment for baseball fields and employ six additional men as caretakers of larger playgrounds. Employ an all-year round director of athletics. Make a survey of Recreation, with a view of all year-round activity.

Report of Supervisor of Playgrounds

BOARD OF PARK COMMISSIONERS:

I herewith submit my report for the regular playground season of 1940. The playgrounds were officially opened on July 8th with a Supervisor and twenty-five female instructors, selected from a Civil Service List, in charge. One Instructor was assigned to each playground, with two on some of the large areas.

The season proceeded successfully with a well-planned program, including baseball, slug-ball handiwork, story periods, volleyball, mass games, tennis, rafie, tennis, woodwork, folk-dancing, dramatics, track and field events, horseshoe pitching and such games as beanbag, and ring toss were provided. Picnics to the Blue Hills, Faxon Park, and Nantasket Beach were enjoyed by many of the children under the custody of the instructors. Hop Scotch and Horseshoe tournaments were city wide with finals held on August 7th, with entries in two classes from each playground.

Slugball, baseball and softball was conducted as an inter-playground feature. All equipment was provided by the Park Department.

Inter-playground Track and Field meet was held at the Quincy Municipal Stadium, August 15th, with each playground represented by a team. John J. O'Rourke Team scored the highest total of points. Prizes were awarded to first, second and third. The generosity of local merchants and citizens made this possible. The winners represented Quincy in the Southeastern Track and Field Day on August 22nd at the Municipal Stadium. The team representing our City scored the highest team total.

On two occasions, the children were guests at the Baseball Parks of the Boston American and National League Baseball Clubs.

Recommendations

A tree planting program on all Parks. Handball and horseshoe courts would be an asset to small playgrounds. Drinking facilities at O'Neil, Bishop, Faxon and Moses Playgrounds should be moved closer to the apparatus. Basketball boards at Adams Shore, Trips to Blue Hills, Franklin Park and Nantasket Beach should be planned during the hot days of the summer. Each week should have a planned objective, such as Hop Scotch week, Slugball, Horseshoe etc. Badminton should be tried on playgrounds that are not equipped with Tennis Courts. The apparatus at Daniel Webster Playground should be moved to Munroe Playground. Regulation dress in the form of jacket and slacks for instructors. Each playground adopt a color for use in competition and for identification on trips and picnics. A fence should be erected in South and Southwest sections of Pollard Playground. The apparatus at O'Rourke should be moved. The Pollard School area should be graded for softball.

Instructors with special programs should concentrate on smaller play areas, such as Baker, Avalon and Adams Shore. A Bocce court at Kincaide would be popular and appreciated.

In conclusion, I wish to express my appreciation to the Park Board, W.P.A. Recreation Project and to the twenty-five young ladies who served so splendidly as Instructors the past season. It was a pleasure to work with them and I felt that the results were worth while.

HAROLD W. CHAPMAN,
Playground Supervisor

Quincy W. P. A. Recreation Project

BOARD OF PARK COMMISSIONERS:

Progressing along the general policies established by the Park Board and Recreation office during the past few years, the aim of the staff and of the Department has been to firmly secure certain definite objectives:

1. To acquire and develop additional indoor and outdoor recreation centers throughout the City so that opportunities for leisure time are available for every citizen young and old. Splendid progress

has been made, new playgrounds, tennis courts, skating rinks have been constructed as well as school yards surfaced and marked for after school play, also additional space has been secured from Churches, Improvement Associations and other Community minded organizations.

2. To attract and hold the interest of youth and adults, our facilities must be attractive, accessible and usable.

3. To broaden the scope of the program of activities so that interesting opportunities for developing recreation skills are available to any individual and to provide challenging opportunities to test skills and abilities either in competition or in participation.

4. To recognize the fact that social problems, maladjustments, and anti-social behavior may be the outcome of the increased leisure of the employed and unemployed. Hand in hand with the present fast geared rearmament program in which our City is so geographically located to play an important part both industrially, naval and military, new and vital recreation needs will be demanded. How leisure time will be used in Quincy depends in a large and to the degree we are able to develop a positive attitude and earnest desire in our citizens to use their leisure time in making life more interesting, more challenging and more worthwhile to themselves and their city. This end may be accomplished only through the combined efforts of public and private agencies.

5. The influence of a well balanced program plus trained leadership has been reflected in the large numbers of children and adults of every sphere in life who have frequented the Community centers, playgrounds, tennis courts, fields and parks in search of interesting and wholesome activities. Although a year round program is somewhat new in Quincy its citizens are fast realizing its grave necessity as an essential part of government function.

6. Perhaps, no other City Department has as great an opportunity to feel the pulse of the lives of as many of our people and to meet them on the level where joy and happiness replace mental and physical disturbances. With a population that has sprung from scores of different nationalities, racial divisions, religious faiths, and living in extremes of social and economic levels, the recreation program in which participation is not compulsory, and provides a common language on the field of play, has a tremendous value as a means of interpreting American citizenship and American Democratic principles. As we learn to play together, to that point we continue to work together and live together.

7. Together with the splendid co-operation of City Officials, School Department and so forth, the success of the entire program depends largely on the quality of the leaders in charge of the programs and facilities. In our opinion the staff members can compare favorably with any private or public department in the loyal, co-operative and willing service which they have given to the City.

In the continued interest, encouragement and valuable support which Mr. Spargo and every member of the Park Board has evidenced during the past year, lies the answer to our progress. Assured of their continued interest and support, the entire staff and

myself will assist the Park Department in every way, to carry out, to the best of our ability, a public recreation program which will help make Quincy "A fine City in which to live."

GERALD GHERARDI,
W.P.A. Recreation Supervisor

QUINCY RECREATION REPORT 1940

**Conducted by the Park Department and
W. P. A. Recreation Project**

1940 FACILITIES

Schools

Wollaston, St. Johns, Nathaniel, Adams School, Atherton Hough, Gridley Bryant, Lincoln and Merrymount.

Gyms

Atherton Hough, South Junior High, Central Junior High and North Quincy High.

ACTIVITIES CONDUCTED

(Men & Women)

Classes

Metal Craft, Metal Tooling, Knitting, Pottery, Square Dancing, Sewing and Dress Making, Bridge, Navigation, Rug Making, Badminton, Basketball, Softball, Baseball, Mothers' Clubs, Ballroom Dancing, Needle Craft, Bowling and Gym.

Leagues and Tournaments

Baseball, Basketball, Softball, Football and Bridge.

Special Activities

Entertainment, Social Parties, Lecture, Bus Trips, Boat Trips, Hikes, Costume Balls, Square Dancing, Card Parties, Holiday Parties and Craft Exhibits.

EXTENDED SERVICES

Supplying musical and Dancing entertainments to over 25 public and private agencies.

Officials for Junior High School, Baseball, Basketball and Football.

Co-operated with Girl Scouts, Boy Scouts, Sea Scouts, Camp Fire Girls, Hospital, Improvement Associations, Clubs and so forth by supplying instructors, facilities etc., in aiding their program.

Aided school department in planning and marking school areas for extended after-school recreation.

Co-operated with P.T.-A. groups to further interests in recreational facilities and program.

Aided Social, Improvement and other Clubs and Agencies in conducting field days, athletic meets etc., for the general benefit of the Public.

Permits

During the year the following number of permits was issued for various activities.

	Permits	Estimated Attendance
24 Tennis Courts	11,200	33,600
9 Baseball Fields	540	162,000
School Baseball	288	14,400
14 Softball Fields	1,480	72,600
10 Football Fields	148	62,100
School Football	52	71,000
North Football Stadium	Unlisted	Unlisted
4 Soccer Fields	58	2,800
1 Bowling Green	150	8,300
Field Days and Picnics	128	151,700
Fore River Club let other than to W.P.A. Recreation	66	6,420
Total	14,110	584,920

Expenditures

The financial statement of this Department may be found in the Auditor's Report.

Vandalism

The Park Board still feels rather strongly on this yearly subject, vandalism. The Park System seems to be the target of this type of fifth-columnist each year. To the largest extent, our losses, the past year, are estimated in the vicinity of two thousand dollars. The Board of Park Commissioners take this opportunity to thank the group of citizens who are organizing to assist us to stamp out this evil, by a system of education and will co-operate with them along these lines. The offer of a reward of \$25 to any citizen who can give information and conviction about any vandal committing these acts, still stands.

Conclusion

We acknowledge the magnificent spirit of co-operation evidenced by His Honor, the Mayor, the City Council, the Quincy Patriot Ledger, the Police and Fire Departments, the City Engineer's Department, Public Works Department, Manager of Parks and Playgrounds, Foreman of Parks, Park workers, Supervisor of Playgrounds, W.P.A. Recreation Project, Playground Instructors, members of all leagues sponsored by the Board, referees and umpires of all leagues, and anyone who by act or deed has made the work of 1940 a pleasure. It is fitting that we should here record our appreciation and gratitude.

We are proud of our city, our citizenry, and our parks and earnestly hope that this, the 52nd Annual Report, will mark another milestone in the upward path.

Respectfully submitted,

Open Saturday, 9-12 A.M., 1-6, 7-9 P.M.

HOSPITAL SERVICE, Quincy City Hospital

Daily except Saturday, 1-6 P.M.

REPORT OF THE TRUSTEES

To His Honor, the Mayor of the City of Quincy:

The seventieth annual report of the Trustees of the Thomas Crane Public Library is submitted herewith.

The new addition to the main library building which was completed and accepted in December, 1939 was formally dedicated on January 17, 1940. This is technically known as the Adults' Reference and Children's Library and has met a long-felt want in the library department of our city.

At the dedication exercises the speakers were Hon. John M. Carmody of Washington, National Administrator of the Federal Works Agency, Col. M. E. Gilmore of New York, Regional Director, Hon. Thomas S. Burgin, Mayor of Quincy, Galen W. Hill, our Librarian, and Clarence E. Sherman, Librarian of the Providence Public Library. Rt. Rev. Msgr. Michael J. Owens of St. John's Church delivered the invocation and Rev. Harold E. Hallett of Christ Church pronounced the benediction. There were present the members of our board of trustees, numerous representatives from neighboring libraries and many of our citizens. The chairman of the board of trustees presided.

During the year 1940, a change was made in the Squantum branch, which, since the date of its establishment in 1924, had been located in the Squantum School building. The room there had to be given up because of additional school requirements. Other quarters were found in the building at the corner of Dorchester Avenue and East Squantum Street which were readily made available for branch library purposes and this location has proved to be very convenient for all residents of the Squantum District.

During the year, the Dana House, owned by the library and formerly used as the Children's Library, has been loaned to the local unit of the National Youth Administration for their work and activities.

Attention is invited to the annual report of the librarian in which he emphasizes the great demand for books on technical subjects growing out of our national defense activities and in which he stresses the need of an increase in the appropriation for books.

The trustees acknowledge with much appreciation the following gifts to the library, phonograph records from Quincy Boy Scouts and from numerous other of our citizens; two volumes, beautifully bound, of "Forward March," the photographic record of America in the World War, which were presented by Mrs. Malcolm MacFaul in honor of her parents Mr. and Mrs. Edward H. Dewson; and four unusual Shakespeare items donated to the Atlantic Branch by the Atlantic Shakespeare Society.

The trustees take this opportunity to acknowledge again the efficient and loyal work of the librarian and members of the staff, and to thank the Mayor and members of the City Council for their valued support and co-operation.

Respectfully submitted,

GEORGE E. ADAMS, *Chairman*,
GEORGIANA CUSHING LANE, *Secretary*.

REPORT OF THE LIBRARIAN

To the Trustees of the Thomas Crane Public Library:

"Do you like the new building?" "Is it working out satisfactorily?" No record has been kept of the number of times these two questions have been asked the librarian and members of the staff during the past year, but it would reach into the hundreds. The invariable and unqualified answers have been "We do" "It is" and we may let these answers stand as our report on the first full year of work in the new addition.

The war overseas, the presidential election, the draft, the acceleration of the American "defense" program and its consequent stimulation of industry and employment have made 1940 a momentous year. All these events and the resulting nervous tensions have had their effect even upon the public library, sometimes regarded as an institution that, like the man in the house by the side of the road, simply "watches the world go by." One effect on this library has been a pronounced demand for and an increase in the use of books in the fields of mechanics, engineering, shipbuilding, aviation and the like, books useful to those already employed in defense industries and to the young men being trained in the mechanical trades. There has been an increased call for books dealing with the war, conditions in the countries involved, and on the controversial issues relative to the position of the United States in regard to it. With the increase in non-fiction, especially in the subjects just mentioned, there has been a decrease in the circulation of books of the more recreational kind, particularly fiction. There are probably two reasons for this: the increase in employment and a reduction in the proportional amount of the budget spent for this class of books. The decrease in the circulation of fiction was enough to off-set gains in non-fiction and children's books, the total circulation being 695,587 books, slightly less than 3,000 below the figures for 1939. An oddity may be mentioned here. Though there was a decided increase in the circulation of children's books, over 8,000, the number of juvenile borrowers decreased, whereas, in the case of adults, the number of borrowers increased by nearly 200 while the adult circulation showed a loss for the year. The total registered borrowers at the end of the year numbered 24,177, thirty-one percent of the population of Quincy.

During the year 8,688 books were added by purchase and 242 by gift. The number of books withdrawn, 5252, was larger than usual and is accounted for the careful weeding out of obsolete and worn out books at the time of moving into the new addition. The total stock of books on December 31 amounted to 119,823 volumes. The library subscribes to 218 periodicals at the main library and the number of duplicates for the branches amounts to 265. The library has some borrowers who regularly take out certain magazines but seldom a book.

The Reference Department of the main library began in 1939 to keep a record of such requests for information as necessitated some search on the part of the assistants. This record, continued in 1940, shows that 276 more requests were answered than in the previous year. The Readers Adviser's service in the circulation department has been continued except during the summer months.

Miss Kingman seems to feel that the attractiveness of the new children's room is partly responsible for a gain of 5,000 in that department. Many mothers who came just to see the room have become steady borrowers of picture books and books to read to pre-school children. During Miss Kingman's absence last winter, Mrs. Crofts organized a children's book club which held regular meetings and similar clubs have been started by Miss Keniley at the Manet Branch and Miss Dinegan at Lakin Square.

The one feature of the new addition which has aroused the greatest interest has been the Music Room, especially the phonograph department with its two recording instruments in sound-proof booths. It has been so popular that it has been necessary to schedule two persons in the room afternoons and evenings. Beginning with about 150 records, by purchases and gifts the collection of records has been augmented until, at the end of the year, the number stood at 510. Miss Margaret Hebert, the head of the Music Department, is responsible for the selection of the records purchased and with the assistance of Miss Morrill for their cataloguing, no mean task, as each selection of music has to be indexed under composer, title, artist and type of music. In the fall we felt we had enough records catalogued to begin their circulation and in the period October 1st to December 31st, 1,080 records have been loaned for home use. Through the courtesy of the Eastern Company, distributors of Victor records, a series of six lectures was given during the year by Mr. Mischa Tulin, Educational Director for the Eastern Company. These were well attended and much appreciated. During the spring and fall Miss Hebert arranged special musical story hours for groups of Girl Scouts and Camp Fire Girls and on Thursday afternoons has conducted a similar hour for children of elementary school age. Word of these musical story hours reached the national headquarters of the Camp Fire Girls and Miss Hebert was asked to write a full page article on them for their official magazine "The Guardian" to appear in the February 1941 issue.

On October 1 our hospital library service at the Quincy City Hospital completed its fifteenth year. Organized in 1925, with about 300 books stored in a closet, with two afternoons of ward service and a circulation, the first year of 5,000 books, it has slowly grown to a collection of 2,500 books located in a room in the new Administration Building, with ward service five afternoons a week and a circulation last year of 17,000 books. There are, however, no statistics by which to assess the amount of pleasure, comfort and even solace which over these years our books have given to patients during the many dull hours of hospitalization. In her report, Miss Henrikson mentions the story hours which she conducts in the children's wards and that books in nine languages have been provided for non-English reading patients.

Included in the furniture provided for the new building were exhibit cases which have filled a long felt want. The two in the Reference room are in charge of Miss Gow and through the courtesy of several Quincy citizens have been kept filled with interesting exhibits. The list of those who have generously contributed exhibits includes Mr. George A. Wilson, minerals; Mr. and Mrs. Maurice Spillane, silhouettes; Mr. G. F. Schafer, stamps; Mrs. W. H. Colburn, graphic processes; Mrs. James H. Slade, antique

handicrafts; Mr. William A. Bradford, photographs; Miss Meta K. Hanney, reproductions of old ivories. A similar case in the Children's Room has provided space for exhibits of stamps, Boy Scout activities and through the courtesy of the Children's Museum a series of exhibits illustrating the daily life of many peoples in different ages and countries. The library is grateful to all who have assisted in providing these exhibits. During the year, in the Lecture Room there have been exhibits of pencil paintings by Mr. John Pratt Whitman, a former trustee of this library, paintings by Miss Mary A. Reordon of Quincy and by Mr. Samuel Evans of Quincy.

In March Miss Josephine Galante, who had made an excellent record as a capable and conscientious assistant, resigned to be married and in April Mrs. Margaret Joyce became a member of the staff. While Mrs. Joyce's schedule includes work in the reference, loan and music departments, her special assignment is the writing of the weekly column of book notes "Leaves from the Library" in the Quincy Patriot Ledger. In November Mrs. Alice Brown, a local resident with previous library experience, joined the staff as a general assistant, working chiefly in the reference department. Also during th year, Miss Elinor Dunkerley and Miss Claire Germaine were added to the regular staff by promotion from part-time positions.

During the year our new building has attracted many visitors including librarians of other cities and towns and we have been the recipients of many congratulations on the beauty of the building and the opportunity it offers for modern library service. On October 18th we were host to the Old Colony Library Club for their fall meeting which was attended by fifty librarians and trustees of the South Shore district. Shortly after the dedication of the new building, I was asked to contribute a descriptive article about it with plans and illustrations for the "Library Journal" and this appeared in the issue for May. In the last paragraph I extended an invitation to librarians expecting to attend the 1941 conference of the American Library Association in Boston to include a visit to our library. It is anticipated that this conference which is scheduled for June 19th to 23rd will be attended by over 5,000 librarians. A local committee with sub-committees, on one of which your librarian is serving as chairman, is already at work planning for the reception, care and entertainment of the delegates and the days of the Conference will be busy ones for the librarians of this vicinity.

I welcome the opportunity to again enter on the record my sincere appreciation of the help of Miss Callahan and the good work of every member of the library staff during the year and also my gratitude to your Board for your confidence, advice and assistance.

In conclusion I want to add that we have had a very happy year in our new building. As I said at the dedication exercises, it represents the transformation of a ten-year dream into a living reality and I am deeply grateful to all who had a part in the accomplishment. The public library, as we know it, is essentially democratic; there is no institution more so and it cannot even be imagined as continuing to exist under a totalitarian regime. As this

is being written democracy is on trial for its life and I do not want to dream of what may happen to these walls and these books if it loses. Therefore, we all need to have faith and pray and work that we may keep our present democratic way.

Respectfully submitted,

GALEN W. HILL,
Librarian.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Quincy:

At the organization meeting of the School Committee for 1940, held January first, the following were chosen:

Heslip E. Sutherland, Vice-Chairman
James N. Muir, Secretary
Marion Nilsen, Clerk

During the year the usual number of changes have occurred. The personnel of the department has been affected by the retirement of several highly valued teachers. Miss Clara E. Thompson, Head of the Mathematics Department of the Quincy High School, has left an enviable record of forty-eight years' service as likewise has Miss Minnie E. Donovan of the Lincoln School. Mr. Charles Sampson, Principal of the Francis W. Parker and Massachusetts Fields Schools, served faithfully for forty-four years and Miss Jennie N. Whitcher of the Coddington School gave devoted service for forty-one years. The host of former pupils should join in the opinion of the School Committee as expressed in a personal testimonial which was sent to each of these exemplary citizens. Honorable mention should also be given Mr. Fred C. Cahoon who was a faithful custodian for thirty years.

The subject of enlarged facilities for the Trade School was given the careful consideration which it deserves. The report for 1939 stated that the School Committee adopted specific recommendations for a new wing of the present Trade School building. The Advisory Committee of the Trade School, under the able leadership of Honorable William A. Bradford, recommended the erection of a new building on Sea Street near the present police station at a cost of nearly three-quarters of a million dollars. The School Committee deemed it inadvisable to incur such great expense as specified for a new building and repeated its former opinion that the present facilities be enlarged and improved to adequately provide for the activities of the students in this branch of the department. While on the subject of the Trade School it seems appropriate to mention that the Committee authorized the extra use of the Trade School for training of young men in work especially adapted to the manufacture of materials to be used in National Defense. Working hours have been extended to include late afternoon and evening classes until eleven o'clock.

Progress has been accomplished in the renovation of the shop at the Quincy High School where the elements of trades are taught in the form of metal, electrical and woodwork as well as machine shop practice. Also the complete renovation of stage equipment at the North Quincy High School has done much to improve appearances there. Mr. George S. Clark has given unstintingly of his time and effort and is deserving of much thanks and appreciation.

The various school buildings are being used extensively after school hours by various organizations necessitating additional ex-

pense for light and heat. Many of the programs are conducted by Works Progress Administration in many forms of activities. The Works Progress Administration has, however, done much for the school department in their work at the Adams School in beautifying the school yard, building walks and repairing walls around the school; at the John Hancock School where they completed the fencing and amiesiting of the school yard; at the Atherton Hough School where they conducted a general renovation including painting inside and outside, as well as plastering; at the Quincy School where they did considerable plastering and painting; at the Daniel Webster School where they conducted a general renovation including plastering and painting. Other smaller jobs have been completed to the satisfaction of all concerned and for which this Committee is very grateful for their labor.

The Committee approved the plan to issue a pictorial publication showing the Quincy Schools at Work, a copy of which may be had on application to the Superintendent.

Another forward step was registered when the Committee decided that every new entrant to the teaching profession in the city be given a physical examination before assuming duty. Medical examination is given by physicians employed by the School Committee and the applicant must prove to be free from any contagious disease or impairment that would interfere with prompt and efficient execution of duties. This is considered another safeguard for the health of our children and their welfare considering fire drills and other occasions of emergency.

In the report for 1939 reference was made to the portable building at the Central Junior School. Use of this building has been discontinued and the structure removed from the playground.

The Committee has endeavored to obtain a better understanding of the functions and problems of each department and to this end has conducted surveys of the activities of several departments. A continuation of this plan will undoubtedly extend into the future.

The Committee deplores the mutilation of school buildings, especially broken windows, and will make every effort to reduce such damage to a minimum.

This report would be incomplete without acknowledgment of the faithful efforts and untiring devotion of our successful teachers. They have added much to the advancement and knowledge of our children and have earned for themselves the gratitude and praise of our citizens.

The foregoing report was prepared by a special committee consisting of Mr. Roy Prout and Mr. L. Paul Marini and was adopted as the report of the School Committee for the year 1940.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Quincy:

I am transmitting to you the usual statistical report of the Quincy Public Schools for the year 1940. In this report are included the reports of the Director of Health Education and the Supervisor of Attendance in that these reports are largely statistical and include certain items required by law. The Trade School, evening school, and special classes are reported by the Assistant Superintendent.

The illustrated booklet depicting the Quincy schools at work, which has recently been published and distributed, serves as a report on our present school program.

It is unusually stimulating and gratifying to a Superintendent of Schools to have a School Committee accept recommendations and take as constructive action as has been taken during the past year. Some of the outstanding accomplishments have been:

1. The renovation of the Quincy High School shop for boys and the installation of new equipment.
2. The adoption of rules and regulations for the physical examination of teachers.
3. The adoption of rules and regulations providing for the physical examination of candidates for school athletic squads.
4. The provision of instruction in lip reading.

The situation in the school system is such that excellent progress should be made during the coming year.

Respectfully submitted,

JAMES N. MUIR

Superintendent of Schools.

REPORT OF THE ASSISTANT SUPERINTENDENT OF SCHOOLS

MR. JAMES N. MUIR, *Superintendent of Schools*
Quincy, Massachusetts

MY DEAR MR. MUIR:

I submit the following report on the Trade School, Evening Classes and special classes.

The Day Trade School

For the school year 1929-30 the average membership of the Trade School was 182 and the gross cost was \$53,154.56.

Ten years later for the school year 1939-40 the average membership was 252.12 and the gross cost was \$53,520.12. In ten years the average membership increased 38.5% but the gross cost increased only .6+ %.

Ten years ago last August the net per capita cost to the city for maintaining the Trade School was \$123.22. Last August the net per capita cost for the past year was \$90.32.

The table below shows the sources of income and the amounts by which the gross cost was reduced for 1939-40.

	1939-1940
Tuition for non-residents	\$ 5,212.04
Cash for products made in school	422.20
Aid from the Federal Government	7,054.25
Aid from the State of Massachusetts	17,992.91
Miscellaneous receipts	56.95
	<hr/>
Total Receipts	\$30,738.35
Net cost to City of Quincy	22,781.77

During 1929-30 there were in the Trade School twelve trade teachers, one academic teacher, and one full time director. In 1939-40 there were fourteen trade teachers and the academic teacher, Mr. Webster, who also served as Director of the school.

The growth of the school is shown by the following table giving the total enrollment and average membership for the last five years.

	1935-36		1936-37		1937-38		1938-39		1939-40	
	Enrol.	Ave. Mem.	Enrol.	Ave. Mem.	Enrol.	Ave. Mem.	Enrol.	Ave. Mem.	Enrol.	Ave. Mem.
Auto Mechanics	77	54.52	79	54.00	79	55.06	73	49.21	73	53.27
Electrical	44	37.63	43	36.13	42	35.27	40	37.35	40	38.58
Machine	20	17.26	21	17.28	34	26.97	36	32.02	30	33.21
Plumbing	48	34.27	47	34.94	39	34.76	42	34.11	39	34.40
Sheet Metal ...	22	17.81	21	17.53	19	18.71	38	34.82	39	38.19
Woodworking .	75	55.14	78	54.08	74	48.54	69	52.81	74	54.47
Total Enroll. ...			289		287		298		305	
Total Average Membership .	286	216.63		213.96		219.31		240.32		252.12

An average membership of 252+ is the highest in the history of the school and it can never be but little higher until the capacity of the school is increased. The building can house 264 pupils. It does not seem necessary to present facts or reasons for the necessary additional facilities for vocational education in Quincy. All concerned are apparently in agreement over the needs for expansion of the Trade School but differences of opinion exist as how the increased facilities shall be provided. It is greatly to be desired that differences of opinion be adjusted and that steps be taken to increase the facilities for Trade education.

The Evening Schools

For the fiscal year ending December 31, 1940, \$2,477.76 was expended for the Evening Academic classes but \$728.25 was paid into the city treasury in tuition fees for evening school students. Tuition fees, if applied direct to evening school expenses, would have covered nearly one-third of the total amount. The town of Braintree for the past year has been paying tuition costs for Braintree residents which has increased the number of Braintree residents attending the evening school.

Evening Academic Classes are in the nature of a business barometer. When business conditions are poor and many young people are unemployed, the enrollment in the evening school increases; when business conditions improve, enrollments decrease.

The following table giving the full registration for the past two years shows a decrease of 825 in the enrollment for 1940 compared with 1939.

	1939	1940
Algebra	49	39
Mechanical Drawing	70	91
Principles of Bookkeeping	142
Grammar School Arithmetic	36	22
Grammar School English	48	24
Elementary Typewriting	274	183
Intermediate Typewriting	155	105
Advanced Typewriting	127	145
Elementary Stenography	141	130
Intermediate Stenography	99	100
Advanced Stenography	109	113
Intermediate Business English	73	40
Advanced Business English	237	143
Intermediate Business Arithmetic	61	23
Advanced Business Arithmetic	111	47
Classes for Adult Aliens	185	152
Total enrollment	1775	950

The total enrollment is not the sums of the class enrollments above as evening school pupils in most cases were allowed to register in two different classes.

The decrease in enrollment made it possible to introduce a new course—"Principles of Bookkeeping" which proved to be popular.

The fall registration in classes for adult aliens was the smallest enrollment in the last five years. We rather think that the peak in alien education has been passed. However, we should continue to educate the foreign born living in Quincy until all can read and write English and are thoroughly instilled with democratic principles of government.

Evening Trade Extension classes have been absorbed by the National Defense Program of Vocational Education financed by the Federal Government.

In the spring of 1940, Quincy maintained two Evening Trade classes—one in Sheet Metal Drafting and one in Machine Shop Practice.

In the fall of 1940 the machine, sheet metal and woodworking shops were used and are still being used from 4 P.M. to 12 P.M. for National Defense Training of men unemployed.

Three classrooms in the Trade School are being used in the evening under the National Defense Training Program from 7 to 9 P.M. for Machine Drafting, Sheet Metal Layout and Blue Print Reading.

Since it has been in the same trades that we have operated Evening Trade Extension classes, the field seemed to be adequately covered by the National Defense Vocational Training Program and no courses were offered by the School Department.

Special Classes.

The number of special classes for retarded children was the same in 1940 as for the past few years.

Two changes were made in the location of classes. The class for older girls was moved from the Coddington School to a large sunny classroom on the second floor of the Cranch School formerly occupied by a W.P.A. sewing group. The class of thirty-six older boys housed in the portable building in the yard of the Central Junior School was moved to the Coddington School where it has the use of an excellent classroom and a good comfortable shop formerly used by a W.P.A. group. The boys' class is much better housed and the portable building was transferred to the W.P.A. and removed from the school property to the great improvement of the school yard at Central Junior School.

At the close of the year in December, 1940, one hundred sixty-one pupils were enrolled in the opportunity classes under the care of nine specially trained teachers. That all or more classes will be needed is indicated by the fact that in 1940 one hundred twenty-one new children were referred to clinics for examination of their intelligence and fifteen children were referred for re-examination. Fifteen pupils were found to be normal, fifty-six were dull normal, fifty-nine were definitely mentally retarded and six were not examined because of sickness or because they had moved from the city.

Some of the children who are dull normal have been recommended for attendance in the special classes. There are more children in the city than can be cared for in the present number of classes but not enough in any one general location to justify opening another class.

It is a pleasure to report that the number of handicapped children requiring special education decreased in 1940. During the school year ending in June 1940, twenty-two children were transported to the class for the physically handicapped in the Thomas B. Pollard School but of that number eight were well enough to return to the regular school in September, one returned to a sanatorium. During the school year eighteen different children were taught at home by visiting teachers of which number five have returned to the regular schools, six were transferred to the Handicapped Class and two are deceased.

In December 1940 there were twenty-two children being transported to the class for Handicapped Children and eight were receiving instruction at home.

Quincy has been very fortunate in the teachers who have taught the handicapped children. The work that is done by and with these children is a very satisfying part of Quincy Public School education.

I close this report with a brief quotation from the class teacher of the handicapped children, "The atmosphere of the building has always been conducive to the happiness and progress of the physically handicapped child. This is very vital to the success of the work . . . These pupils for the most part will become self-supporting members of society."

Respectfully submitted,

ALBERT H. COCHRANE,

Assistant Superintendent of Schools

MR. JAMES N. MUIR

Supt. of Schools

Quincy, Mass.

Dear Mr. Muir:

The following is a report of the work of the Health Education Department.

Health Service

Contagious Diseases Reported	1938	1939	1940
Scarlet Fever	933	151	106
Measles	156	1279	118
Totals	1089	1430	224

Medical Examinations

	1939	1940
1. Regular Routine Examinations	8890	8494
2. Special Examinations	567	1570
3. Examinations of Athletes	1242	1331
4. Miscellaneous Examinations	893	553
5. Pre-School Clinic Examinations	386	516
Total examinations by School Physicians	11978	12464

The orthopedic clinic which was started in December, 1940 is held in the Quincy High School once each month. Parents, teachers and nurses have expressed enthusiastic approval of this newest health service feature.

Total number of fractures resulting from these accidents, 18.

Physical Education

The physical education program, as do the facilities for teaching this work, varies within the system.

Both Quincy and North Quincy High School gymnasiums, with only a curtain dividing classes, make it difficult to give very much verbal instruction because of noise interference. This condition is somewhat offset at North Quincy because of facilities offered in the body mechanics room.

The P.F.I. figures which follow include the results of 1939 and 1940 tests.

P.F.I. Test Results

	1939		1940	
	PFI	SI	PFI	SI
Quincy High School—Girls Average	111	1579	112	1612
Quincy High School—Boys Average	103	2427	107	2561
North Quincy High School—Girls Average ..	118	1550	113	1620

North Quincy High (Junior)—Girls Average	108	1263	113	1460
North Quincy High (Junior)—Boys Average	116	1450	114	1490
Central Junior School—Girls Average	113	1320	112	1410
Central Junior School—Boys Average	119	1325	110	1515
South Junior School—Girls Average	106	1240	115	1501
South Junior School—Boys Average	112	1395	114	1580
Quincy Point Junior School—Girls Average	91	1020	103	1290
Quincy Point Junior School—Boys Average	97	1199	104	1520

The elementary school physical education program consisted for the most part in working with pupils needing body mechanic training. Three teachers were assigned to this work, each doing about 2½ days each week except during the testing period of spring and fall.

Infantry Drill Manuals have been distributed to all physical education men so that the marching tactics taught will be the same as those used in military service.

Fall Financial Report—1940

Quincy High School

	Receipts	Expenses
Football	\$ 6,644.12	\$ 3,157.61

Net Loss	564.64	
	<hr/>	<hr/>
	\$ 3,179.69	

Recommendations

There is a vital need for larger quarters for health service work at Quincy High School.

An effort should be made to co-ordinate the various recreation programs now being sponsored by the Park Department, W.P.A. and the churches using school facilities. In some cases boys of high school and junior school age are attending many of these sessions irrespective of their health needs.

Soap should be supplied for showers to improve the hygiene of pupils.

Surfacing for many of the locker room floors to minimize the danger of athletes foot.

Provisions for a body mechanics program at Quincy High School.

Respectfully submitted,

JAMES J. CARTER

Director, Health Education

APPENDIX B

LIST OF GRADUATES AND AWARDS

I. Quincy High School

JUNE, 1940

559

Eva Joan Abate	Leo Bresnahan
John Harding Adams	Warren Harold Broberg
Ruth Mona Adams	Beatrice Wheeler Brown
James S. Aicardi	Douglas Brown
William T. Akerley, Jr.	Charles Buckley
George B. Alger	Lionel Buckley
Virginia E. Allen	Doris Lorraine Bugden
Howard Allison	George Palmer Burke
Orris Faye Amero	Helen Marie Burke
Edward Joseph Anastasi	Marjorie Louise Burr
Veijo Anderson	Mary Anne Bussolini
Josephine Elizabeth Antoon	Constance Marie Buzzi
Arnold Irving Applebaum	Marie Louise Buzzi
Eleanor E. Arvidson	James Byrne
Seymour L. Austin, Jr.	Paul Andrew Callahan
Irma H. Babbitt	Agnes Mary Cameron
Derelyn Bagley	Effie Cameron
Mildred May Baker	Gilda Rose Campitelli
Perry Townsend Banghart	Catherine Canavan
Nelson Barnicoat	Marjorie R. Cannon
Gloria Barry	Earl Cantrell
Marita Carolotis Barter	Shirley Carling
Mary-Audrey Barton	Carl Arnold Eric Carlson
Gerald R. Batstone	Lilly Virginia Carlson
Maurice J. Battista	Richard Carlson
Alma W. Beale	Alice Marie Carson
Florence Norma Beaton	Elizabeth Jane Carter
Madalyn Ann Benedetti	Joseph A. Casanova
Mario Berardinelli	Lena Cashook
Leon Berger	Sven H. Casperson
Ray A. Bergren	Joseph F. Caulfield
Eugenia Bertocchi	Clara Ann Cedrone
Mabel R. Biagini	Flora Diana Cedroni
Julia Theresa Binkwitz	Edith Cellucci
Cynthia Story Bishop	Angelina Mary Cenci
Gladys Louise Bishop	Paul R. Choquette
Ernest Robert Blair	John Vinal Christensen
Charles E. Boiclair	Lucille Agnes Churchill
Joseph Edward Boland	Rosemary Cipolla
William H. Boyd	Robert William Clark, Jr.
Robert M. Bradley	Albert P. Clifford
Virginia Marie Brandt	Betty M. Coates
Rita Marie Braun	John Cochran
Eleanor P. Breen	M. Bernice Cody
Iris J. Brenton	Norman Coffman

William J. Cohen	Phyllis DiScullio
Dorna Coletti	Delia DiTullio
Sylvia M. Coletti	Ida DiTullio
Marian Colligan	Arthur J. Dolan
Agnes Mae Collins	O. James D'Olympio
Avis Mary Collins	Inez Caroline Donati
Madeline Collura	Anne M. Donnelly
Phyllis Mary Connolly	Grace P. Duffy
Marie E. Conrad	Pearl Patricia Duffey
Melba E. Conrad	Alice F. Duggan
Richard A. Conroy	Paul E. Duggan
Marie Eleanor Cooney	Doris M. Dwyer
Betty Leona Coose	Philip J. Dwyer, Jr.
Mary R. Corcoran	William A. Dwyer
John Allen Corcoran	Alberta M. Ellis
Edmund H. Coyer	Katherine I. Elomaa
Prescott Nims Crane	Arthur Erickson
William Crowell	Russell Erikson
Elizabeth A. Curran	Charles Edward Erwin
Barbara M. Curry	Constance V. Estes
David Edward Curtin, Jr.	M. Louise Evans
Mary Zita Curtin	Luigi Peter Faiella
Mildred Curtin	Genevieve G. Fallon
Richard Dennis Curtis	Frances Rose Fantasia
Evelyn G. Daley	Pauline C. Fargo
Francis X. Daley	Katherine L. Fay
Gena A. D'Andrea	William H. Fee
Dora D'Angelo	Grayce R. Felmann
Evelyn D'Angelo	Margaret F. Ferrigno
Erva E. Davidson	John Ferris
Marjorie Ann Day	William L. Fickett
Anne E. Days	Mary Filaccio
Mary V. Deacon	A. Orman Fisher
Charles F. DeClerck	Mary A. Fitzgerald
Kenneth J. Dell	A. Elizabeth Fletcher
Josephine DelLongo	Mary Louise Flynn
Dora A. DelVecchio	Russell Theodore Forbush
Dorothea A. Dempsey	Patricia M. Forsythe
Helen F. Dempsey	Harold Astor Laurentius Fosse
Paul J. Dennehy	Doris C. Fox
George DePaulo	Carolyn B. Foye
Alyce R. DePesa	Elizabeth A. Francer
Domenica C. DePolo	Ralph C. Franks
Domenic A. DeStefanis	Marion R. Fredrickson
Alfred J. Deveau	Frances Irene Fusco
John Paul DiBella	Rose Constance Gabriel
Annette E. DiBona	James G. Gallagher
Louis G. DiBona	Lucille Estelle Gallagher
Umberto DiBona	Walter Gerard Gantley
Elvira Rita DiCesare	Edward R. George
Olga E. DiChristopher	Madeline S. George
Ennio J. DiGravio	Joseph A. Georgi
Margaret Veronica Dillon	Ruth Gilbody
Gloria Clara DiLoreto	Virginia F. Gill
Camillo DiMascio	Doris L. Gilliatt
Ilda DiMascio	Barbara Marie Gillis
Yolanda DiNardo	Ida E. Gillis

Teresa Ann Giudici	Gino E. Infascelli
William Thomas Glynn	Elizabeth F. Jager
Sadye Goldberg	Ellen M. Jager
Alexander Gossman	Edward Johnsen
Jacqueline Marie Goudreau	Ruth Johnsen
Elizabeth Mary Graff	Albert G. Johnson
Mary Emily Graffam	Elizabeth Johnson
Romeo Frederick Gramazio	Roland L. Johnson
Paul Herrick Grant	Virginia Marie Johnson
Eileen Margaret Gray	Virginia Elizabeth Johnston
Margaret Gray	Marian Ann Jolicoeur
Gertrude Linan Greenberg	Margaret Annie Joly
Florence Elizabeth Grippi	Charles Dana Jones
Edna Groop	Warren Keay Jones
Theodore R. Gullicksen	Marguerite Virginia Joss
Helen Irene Gustafson	Marie Joyce
Ruth I. Gustafson	Eugene V. Judge
James Guthrie	John Joseph Judge
Theresa Catherine Haefner	Louise Mary Kalil
Julia Anne Hajjar	Frances Albin Kallstrom
John Pryor Hall	Sylvia Aino Kampilla
Marguerite Ruth Halligan	Elna Elizabeth Karhu
Andrew Hamill	George Laurence Keenan
Lester C. Hamilton	James Edward Keenan
Dorothy Elizabeth Hanson	Charles C. Kelley
Marjorie Helen Hansson	Edith Eleanor Kelley
Virginia Alice Harding	Pauline Marie Kemao
Donald G. Harrington	Frances Anita Kerr
Dorothy Veronica Harris	Constance Mary Kettlety
Bernadette Margaret Harrold	Wilfred Kallio Kilpinen
Charles F. Hartford, Jr.	John Joseph Kilrain
Dorothea Frances Harvey	George W. King
Helen Irene Harvey	Gerald Francis Kingston
Marjory R. Harvey	Richard John Koski
William J. Harvey	Tarmo Niilo Kydonholma
James Haslett	Leonard Kyle
Albert Hassan	Lewis John Ladas
Alison Hatfield	Joseph John LaFevre
Marjorie Hawco	Marie LaMantia
Alice Hayward	Mildred Lamb
Clare Jean Healey	Earl George Lancy
Margaret Hebert	Clifford S. Larsen
Paul Heffernan	Lois Marie LaRue
Earl Heikkila	Walter Joseph Latham
Charles D. Henderson	Flora Latou
Dan Herlihy	Anne Sylvia Laukkanen
Ruth Gertrude Hibbett	Remo Joseph Laureti
Naseema J. Hid	Teresa Beatrice Lawrence
Virginia Lorraine Higgins	Howard Brown League
Kathleen Mary Hoffman	Norman Walton Leake
Ida Maude Holbrook	Ann Katherine LeCount
Helen Hoye	Louise M. Lennon
Madelyn Hoyt	Margaret L. Leva
Elaine Hubbell	Milton Levine
Margaret Phyllis Hunt	Barbara Lewis
William T. Hunter	Virginia E. Libbey
Theresa Igo	Theresa Libertine

Robert T. Lindquist	Dorothy Meda
Marion Lints	Nancy Messina
Paul Lints	William Mewis
Louise E. Loftus	Jessie Millar
Mary Logan	Jeanne A. Millett
Eleanor H. Lomanno	James Milne
Anna Longmire	Barbara Milnes
Clara Lorito	Cosimo A. Mineo
Miriam A. Lucier	Daniel T. Mochen
Gemma Eleanor Lungari	Jennie M. Mollica
Clarie C. Lymburn	Stephen Montani
Phyllis Lyons	Dorothy Monti
John F. McCaig	Kenneth Morton
Noreen McCann	Evelyn T. Muir
Mary E. McCue	Fred Mullaney
Ruth Edith McDermott	Ruth Muilen
Ethel M. MacDonald	Rita Barbara Muller
John H. MacDonald	Vivian Mulligan
Francis J. McGowan	Dorothy C. Murray
William McInnes	Phyllis Murray
Mary Jane MacIntosh	William Murray
William McKee	Evelyn Myllmaki
George R. McKeuna	Carmella Marguerite Nash
Irma MacKenzie	Charles Nason
Glenn Allen McLain	E. Rosalie Neely
Dorothy Rae MacLean	Theodore J. Nichols
Arthur MacLeod	Alexander Nicholson
John MacLeod	Florence Nicholson
Doris McManus	Howard David Noll
Helena McNabb	Doris Marie Noonan
Dorothy McPeck	Marion Charlotte Norling
Wallace R. McPhee	John K. Norrie
Kathleen T. Mackey	Marie T. Norton
John F. Mahoney	Henry L. O'Brien
Mary Ann Maida	Agnes A. O'Connell
Barbara E. Malone	Bertha Margaret Ogren
Eleanor R. Maloney	John H. Ojala
Harold Manter	Carolyn Oldroyd
John Manter	Robert M. Olsen
Peter Marchese	Esther Lillian Olson
Maria Marchetti	Alice Dorothy O'Neil
Roy Marcucci	Edward John O'Neil
Mary Margiotti	Robert S. Osborne
